

MOST LUMBERMEN SAID TO DESIRE NO PRICE RULES

PORTLAND, Sept. 21.—(AP)—Although definite figures were not announced, representatives of lumbermen opposing fixing provisions of the NRA, declared here today that the majority of Pacific northwest lumbermen have signed a petition to General H. H. Johnson, NRA administrator, urging that price-fixing be eliminated.

The canvass for signatures probably will be completed tomorrow, it was said by E. T. Sturgeon, of Portland, who is leading the drive against price control.

The petition to Johnson argues that price fixing is impossible of enforcement, but that lumbermen generally are in favor of retaining the minimum wage and hour provisions of the code.

The attention of General Johnson is called to what was described as the results of an independent poll completed by the Crow Pacific

Coast Lumber Digest, showing over 80 per cent of all the 1,400 mills in this district either have already abandoned entirely or in part the price fixing feature of the code.

Aberdeen Man Held As Arson Suspect

ASTORIA, Ore., Sept. 21.—(AP)—A man who said he was Charles A. McNaul, 33, an Aberdeen cook, was held in jail today while police investigated the burning of a residence here last night.

The house until recently was owned by Louis Sloan, but police said the title was transferred about three weeks ago to Fred Elkins of Aberdeen.

A police patrol car was passing the residence last night when the officers saw a man run from the property and jump into an automobile. They took the license number of the car and then saw the house was afire. McNaul was captured a few moments later.

Investigators said insurance on the house and furniture amounted to about \$4,000.

Temperatures in different parts of the body vary, although normal body temperature is considered to be 98.6 degrees Fahrenheit.

A Little Homework on Coffee Economics

When that week was ended, the Wackers put their heads together for a little homework on their budget. They made this discovery: Because of the greater richness of Hills Bros. Coffee, it actually made more delicious cups. "It's like this!" exclaimed Mary.

"We've been fooled by the price per pound. What's really important is the price per cup. That's where real coffee economy comes in..."

"You mean," replied John, "that means Hills Bros. Coffee every day for us!"

"I'M TIRED of this confounded changing of coffees, Mary," said John Wacker at breakfast, in a voice that made the dishes rattle. "Why can't we get something good?"... "But Hills Bros. Coffee costs a few cents more a pound," objected Mary Wacker. "And we're supposed to economize."... "I don't care, Mary. Buy a pound of Hills Bros. today. At least I'll have a week's certain coffee delight."
