

ROBINSON TRAIL

PICKED UP WITH FINDING OF CAR

(CONTINUED FROM PAGE 1)

dents of the man's brief stay at her home.

Police found a suitcase containing only an overcoat in the room Mrs. Dearwester had assigned to the stranger. Chief Able immediately ordered finger prints experts to check the car and the suitcase, hoping to determine definitely whether they belonged to Robinson.

Mrs. Dearwester said the man came to her home late in the afternoon. He put his car away, then went upstairs and shaved. When he came downstairs he went out to look at the car and then left, saying he was going downtown. Mrs. Dearwester said she had not seen him since.

Mrs. Dearwester was puzzled by his failure to return and told a neighbor woman about the peculiar incident. The visit of the man became neighborhood gossip and finally reached the ears of a patrolman, who reported it to headquarters and caused the investigation that disclosed the apparently abandoned automobile.

GRAND JURY CALLED

LOUISVILLE, Ky., Oct. 18.—(AP)—A special grand jury to inquire into the kidnapping of Mrs. Alice Speed Stoll today was ordered impaneled Saturday by Federal District Judge Charles I. Dawson.

The order was issued on motion of U. S. District Attorney Thomas J. Sparks who announced yesterday that he would demand the death penalty for Thomas H. Robinson, Jr., 27, discharged lunatic, sought as the man who abducted the young society matron and held her six days for \$50,000 ransom.

Earl J. Connelly of the Cincinnati bureau, department of justice, said a typewriter found in the Indianapolis apartment where Mrs. Stoll was held had been shown by tests to be the one on which the long, rambling ransom note was written, threatening death to the victim and her family.

A possible clue to the whereabouts of Robinson was seen in a report from Hopkinsville, Ky., that one of the \$10 bills had been found there. Federal agents were notified.

Mrs. Frank Robinson, 23, wife of the alleged abductor, and the latter's father, Thomas Henry Robinson, Sr., of Nashville, Tenn., were charged jointly with Robinson, now the object of an intensive hunt, with "kidnaping and conspiracy to kidnap."

A demand for an attorney to represent her was made by Mrs. Robinson after a restless night in the Jefferson county jail. She refused to eat breakfast.

Dr. E. C. Redmond, physician who attends federal prisoners in the jail, was called twice. About 1 a. m., he gave her sleeping tablets and he called again at daybreak. An assistant matron was in constant attendance.

Mrs. Robinson has smoked almost incessantly since entering the jail. Connor said the prisoner voluntarily surrendered a cheap paring knife, with a three-inch blade, when informed she would be searched after entering the jail.

U. S. ASKS TRADE PACTS AT MEETING

ROME, Oct. 18.—(AP)—International commodity agreements, bilateral and multilateral trade treaties are suggested for discussion by the United States Department of Agriculture in a memorandum to come before the biennial meeting of the General Assembly of the International Institute of Agriculture meeting beginning Monday.

These agreements, the department hopes, would have the effect of breaking through barriers impeding international agricultural trade. Rexford Tugwell, undersecretary of agriculture, assisted by seven other American delegates, will present the department's ideas.

The memorandum suggests debate on bilateral commercial agreements but says "an important distinction must be made between those agreements which actually increase international trade through the reduction of trade barriers and those which have to their principal effect the diversion of trade through preferential agreements of various kinds." The latter kind tend in some cases, says the memorandum to reduce the total quantity of international trade.

Multilateral and regional trade agreements are also suggested for discussion, provided the same distinction as that for bilateral treaties is borne in mind.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

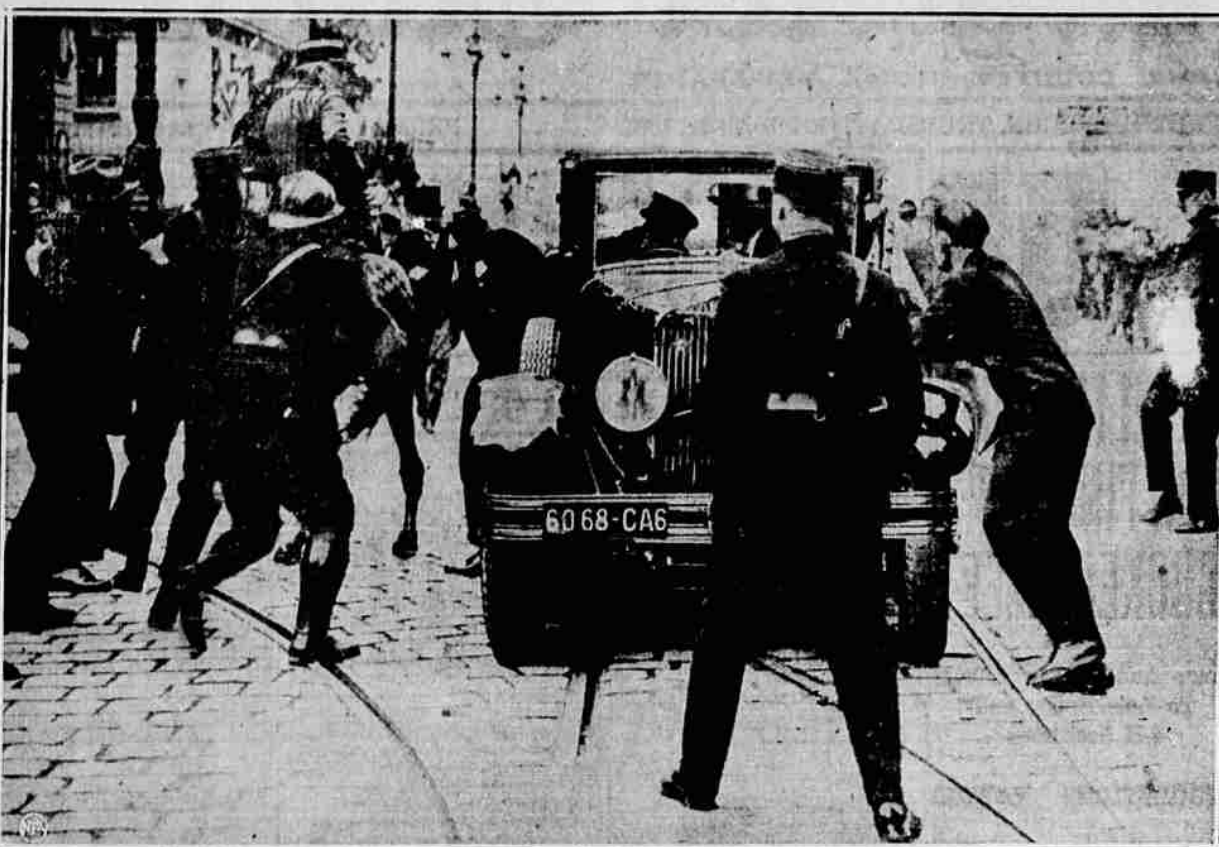

If you have trouble with too frequent bladder passage with acrid, annoying burning and itching, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbar, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS.

A doctor's prescription...which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS...the old reliable that has been used for 40 years. They are safe, effective and will help to wash out the 15 MILES of kidney tubes.

FIRST ASSASSINATION PICTURE TO REACH AMERICA!

How the guards of King Alexander and Loula Barthou handled Peter Kalem, the assassin, is vividly shown in this picture, the first to reach America from Marseilles, taken immediately after the fatal shots were fired. The chauffeur of the royal car has grasped the assassin by the coat collar, and the culprit raises his arms to defend his head from the sabre blows of the mounted gendarme while soldiers run to the scene. The mortally wounded king and Barthou have slumped out of sight in the back of the car.

CCC OPERATIONS READY TO START ON FALL CREEK

Plans have been completed by the national forest service to set up a crusher to surface roads being built by the CCC crew located at Fall Creek, it was announced Thursday by H. G. White, assistant supervisor of the Willamette national forest. The crusher will be located a mile and a half above the Fall Creek forest guard station. D. D. Conley, formerly foreman on a county rock crusher, will have charge of operations and the plant is expected to be ready in a few days.

The CCC men transferred to the Fall Creek camp from Lake Odell at the Summit of the Cascades have all arrived and are busily engaged in arranging the camp for the winter. Sixteen local woodsmen have just been enrolled for this camp and they will report for duty Friday. They are taking the places of men whose enlistments have expired.

L. N. Edge, superintendent of construction at the Oakridge CCC camp, was here Thursday, conferring with Mr. White and other officials at the

forest office. He reports that the men at this camp have located a quarry of hardscrabble rock on the old Willamette road above Oakridge and the material, which is almost as good as crushed rock and almost as fine, is being used as surfacing on that road. Six miles of the road has already been surfaced and it is planned to spread the material on 16 miles of it. A double shift is being employed and six trucks and 24 men are being used. Much better headway on all road projects handled by CCC men is being made this fall than last fall, forest officials report. The weather has not interfered in the least, whereas at this time last year all crews were working in deep mud which largely impeded their progress.

Home-Made Wooden Snowshoe Is Found

A home-made wooden snowshoe, found by Mrs. George N. McLean of Eugene at Beaver Marsh, near the summit of the Cascade mountains, has been added to the collection of relics owned by Cal M. Young, county commissioner.

The snowshoe was apparently fashioned with a pocket knife and Mr. Young thinks it is not more than 20 years old as the wood has not rotted but it is white with exposure to the weather. The pieces are fastened together with the modern wire nails indicating that it was not made in the early days.

BIG SLASH MADE IN STATE'S DEBT

SALEM, Ore., Oct. 18.—(AP)—Outstanding state bonds on October 1 totaled \$582,634,510, a reduction of \$10,691,000 during the past six years, State Treasurer Rufus C. Holman announced today.

October 1, 1928, the debt peak totaled \$68,325,710, or approximately \$65 for every man, woman and child in Oregon.

"The largest reduction in state bond indebtedness was accomplished through retirement of state highway bonds," Holman said.

"On October 1, 1924 the highway bonded debt totaled \$38,060,750 and on October 1, 1934 but \$24,866,750. The aggregate of highway bonds issued from the inception of the state highway program, including refunding bonds, was \$40,700,000."

Oregon veterans state aid bonds issued to date amount to \$32,850,000. Of this total, \$25,375,000 were outstanding on October 1, compared to \$20,000,000 on October 1, 1924.

On October 1, 1924 the veterans' commission held first mortgage loans totalling \$18,806,612.78.

"While the bonded indebtedness of the state," Holman continued, "is still heavy, material progress in the reduction of indebtedness has been made during recent years. Bonding

authority granted under the state constitution has not been fully used.

"Under the constitution the veterans' commission may yet issue \$3,387,496 in bonds.

"The largest unused bonding authority in the constitution is that which has been granted for power development. The state may issue power development bonds in an aggregate amount of 8 per cent of the assessed valuation of the state or for a total of \$57,425,991. None of such bonds have been issued up to the present time."

Another Road Case Up in Circuit Court

Another Benton county road damage case was being tried Thursday in circuit court before Judge G. F. Skipworth. His is a case wherein Thomas E. and Charlotte Neve are suing for \$1000 on account of the opening of a road through their place, it being the same road over which Mrs. Ada Friend sued.

The jury in the latter case was still out at 2 p. m. Thursday.

RECRUITS SOUGHT

Five men qualified as surveyors for the 26th Army engineers will be enlisted by Sergeant C. S. Greenwell of the Eugene Recruiting office, he announced this week. This group of engineers is engaged in mapping the Olympic peninsula and mountains. Persons interested may write or call at the recruiting office, 39 Hampton building.

LANE TEACHERS ASSEMBLED FOR ANNUAL MEETING

(CONTINUED FROM PAGE 1)

ers now confronting the department and the solution of using them in the work of adult education, a new venture, was described.

Miss Charlotte Linfoot, assistant director of Junior Red Cross, Pacific branch, addressed the assembly at 11:25, stressing the contribution of the Junior Red Cross to the educational aims of the schools in improved human relationships.

Seek Broader Vision
"Youth has great ideals," said Miss Linfoot, "concerning a perfect world, one in which men and women can attain their highest capacity for service and fellowship. The responsibility of educators is to preserve that faith by catching a real vision of a world where such ideals may be practicable. In learning to cooperate with neighbors at home and abroad in appreciation of their difficulties as well as their achievements, the Junior Red Cross is aiding the schools in widening the horizons of the children to the end that these objectives may be obtained."

Miss Luella Markley, editor of Child Health, gave the main address of the afternoon at 1:45.

Health Program Outlined
Four objectives which every teacher should strive for in her health program were outlined by Miss Markley as follows: (1) To train the child in habits and attitudes which are necessary for a desirable health behavior; (2) the development of high standards and to provide motives for achieving those standards; (3) to provide with scientific knowledge and (4) to create in the child a responsibility for personal and public health.

"Looking back we can see how far we have come in developing an adequate health program. Looking ahead we can't foresee the great lengths to which we can go and looking around us we can see that every individual has a contribution to make toward the development of this program and the teacher is responsible for a large share in this development," said Miss Markley.

Elections Due Friday
Departmental meetings for all

teachers, were held Thursday morning and afternoon. A luncheon for Monmouth graduates was held at the Del Rey cafe and high school principals met for lunch at Seymours.

Thursday a banquet for men was scheduled at the Del Rey cafe and at 8 o'clock an informal dance for teachers and friends was slated at the Elks' club.

Friday afternoon election of officers will be held for the coming year. Principal speakers on the program Friday are Rex Putnam, superintendent of Albany schools at 9:15; Dr. Victor P. Morris on "Present Economic Trends" at 11:20; Dean James H. Gilbert of University of Oregon at 1:30, and Dr. D. V. Polling, extension secretary of higher education at 2:30. Lawrence C. Moffett, county school superintendent is presiding at the session.

FALL FLOWERS ARE DISPLAYED BY CLUB

One of the most outstanding garden shows held in Eugene was displayed Wednesday night at the chamber of commerce by Garden club members at the second monthly flower show and program.

Two tables of unusual flowers were displayed and one long table of colorful evergreens and shrubs was shown. Prizes in the table of colorful evergreens and shrubs were won as follows: First, Peggy Bucholy with a display of pine cones; second, Mrs. A. T. Cockline with a display of English haw and third, Mary E. DeVoss with a display of holly and berries.

Seasonable flowers, including dahlias, chrysanthemums and other fall blossoms were shown.

Robert Goodall spoke to the group on "Color in the Fall Garden" and gave a list of trees and shrubs that would add color to a garden.

Mrs. W. H. Maxham, chairman of the project committee, outlined projects which the club would undertake during the coming year. Mrs. J. O. Holt was chairman of the committee in charge of the program. Mrs. Fred Broders was in charge of the arrangements for the flower show.

A chrysanthemum show will be held at the next meeting, Nov. 21. These displays are open to anyone interested in gardening it was announced.

Buenos Aires has a new subway four miles long.

Nettles sting because they contain poison which causes skin when the hairs are broken.

You can't fool your stomach

So cook with CRISCO... the wholesome fat that digests quickly

ONE OF MOTHER'S OFF DAYS

MOTHER READS A TIP

MOTHER'S FINE NOW

Don't mistreat your digestion. Treat it kindly with luscious flaky Crisco pies and cookies and crispy Crisco-fried foods. Your stomach doesn't have to work overtime on foods cooked with Crisco. Crisco is light, creamy wholesome fat that digests quickly.

So make all your favorite pies and cookies now with Crisco! They'll come out of the oven so flaky and golden—greasy and slow to digest! And try with Crisco. No fear of fat-soaked foods if you fry properly with Crisco—heat your Crisco so hot that foods are instantly sealed in a crispy brown. They'll actually look "dry-fried."

By Crisco's own secret process refined pure oils are changed into a fluffy creamy quick-digesting shortening. And Crisco stays that way without ice-box help.

Sold in sealed cans—to protect your health.

CHOCOLATE PINWHEELS

4 tablespoons Crisco
1 cup sugar
1 egg yolk
4 tablespoons milk
1 1/2 cups flour
1 teaspoon salt
1 teaspoon baking powder
1 square chocolate
1 teaspoon vanilla

Blend Crisco with sugar and egg yolk. Add milk, then the sifted dry ingredients and the vanilla. Divide the mixture in half and to one-half of it add the melted chocolate. Roll the white dough into a thin sheet and then roll the chocolate mixture into a sheet of the same size. Place the chocolate dough over the white and roll up like a jelly roll. Bake several hours, then cut down in thin slices and place on a cookie sheet rubbed with Crisco. Bake in a moderately hot oven (375°F.) for about 15 minutes. Very finely ground nutmeats may be sprinkled over the white dough before the chocolate dough is put in place. Makes about 4 dozen cookies.

Crisco is the registered trademark of a shortening manufactured by The Procter & Gamble Co.

CRISCO

Sup. U. S. Pat. Off.

digests quickly

At the Register-Guard Cooking School, conducted this week in McDonald Theatre, Miss Lola Bailey uses and recommends CRISCO, the modern, quick-digesting shortening.

Congratulations, Madam!

Your choice has won

FIRST PLACE

TO ALL THE EARLY BUYERS OF AIRWAY COFFEE: In one breath we congratulate you—in the next we thank you. For your early choice of AIRWAY Coffee has been followed since by hundreds of thousands of other women. Your wise choice has set the example that has made it the largest selling package

coffee West of the Mississippi River. And no wonder! AIRWAY Coffee has freshness, flavor, full-bodied strength, low price. It is packed in a flavor-protected package, sent to the stores on a scheduled-delivery plan—and ground to your exact requirements the moment you buy it. See it ground—KNOW it's fresh.
