huge accumulated surpluses should be distributed in dividends or spent on replacements. Administration folks have so often used the threat of a central bank as a hand-drawn club to get the bankers to lending money that it's anybody's guess whether latest reports of a revived White House intent to push such legislation are to be taken seriously.

Legislation, perhaps of drastic character, which will tend to make the Federal Reserve system more of a central banking system is certain. Under Governor Marriner Eccles, the reserve board will be given more centralized power over the 12 reserve banks and relax the rules to determine eligible paper offered for loans.

Further devaluation of the dollar is sure to be an issue and even such a conservative as Senator Bulkley of Ohio says such action may be necessary to raise the price level. Silverites will again be clamoring for re-coinage at \$1.29 an ounce.

The U. S. conference of mayors has suggested direct non-interest loans to cities, the government taking bonds for the loans and issuing currency thereon.

Excise Taxes to Stay
The boys on the house ways and means committee are again talking blithely of "plugging loopholes" in the tax law to bring in more revenue. Some of them estimate, for instance, that about \$3,000,000 more spent for internal revenue agents would bring in about \$75,000,000 more taxes.

Bank Legislation Sure
Don't be surprised if there's considerable furor over proposals to jimmy into corporate surpluses via the tax route. Progressives will argue that

There won't be any new laws to take the profits out of war or regulate the munitions industry if the senate munitions committee can help it. That committee wants to investigate for many more months and make its report to the next session of this congress.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL
And You'll Jump Out of Bed in the Morning Rarin' to Go
If you feel sour and sick and the world looks pink, don't swallow any more calomel water, oil, laxative candy or chewing gum that respect them to make you suddenly aware and nervous and full of excrement.
For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, which often breaks out in pimples. Your head aches and you feel drowsy and out. Your whole system is poisoned.
It takes three good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain a wonderful, harmless, gentle vegetable extract, amaranth, when it comes to making the bile flow freely. But don't look for liver pills. Ask for Carter's Little Liver Pills on the red label. Beware of imitations. Buy at drug stores. ©1931 C. M. Co.
