FORD V-8 FOR 1935

A Distinctive, Modern Car for the Woman Motorist

Is a car that women will stop to admire as readily as they do a new gown.

LUXURIOUS APPOINTMENTS
Modern ideas in design and coloring are seen in the car interiors. New upholstery with narrow piping and pillowed seats; hardware in tones to match upholstery; a new, more convenient and very modern instrument panel; curved gear shift lever which adds to the comfort of passengers in the front seat; double sun visors; doors which are hinged in front and swing forward; Clear-Vision Ventilation—these are some of the features which make these new cars so distinctive.

FORD V-8 RELIABILITY AND SAFETY
Every Ford V-8 for 1935 has Safety Glass all around—in doors and windows—at no additional cost. Every car has welded all-steel body. And, of course, every Ford has the powerful and reliable V-8 engine which makes the car such a satisfaction to drive as well as economical to operate. We invite you to drive this New Ford V-8 and see for yourself why it is the ideal car for women motorists.

• LOW FORD PRICES •
12 BODY TYPES \$495 up

(F. O. B. Detroit. Standard accessory group including bumpers and spare tire extra. Conventional terms, if desired, through Universal Credit Co.)

To the power, speed and brilliant performance of the Ford V-8, there have been added a new beauty, a new luxury—and a marvelous riding ease. The Ford V-8 has always been a favorite with men. You've heard the men in your family talk about it. "That's a great car," they have said. "Eighty miles an hour when you want it, a smooth, powerful engine, swift pick-up and the ability to 'take it' all day long."

But the New Ford V-8 is a car in which women, too, can take a still keener pride and delight. A more beautiful car, with modern style in every line and appointment.

A "FRONT-SEAT RIDE" FOR BACK-SEAT PASSENGERS
In the New 1935 Ford V-8 you ride forward—nearer the center of the car. You ride on longer, more flexible springs. All weight is distributed to give Center-Poise. The back seat is roomy, restful and relaxing—the ride becomes a smooth and flowing glide at any speed, on any kind of road.

THE ROOMIEST, MOST COMFORTABLE FORD EVER BUILT AND THE EASIEST TO DRIVE
The New Ford is a bigger car than any previous Ford. It has wider doors and is lower—easier to step in and out. Front seats are 4 to 5 1/2 inches wider. New, larger space is provided behind the rear seat for suitcases and bags, thus avoiding crowding of passengers.

New features make the Ford V-8 still easier for women to drive. There is a new soft clutch which requires less foot pressure. The brakes also require less pressure, although they are more powerful and stop the car more quickly and smoothly than ever before. New steering mechanism makes the car easier to handle.

STYLE THAT WOMEN WILL ADMIRE
A glance will tell you that the New Ford is just about the handsomest car you have ever seen. Its lines are modern, graceful, without being freakish. Its colors are new and attractive. It
