SECURITY PLAN STORY

each employers' pay roll. It will be increased to two per cent in 1942 and eventually to five per cent in 1957.

Anybody Over 65 Eligible

Q. Who will be eligible to receive pensions under the permanent system? A. Any employee is eligible when (1) he is 65 years old, and (2) taxes have been paid on his wages for at least 200 weeks over a five-year period commencing before he is 60, and (3) he is no longer gainfully employed by another.

Q. How much will these pensions be? A. When they begin in 1942, about $24 a month would be the maximum. Later they could range up to nearly $100.

Q. How is the amount determined? A. The bill provides two mathematical formulae for determining this—one for persons on whose salaries taxes were paid prior to Jan. 1, 1942, and one for those who paid taxes thereafter.

Q. Explain how this works out for workers on whose salaries taxes are paid before Jan. 1, 1942. A. The bill specifies that for this class the monthly pension shall be an amount equal to 15 per cent of his average monthly wage if taxes were paid in his behalf for 200 weeks; plus one per cent additional for each 40 weeks on which taxes were paid up to an additional 200 weeks; plus two per cent for each additional 40 weeks up to 400 more. But the average monthly wage in no event shall be considered to be more than $150 a month.

$60 Maximum Provided

Q. What would the maximum pension be for those whose salaries would be taxed prior to 1942? A. $60 per month, figured on a salary of $150 a month or more.

Q. How soon could one get that large a pension? A. To obtain the maximum, taxes would have had to be paid on one's wages for 800 weeks or a little over 15 years as the taxes do not begin until 1937, the maximum pensions for those now employed could not be obtained until 1952.

Q. Now about those young people who will not have any salaries to be taxed until after Jan. 1, 1942? A. For this class the pension will be 10 per cent of the average monthly salary for the first 200 weeks and one per cent more for each 40 weeks additional. Again $150 is the maximum to be used in figuring average monthly salary.

Present Aged on Temporary Plan

Q. Suppose I am already nearly 65 and in need; will this compulsory national system help me? A. o, the compulsory system will not aid anyone who become 65 before 1942 and who has not had a tax paid on his wage for at least five years. The cooperative state and federal plan is designed to care for those who need immediate aid.)

Q. What else does the government plan to help old age? A. In order to help individuals provide for themselves, the government plans to sell annuity policies similar to those issued by insurance companies. They would mature at the age of 65 and the maximum amount would be $3000.

Q. Suppose I die before I become eligible for a pension or before the annuity policy became due? A. Your dependents would receive the amount that you had paid, or had been taxed, plus interest.

UNEMPLOYMENT INSURANCE

Q. What is the general purpose of the federal unemployment insurance plan? A. To encourage speedy development of state insurance systems that will provide payments to persons who lose their jobs.

Q. Suppose I lose my job, how much will I receive? A. That depends largely on provisions of the law your state enacts. Administration experts recommend it should be around $15 a week.

Q. Would the payment continue indefinitely? A. No, probably not more than 16 weeks.

Q. Where is the money coming from to finance these payments? A. Most of it will be colected by the states, but in order to make sure that all business contributes, the federal government proposes to levy a tax on the payrolls of all persons more persons. Ninety per cent of the or corporations employing four or federal tax will be cancelled by the federal government if the employer has contributed proportionately to state funds.

Q. When will the tax begin? A. Jan. 1, 1936.

Q. Hwo much will the tax be? A. The basic rate will be three per cent of the amount of the payrolls for the first two years. If the federal reserve industrial production index has no risen to 8 per cent of the 1923-25 average, it will be only one per cent.

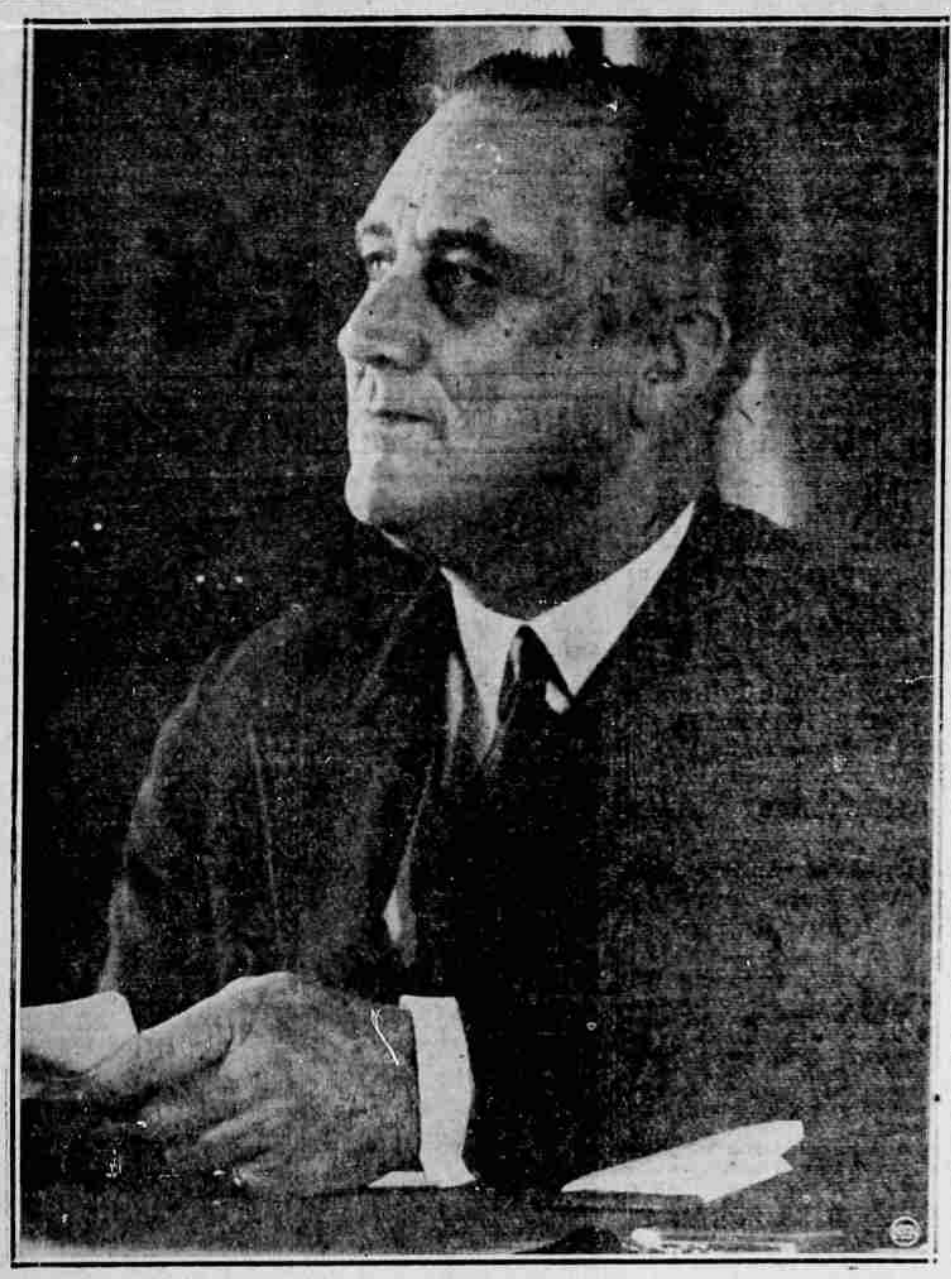
Q. What is the reserve index now? A. Around 75 per cent.

Q. Do workers bear part of this tax? A. No, unlike the oldage pension tax, this one is to be borne entirely by the employers, according to the bill as now drawn.

Q. Who will administer the funds? A. All funds collected under state unemployment insurance laws, and all proceeds of tye federal tax, will be deposited in the U. S. treasury and invested by the secretary. The states would administer disbursement of payments to those who lose their jobs.

Q. Are there safeguards in the bill for organized labor? A. Yes, as introduced, the bill provides that no worker shall be disqualified from benefits because he participates in a strike, refuses to work at standards below those prevailing in his locality, refuses to join a company union, or insists on joining a labor union of his own choosing.

COLLABORATORS IN THE TREMENDOUS NATIONAL PROGRAM FOR ECONOMIC SECURITY!



(Photo by Margaret Bourke-White; Copyright, 1935, NEA Service, Inc.)

These two character studies by Margaret Bourke-White show President Roosevelt and Senator Rober F. Wagner, of New York, co-authors of the great program for economic security which was laid before Congress Thursday. Wagner, who began life as a German immigrant boy, has known poverty face to face, and long before others recognized the necessity he was battling for old age pensions, health services, unemployment insurance. The program as submitted in the new Wagner bill represents combined cabinet thought and the study of experts but Wagner's has been the guiding influence.

Huge Egg Causes Death of Pullet

W. L. Torrey of "My Place," an eating house at 30 West Eighth street, broke a large egg Friday morning and inside found another fully developed egg with hard shell and all. Surrounding the smaller egg was the white and inside the smaller one was the white and yolk.

The man who sold the egg to the eating house said it was laid by a pullet and that it died from the effort.

CHAMBER PLANS STORY

bers of the Corvallis chamber of commerce to meet with Eugene chamber officials to explain the plan used in a successful popularity contest recently completed by the Corvallis group. The Corvallis men, Mr. Wilhelm said, estimated that a similar contest might raise several thousand dollars here. President Stevenson stated that the local chamber would invite the Corvallis men here to explain the plan.

Five new memberships in the chamber were announced Friday as follows: Rex Bakery, Midland National Life Insurance company, Carroll Drug store, Gold Star Auto Park, The Hub.

Directors and former directors of the chamber contested Friday declared themselves in favoring of the moving plan not as the most desirable step but as one dictated by circumstances. Many of the votes cast in favor of moving the offices were cast by members who want the ground floor location returned if at all possible, they said. Opinions follow:

Clarence V. Simon: It would be better if the office were not moved but if we can't get the needed support there is nothing else to do.

C. P. Tillman: The chamber should be put on a business basis and operate within its means, paying its bills as it goes along. The chamber can do just as good work in an office upstairs as on the ground floor and the less overhead for salaries, rent, and the like the more money there is for the real work of the chamber.

Walter M. Ransom: Ground floor offices are much more desirable for the proper carrying on of the chamber's work. It would be fine if we could turn loose the upstairs and concentrate on the ground floor but a long lease on the upstairs forbids such a step. That makes the move upstairs logical as lonv as there is no greater support and should recase more money for carrying on the program of deveoping and advertising Eugene and Lane county, the reason for the chamber's existence.

Loy Rowling: There are arguments on both sides of the moving question but what the chamber needs most of all is full cooperation of all its members and business men of Eugene.

Frank B. Reid: When you don't have the income you have to cut on expenses. We need money to get out literature advertising Eugene, not having any to supply the demands being made for it by people seeking new homes. The proposal to move the office upstairs i sthe only solution unless more support is secured.

Obsidians to Play On "Home Grounds"

On account of the deep snow blocking traffic on the McKenzie highway above the Belknap CCC camp the Obsidians will not make the contemplated trip to the White Branch playground area over the week-end, it was announced Friday. Word was received Friday that the snow was 38 inches deep at McKenzie Bridge.

Instead of the trip to White Branch the Obsidians will take a trip to some nearby point where there will be snow sports.

the impropriety of this outburst. I am asking you, don't you see?"

Mrs. Hauptmann stood silent.

"Will you promise you won't do it again?"

"I like to try but sometimes I can't help," she apologized.

Her voice broke.

"I'll not again offend these gentlemen and the jury."

Justice Trenchard suggested that Hauptmann promise, too. Reilly interposed that his client had wanted to apologize for his conduct of yesterday, when he shouted "Mister, Mister, you stop lying! You are telling a story!" at Special Agent Thomas H. Sisk on the witness stand.

Hauptmann Keeps Control

Hauptmann was tense, but motionless, throughout his wife's outcry and subsequent apology. As questioning of Mrs. Achenbach resumed, Mrs. Hauptmann settled back into her seat, her face still flushed.

Taking up her story Mrs. Achenbach said Hauptmann joined them as they were talking on her front porch that morning.
