## Now try this WORLD FAMOUS GIN

Many people still think of the harsh raw concoctions of prohibition when they think of gin. That is because they have never tasted this world-famous gin. In every country in the world Gordon's Gin is the standard of quality. Always a little higher priced, yet more of it is sold than any other kind.

To test Gordon's, to appreciate its smoothness and bouquet, pour some in a glass and taste it straight.

It has the bouquet and smoothness of a rare old cordial. Much higher in proof than other gins, still it is never raw or harsh to the throat.

Your cocktails will taste much better if you make them with Gordon's Gin. And what's more, you'll feel much better the next morning.
