STUDEBAKER still stock car champion

OF INDIANAPOLIS SPEEDWAY!

THIS year, the specially built racing cars swept the boards in the Memorial Day race at the Indianapolis Speedway. Not a car produced by a stock manufacturer was able to last the 500 miles.

The great performance at Indianapolis is still Studebaker's. In 1932 and 1933, the last time Studebaker contested, cars entered by the Studebaker factory finished brilliantly. In 1933, seven of the first twelve winners were Studebaker powered. In 1932, the leading Studebaker broke all previous time records for the race.

Get that speedway stamina in your 1935 car. Get a Studebaker—a Champion. You can do so now for just a few dollars more than you have to pay for one of the very lowest priced cars.

WEDDINGS ENLIVEN FLORENCE SOCIETY

FLORENCE, June 11.—(Special)—Two weddings of much local interest are of recent note. Merle Hanson, son of Mr. and Mrs. Hans Hanson of Glendale, was united in marriage to Miss Ina Christensen, daughter of Capt. and Mrs. Ludvig Christensen, at the bride's parental home in Rand.

She is a niece of Leonard Christensen of this city. The wedding was an afternoon affair. Mr. Hanson has been working in the Crown Willamette logging industry at North Beach, where he and his bride were to be at home after June 10.

Miss Willis Martin, daughter of Mr. and Mrs. Bert Martin of the Ada district, and granddaughter of Mrs. Amy Morris of Florence, was married shortly before to Clarence Hall, a Roseburg man, the ceremony taking place at Reedsport, where Hall is employed on the bridge work. Mrs. Hall is an ex-student of Siuslaw high school here and is well known among the younger set.

Two events enlivened the day for women of the Sunset Rebekah lodge and its social order, the Three Links club, here Thursday. In the afternoon Mrs. Fred Hewitt was hostess at her home to a session of the latter order, meeting regularly for June. There was an attendance of 14 ladies. They enjoyed a dainty luncheon and an afternoon of bridge. In the evening the Rebekah lodge listened to the reports of its delegates, Mrs. M. D. Morgan and Mrs. Ernest Funk, who attended the recent state Rebekah assembly in Salem. The lodge voted the reports as very complete and very interesting. The meeting was also featured by an invitation to the annual strawberry feed this Wednesday evening, extended by Heceta Odd Fellows lodge.

A previous gathering in local fraternal circles for the ladies was that of a benefit card party given by the Allstar club of Vesta chapter of the Eastern Star, at which those present included Star members from Reedsport and Gardiner, as well as local women. The affair was an afternoon occasion held in the Odd Fellows hall and featured with a 1:30 o'clock dessert luncheon, following which both auction and contract bridge were played, there being eight tables, Mrs. Wm.

Price, first place in accuracy for first year students.

WHOSE WORD WILL YOU TAKE FOR BLOWOUT PROTECTION?

Low wheels, larger tires, and the high speeds of today make blowout protection in your tires vital to your safety as never before. Are you accepting exaggerated and unsupported advertising and sales claims—or are you accepting the judgment of men who risk their lives on their tires and know from experience the tire that gives them the greatest blowout protection?

Thirty-three race drivers and their mechanics lined up for the dangerous, gruelling grind of the 500-Mile Race at the Indianapolis Speedway May 30th. Firestone Tires were purchased and used on every one of the thirty-three cars.

Kelly Pettito won the race at an average speed of 106 miles per hour. Wilbur Shaw was second, flashing across the finish line just behind the winner. Both drivers broke the track record without tire trouble. In fact, not one of the thirty-three drivers had tire trouble of any kind.

Gum-Dipping is one of the outstanding reasons why Firestone Tires give such amazing performance. By this process every cotton cord is soaked and every strand is insulated with pure liquid rubber, preventing internal friction and heat, the main cause of blowouts. Gum-Dipping is a patented extra process not used in any other make of tire.

Protect your life and the lives of others by equipping your car with Firestone Gum-Dipped High Speed Tires—the safest tires built.

It will be worth your time to read these three questions and their answers:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?"

ANSWER—Leading university tests show Firestone High Speed Tires stop your car 15% quicker than the best of other popular makes of tires.

QUESTION 2—"Are they built to give me the greatest blowout protection?"

ANSWER—Unequaled performance records for sixteen consecutive years prove that Gum-Dipping gives you the greatest blowout protection ever known.

QUESTION 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

ANSWER—Thousands of car owners report unequalled mileage records—evidence of the longer wear and greater economy of Firestone High Speed Tires.
