

### LANE 4-H CLUBS TO HOLD ANNUAL PICNIC JULY 7

The annual county-wide meeting of all Four-H club members, leaders, parents and friends of club work in Lane county will be held at Dilley's Riverside park Sunday, July 7, it was announced Friday by R. C. Kuehner, county club leader.

In recognition of the splendid record made by all of the club members the past year in Lane county's winning second in the national county progress contest and first in the 11 western states, The Register-Guard is going to be the host for all of the club members and their friends. Ice cream is to be furnished and prizes will be awarded in the various races, games, and stunts, that are to be a part of the program.

To reach Dilley's park those planning to attend are instructed to turn down stream at the Coast Fork bridge between Goshen and Pleasant Hill. The picnic program has been announced as follows:

- 10 a. m.—Baseball games (have teams ready and clubs will be matched on the grounds); swimming; horseshoes.
- 12:30 p. m.—Basket dinner.
- 1:30 p. m.—Meeting of the Lane County Leaders' association; discussion of county Four-H fairs.
- 2 p. m.—Games; races; stunts.
- 3 p. m.—Swimming.

### Don Woods in Party Attempting Mount Waddington Climb

Members of the Obsidian club and others here who have climbed high mountains are interested in an attempt being made by a party of Californians to climb Mt. Waddington in British Columbia. The party, of which Don Woods of San Jose, formerly of Eugene and a son of Captain LeRoy Woods, is a member, passed through here Sunday on the way north. They chartered two seaplanes at Vancouver, B. C., and landed 200 miles north of that city to begin their journey through virgin forest without trails to the base of the mountain. The top of the mountain has never been reached by man, due to a 800-foot perpendicular rock cliff that has to be scaled. The California party took along a lot of climbing equipment that has never before been used on the mountain. A part of it consists of a number of long steel spikes which will be driven into the rock and on which climbing ropes will be tied. The climb is attracting nation-wide attention because of the numerous unsuccessful attempts made in the past. Mt. Waddington is 13,200 feet high.

### Surprise Party Held at Marcola

MARCOLA, June 28.—(Special).—A surprise birthday party was given for Miss Elma Mays at the home of her parents, Mr. and Mrs. Walter Mays, Saturday evening, June 22. The evening was spent playing cards and visiting with refreshments of sandwiches, pickles, cake and coffee served to the following: Ray Bates, of Wendling, Mrs. Eda Jacques, Mr. and Mrs. Charley Hill, Mr. and Mrs. Albert Wilson and daughters Billie and Bonnev, Alfred Fenimore, Mr. and Mrs. Riley Garrison, Mrs. Sue Rogers, F. L. Crenshaw, Mr. and Mrs. Walter Mays and Phyllis Mays.

Mr. and Mrs. Joe Taylor of Eugene were visitors recently of Mr. and Mrs. George Savage. They are old-time acquaintances as they lived neighbors when they all lived in eastern Oregon.

Mrs. Millie Savage of Springfield is visiting at the home of her son, Mr. and Mrs. Clifford Savage at Mabel.

Mrs. Doris Johnson is working at the cannery in Eugene.

Mr. and Mrs. Carl Martin and Janice Martin, Mr. and Mrs. August Shunk and Ella Shunk drove to Westfir Sunday.

Mrs. Wilma Abington and daughter of Westfir spent the week-end at the home of her father, Mr. and Mrs. Ed Savage here.

Mr. and Mrs. Rhinehart Peterson are moving into the Edwards house, formerly occupied by the A. L. Clark family.

J. S. P. Turner and Mr. Sullivan were business visitors in Eugene Monday.

The earliest known manuscript of any part of the Bible is a papyrus from the early third century showing parts of Genesis.

### DENIAL!

Fresh from her trip to the Orient, Almee Semple McPherson took time out from the welcoming ceremonies to Angelus Temple, Los Angeles, to deny rumors of her engagement to Homer Rodeheaver. She is shown with Rhea Crawford (left), in charge of the temple while Almee was away.

MEXICO TO PAY MEXICO CITY, June 28.—(AP)—American Ambassador Josephus Daniels and acting Foreign Minister Jose Angel Ceniceros today signed a general claims agreement under which Mexico agrees to pay the United States \$5,448,000, growing out of damage to American property in revolutions from 1910 to 1920.

RIOTING RENEWED JOPLIN, Mo., June 28.—(AP)—Rioting broke out today between striking miners and workers in the tri-state lead and zinc field 24 hours after national guardsmen were withdrawn.

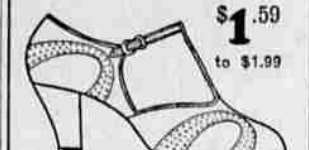

There are four birds whose wings are too small for flying: Cassowary, kiwi, emu and ostrich.

### EDUCATORS STUDY F. D. YOUTH PLANS

(CONTINUED FROM PAGE 1)

of having another depression. One of the big factors that is prolonging the present depression is lack of education among the masses.

George C. Selley, dean, University of Wisconsin college of letters and science—"It will be a great boon to students because so many of them have been doing all sorts of jobs which give them no chance to study."

John Callahan, Wisconsin superintendent of public instruction—"Such a program offers material aid to young people. Wisconsin high schools graduated about 25,000 pupils this spring. It is estimated that only one-third of them will find something to do. Perhaps 50 per cent of them will go to college where many of them will be at least partially dependent on jobs. The balance unemployed create quite a problem."

President A. R. Dinwiddie, Tulane university, New Orleans—"I am very much interested in the national youth administration, properly administered it would not merely assist young men and women to get a start in life, but it would help remove the cloud of depression and almost despair that has enveloped the college graduates and youth generally in their outlook upon life."

Dr. M. L. Brittain, president of Georgia School of Technology, Atlanta—"This proves again what a great humanitarian we have for a leader. This movement is directed against one of the greatest sore spots of the depression and I sincerely believe it will meet with all the president's expectations. It is praiseworthy and all educators should appreciate it."

Dr. M. D. Collins, Georgia superintendent of education—"I am tremendously interested in this movement and it is very gratifying. The money invested will pay bigger dividends than all other sums spent for recovery. This is a challenge to youth and I am confident they will meet it. I can only commend highly our president for his consideration of the youth of America."

Dr. Walter Dill Scott, president of Northwestern university, Evanston, Ill.—"There are 1,000,000 young people graduating from secondary schools this year and the colleges and universities can only take care of 320,000 of them. The majority of the other 670,000 cannot find jobs. Something must be done to preserve these boys and girls and if the new government program can help them learn trades or find jobs it will be a splendid thing."

Rev. Robert S. Johnson, president of St. Louis university, St. Louis—"As I understand it, the president's plan is not only a continuation of, but a vast enlargement upon, the PWA and FERA plans for student aid. These two have been so helpful that the present plan should be much more beneficial. It has a very wide vision and marvelous attention to detail. I think it fills a very urgent need."

Chancellor E. H. Lindley, Kansas university, Lawrence—"I have just returned from Washington, and know that the plan was carefully worked out by persons familiar with the problems of youth today. The provision is a belated one, and I am glad that it has been gotten around to. It appears entirely practical and sound to me. Kansas university has found the student employment plan a fine piece of relief legislation."

Charles E. Beury, president of Temple university, Philadelphia—"Providing jobs for college graduates and education for those who cannot afford it, is a great national need. And I am glad President Roosevelt has seen fit to establish the national youth administration. It appears to be an extension of the old FERA idea, which has already helped thousands of young people and also the

colleges. Naturally, I am heartily in favor of an extension of this work in which the universities and colleges of the country cooperated and in which, I am sure, they will continue to cooperate under the extended relief plan."

Thomas S. Gates, president of the University of Pennsylvania, State College, Pa.—"There is no doubt that the inability to find worthy boys and girls to continue their education has constituted a problem of great seriousness, and if the president's plan contributes toward a solution of that problem, it is an experiment of most important significance, the development of which will be watched and aided by those active in the field of education with the greatest interest and sympathy."

TO CALIFORNIA SPRINGFIELD, June 28.—(Special).—Miss Barbara Chalender and Miss Ethel Johnson left Thursday for Richmond, Cal. Miss Johnson, who lives in Richmond, has been visiting in Springfield as Miss Chalender's guest.

### CHINESE MUTINY ALARMS PEIPING

(CONTINUED FROM PAGE 1)

turned again and again until at 11 a. m. they retreated with the train to Fengtai.

Soldiers of the 32nd army cavalry and the 52nd infantry were sent to pursue them. Some of those on the train deserted it south of Fengtai, but Chinese authorities said that the rebels still held it.

Anxious to end the threat of trouble as soon as possible, the Chinese military council sent three regiments to surround Fengtai and carry the train and any defenders by storm if necessary.

### Coast Guard Gets Fund For Siusla

The coast guard station off Eugene is among those listed to receive funds for improvement and reconditioning projects from the \$700,000 appropriation asked from the relief administration for Oregon stations. The projects for the Florence station are for new boats, gear improvements, and reconditioning. Stations to be aided through \$75,770 appropriation include the at or near Hammond, Barlow, Wheeler Bay, Newport, Florence, Charleston, Bandon and Port Orford.

### Transients' Camp Bridge Completed

A log bridge to serve the proposed federal transient camp at Linslaw has been completed by Art Striker, county bridge foreman, and a crew of his men and lumber and other supplies for the camp can now be hauled over it, according to announcement by P. M. Morse, county engineer, Friday. A crew of 15 or 20 transients was expected to arrive here Friday or Saturday to begin work on the buildings of the camp.

# 80¢ of your gasoline dollar is spent

*driving 'round home-*

**4 out of every 5 miles you drive are stop-and-go**

Today's short trips waste your money—unless your gasoline has these **Three Kinds of Power...**

**STOP-AND-GO** driving gives you 2, 3 and even FOUR MILES LESS per gallon of gasoline than long trips. You often start your engine 15 times a day. Many of these starts are relatively "cold" starts. That's because the temperatures around your engine drop quickly each time the engine is stopped.

One short run from a "cold" start can use a "mile" of gasoline.

And so today's "short hop" driving—within 25 miles of your doorstep—costs entirely too much—unless your gasoline has not merely one... or two... but **THREE** different kinds of power.

For economy, your gasoline

must combine power for **QUICK STARTING**... power for **HARD PULLING**... power for **STEADY RUNNING**... and must combine them in *perfect balance!*

Super-Shell is the **FIRST** truly balanced gasoline. With its 3 kinds of power, it saves money 3 ways:

- STARTING**—With its even volatility, Super-Shell can save up to a cupful of gasoline on every "cold" start.
- SHIFTING**—Super-Shell can save up to a cupful in 10 minutes of hard pulling, or rapid accelerating, or on hills.
- RUNNING**—With its abundant heat units, it can save up to a cupful in every hour of steady running, motorists report.

Super-Shell is on sale at more than 30,000 neighborly Shell stations from Coast to Coast. Start saving money with it TODAY!
