

FD OK'S MOVE TO SPEED PASSING OF 'TAX RICH' PLANS

WASHINGTON, July 5.—(U.P.)—President Roosevelt gave tacit approval today through congressional leaders to plans to speed his tax-rich program through the house of representatives and increase the revenue it will squeeze from wealthy citizens.

Congressional tax experts indicated after a White House conference that the proposed tax base may be broadened radically beyond expected limits and that the president desires it be given congressional precedence.

The group of house tax and means committee democrats was informed the president is leaving the question of rates in his "four point" program to congress but that he wants them to yield "substantial revenue."

The committee expects to start hearings Monday. It will attempt to confine the bill to hiked income taxes in the higher income classes, increased gift taxes, adjusted corporation levies and new inheritance taxes.

The president was informed that increased surtaxes down to \$50,000 or \$100,000 incomes are necessary if the program is to yield revenue of \$250,000,000 or \$350,000,000. Mr. Roosevelt was understood to have left this proposed broadening of his program up to the committee.

In his tax message he limited his proposal for individual income tax increases to persons with an income of \$1,000,000 or more. Only 46 citizens, latest tax reports show, would be affected by such a limitation.

Present surtaxes range from four per cent on net incomes of \$4,000 to \$6,000 up to 58 per cent on incomes between \$700,000 and \$1,000,000. The treasury rate estimates submitted to the senate two weeks ago called for an increase to 60 per cent in the \$1,000,000 bracket up to 80 per cent in the \$10,000,000 or more class.

Every indication pointed to drafting of a bill which would hike income tax payments for thousands of individuals who make more than \$75,000 or \$100,000 a year. The increases may affect even lower brackets, Rep. Fred Vinson, D. Ky., said he favored an extension downward "but just how far is another question."

Highway Officials To Meet On July 16

SALEM, Ore., July 5.—(U.P.)—A special meeting of the western association of state highway officials with representatives of the federal bureau of public roads in 11 western states was called today by R. H. Baldock, Oregon state highway engineer, for July 16 in San Francisco. Baldock is secretary of the association.

Regulations governing the expenditure of work relief funds for highway projects should be in the hands of state highway officials tomorrow or Monday, Baldock said. The specifications were signed by President Roosevelt the first of this month. Federal representatives will explain the regulations at the special meeting to expedite the start of work.

Baldock said, States to be represented at the meeting include: Oregon, Washington, California, Idaho, Nevada, Arizona, Montana, Wyoming, Colorado, Utah and New Mexico.

ALL HAPPY FIVE YEARS AFTER BABY MIXUP?

Five years have passed since the Bambergers and the Watkins' went through agonizing weeks of doubt as to "who had whose baby." The two baby boys were born in a Chicago hospital at almost the same time. Mixed identification tags caused all the furor. Today neither the Bambergers nor the Watkins have any doubt that they are rearing their own flesh and blood. At top are the William Watkins', left, and the Charles Bambergers, right, as they stood in the hospital in 1930 trying to decide which baby was which. Below, left, is Charles Evans Watkins, and at right is George Edward Bamberger, as the two boys, both healthy and strong, approached their fifth birthday. Time has brought out family resemblances, confirming the correctness of the final decision better than mother instinct or careful scientific examination could do when the controversy was at full heat five years ago. Improved means of marking and identifying babies soon after birth have been adopted all over the country as a result of the famous case.

PRESIDENT SIGNS WAGNER MEASURE; LABOR IS PLEASED

(CONTINUED FROM PAGE 1)

are the chosen representatives of employees.

Relationship improved
"A better relationship between labor and management is the high purpose of this act."

"By assuring the employees the right of collective bargaining it fosters the development of the employment contract on a sound and equitable basis."

Not Mediation Board
"The national labor relations board will be an independent, quasi-judicial body. It should be clearly understood that it will not act as mediator or conciliator in labor disputes. The function of mediation remains, under this act, the duty of the secretary of labor and of the conciliation service of the department of labor."

William Green, president of the American Federation of Labor, calls the act "Labor's Magna Charta." Industry generally opposes it, and its enactment probably will result in a long series of court tests of its constitutionality.

Steel, automobile and rubber manufacturers already have let it be known they intend to challenge the act in the courts if and when the new labor board hands down any decisions against them.

Coincidentally, Francis Biddle, of Philadelphia, formally submitted his resignation to President Roosevelt as chairman of the present national labor relations board which goes out of existence at the end of this month.

BREVITIES

(CONTINUED FROM PAGE 1)

GENERAL
SAN FRANCISCO, July 5.—(U.P.)—While the strife-torn San Francisco waterfront hung precariously near new industrial warfare, more than 20,000 maritime workers of the nation's key Pacific port paraded today in an impressive labor demonstration.

Members of a dozen marine unions marched through downtown San Francisco, from the Embarcadero to the civic center in a mass commemoration of deaths of two workers in last year's "Bloody Thursday" conflict between police and waterfront strikers.

KANSAS CITY, Mo., July 5.—(U.P.)—Approximately 50 persons were injured when a 40-foot section of board walk at Winwood Beach, amusement center, collapsed last night and hurled them 18 feet to the muddy earth at edge of the lake.

NORTH BONNEVILLE, Wash., July 5.—(U.P.)—Elmer Nicholson, 13, Stevenson, Wash., was killed today when a car he was driving overturned after it left the highway. He was employed on Bonneville dam. Frank Bennett, 25, Stevenson, who was riding with Nicholson, suffered a broken arm.

DUN & BRADSTREET REPORT INDICATES DISTRIBUTION GAIN

NEW YORK, July 5.—(U.P.)—Retail distribution showed some gain during the past week, said Dun and Bradstreet today in their weekly summary of business conditions.

In wholesale markets and in most lines of industry business was slow because of seasonal factors and the holiday. Regarding the major producing lines, the summary commented that "although the recession in many cases was less than seasonal, nearly all of the lines that charted the course of the leading industrial indices either flattened out or turned downward."

"The improvement in retail sales which began during the last ten days of June was extended slightly during the week, due to the warmer weather prevailing in most parts of the country and the most elaborate preparations for celebration of Independence day that have been made in years."

"In spite of the record breaking heat wave which prevailed a year ago, the improvement over the good showing of retail sales for that period ranged from 8 to 25 per cent."

"Warm weather and special holiday promotions were sufficient to overcome seasonal retarding influences in the southwest, as retail sales were up 8 to 12 per cent from the week preceding, and 20 to 30 per cent in excess of the corresponding 1934 total."

"Continuing the gains of the week preceding, retail sales in the mid-west averaged to 15 per cent higher than a year ago."

In the south, asserted the review, sales were smaller than in the week preceding, but were 7 to 10 per cent larger than a year ago. In the northwest the gains ran as high as 30 to 35 per cent, but the comparison was made with the drought period of last summer.

Reviewing the results for the first half of the year, the summary said there were moderate gains in many directions "in the face of numerous retarding factors" and that there has been "a gradual but irregular upward trend in practically all major lines."

ONE KILLED, OTHERS HURT AT ROSEBURG

mobile. The driver of the car was not held.

Myrl Miller, Roseburg girl, is in a critical condition at a local hospital as a result of an accident yesterday when she was thrown from a riding device, operated by a carnival company showing here during the week. She was riding in the giant wheel, and slid from underneath the safety belt. She was tossed for about 30 feet and in her fall crushed the top of a sedan parked nearby. She was taken to the hospital with a fractured skull and paralysis of the right side.

Heat Fails to Harm Dionne Quintuplets

CALLANDER, Ont., July 5.—(U.P.)—Dionne heat continued to hold this tiny settlement in its grip today but appeared not to bother seriously the community's most famous residents—the Dionne quintuplets.

Dr. Allan Roy Dufoe, the babies' physician, said they remained slightly under weight, but advised the decrease warranted no alarm. "The babies won't gain much weight in this weather," the doctor said, "but they don't seem to mind it."

The quintuplets, while members of the Dufoe hospital staff droop slightly in the overheating weather, continue to squeal, stich, roll and generally entertain their large audiences of visitors during their "personal appearances."

Jackson Wins High Honors at Oxford

A cablegram from Robert Jackson, Oregon Rhodes scholar at Oxford in England, received Thursday evening by his parents, Mr. and Mrs. R. S. Jackson of Eugene, announced that he had been given the only especially distinguished "First" this year, following his three years' work at Oxford, where he took mathematics.

Mr. Jackson will be at Harvard next year where he has a teaching fellowship in mathematics.

Approximately three per cent of the graduating class at Oxford each year is awarded a "First," and Mr. Jackson's achievement is an unusually high honor.

Two Deaths Listed For July in Oregon

SALEM, July 5.—(U.P.)—Two workmen were killed in Oregon during the week ending July 4, the state industrial accident commission reported today. Accidents numbered 257. The fatally injured were Carl O. Larsen, Salem sawyer and L. G. Laemerman, Forest Grove timber faller.
