Christ, Scientist, on Sunday, August 4.
 The golden text was, "The Lord hath appeared of old unto me, saying, Yes, I have loved thee with an everlasting love; therefore with loving-kindness have I drawn thee" (Jer. 31:3).

Among the citations which comprised the lesson-sermon was the following one from the Bible: "God is love; and he that dwelleth in love dwelleth in God, and God in him" (I John 4:16).

The lesson-sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortals believe in a finite personal God; while God is infinite Love, which must be unlimited. . . . In divine science, we have not as much authority for considering God masculine, as we have for considering Him feminine, for love imparts the clearest idea of Deity" (pp. 312, 517).

It is reported that France is conducting experiments with a new wingless, motorless flying machine. Flight is sustained by suction created by hot air from burners producing heat up to 1200 degrees Centigrade.

Court and Highway Commission to Confer

All three members of the Lane county court are planning to attend a special meeting of the state highway commission in Portland Thursday, August 16, for a discussion of right of way matters. County Judge Fred Fisk Thursday received a letter from the commission asking that the court be present at that time. Judge Fisk said that he did not know just what will come up in regard to rights of

way. He said he understood that courts of other counties have been called in by the commission during the past several weeks to discuss the same question.
