

SURVEYS INDICATE BUSINESS PICK-UP ALL OVER WORLD

By HADER WINGET (Associated Press Financial Writer) NEW YORK, Aug. 12.—(AP)—An almost general improvement in business conditions throughout the world during the last few months is shown in current surveys.

Each country has contended with special problems. There have been spurts to industrial production and in international trade within one country that have placed it higher in the scale than other nations not benefited by special circumstances.

Activities which some authorities class under the heading of national defense preparation have boosted production and speeded general activities in some nations.

Other nations—such as the gold bloc group—have been hampered to some extent by currency difficulties.

Three countries outstanding in the gold bloc—France, Holland and Switzerland—were reported by the national industrial conference board to have suffered decreased production in June while world production as a whole advanced during that month.

For the previous month, the board reported international trade higher in terms of gold than any previous month in 1935 but 4.2 per cent lower than the average for the final quarter of 1934. It was, however, 1.2 per cent above May, 1934.

Alfred P. Sloan, Jr., president of General Motors corporation, in a report to stockholders on the first half of this year said, "the period in question was characterized, both domestically and overseas, by an improving trend of business, with the gain apparently well sustained."

"In practically all countries throughout the world, the underlying economic forces, striving for recovery, are, at the moment, in the ascendancy over the adverse influences incident to political action."

As an indication of expanding activity in heavy industry, the United States department of commerce reported exports of scrap iron and steel for the first six months of this year were higher than the first half of 1934 and larger than any other entire year since the World War.

Italy and Japan were the best customers.

Fred Johnston and Miss Bosserman Wed

LEABURG, Aug. 12.—(Special)—The wedding of Fred Johnston of Leaburg and Miss Violet Bosserman of Crescent Lake was held in the study of the First Christian church in Eugene Saturday evening, Aug. 10, at 8 o'clock.

The bride was dressed in a plain navy blue dress with a small jacket. The dress had a small white bow at the neck which went with the lapels of her jacket. Her lovely bouquet of flowers consisted of pink roses and white sweetpeas.

The wedding supper was given by Bernice Lattin at her cafe in Eugene at 8:30.

Those attending were Mr. and Mrs. Clyde Bosserman and Monty of Eugene, Mrs. A. A. Johnston of Leaburg, and Mrs. Frank Johnston of McCredie Springs.

Traveling Scouts Inspect Portland

PORTLAND, Ore., Aug. 12.—(AP)—Thirty-two Boy Scouts from Utah, touring the Pacific northwest on their annual "education by travel" jaunt, inspected Portland today before heading southward down the Oregon coast.

The boys, from North Ogden, financed the trip out of their summer earnings in berry and bean fields. The 3,000-mile journey, made in a bus, will cost the Scouts an average of \$15 each.

"It will be recognized," he said, "that this program will make a contribution to employment, as affecting the capital goods industries, and many communities in which the Scouts operate should ultimately benefit by the increased employment in prospect."

FLIVER AIRPLANE LANDS AFTER HOP ACROSS CONTINENT

WASHINGTON, Aug. 13.—(AP)—The first of the "Family Air Flivvers," a tailless airplane designed to sell at less than \$1,000, arrived at Washington airport today at the end of a transcontinental flight.

On hand were Secretary Roper and Eugene L. Vidal, director of air commerce, for whom the plane was constructed.

In the air, it looked like a large grasshopper. It landed, Roper said, "on a dime" and in so doing a part of the landing gear was smashed.

Secretary Roper minimized the incident. "How does it fly?" he asked John Geisse, chief of the air bureau's development section, who was making his first trans-continental flight as a pilot.

"It flew itself," Geisse said. The plane was developed in California by an old-time test pilot, Walter Davenport.

Science Churches Discuss "Spirit"

"Spirit" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, August 11.

The Golden Text was, "He that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Gal. 6:8).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "This I say then, Walk in the Spirit, and ye shall not fulfil the lust of the flesh" (Gal. 5:16).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christian Science reveals a necessary for overcoming the world, the flesh, and evil, and thus destroying all error... If the disciple is advancing spiritually, he is striving to enter into. He constantly turns away from material sense, and looks toward the imperishable things of Spirit. If honest, he will be in earnest from the start, and gain a little each day in the right direction, till at last he finishes his course with joy" (pp. 10, 21).

It flew itself," Geisse said. The plane was developed in California by an old-time test pilot, Walter Davenport.

IT'S HOT DAY TO BE WEARING FUR COATS!

It's so beastly hot you can hardly bear it, yet the thermometer goes zooming. There's only one thing to do, of course—make a dogged resolve to ape these critters and keep as cool as possible.

Maybe you can get Jimmy the Chimpanzee to indulge in a little monkey business with that hose and spray—or would you prefer to show the grizzly that he isn't the only one who can star as a Big Dipper? As a last resort, if the heat's getting in your hair, too, hound a cool spot until you find a long, cold drink.

Seeing America First

By E. H. HALL

It is interesting to note the retail prices being received in southern markets for products from Oregon and Washington.

At San Antonio, Texas, Bing cherries were selling for 20c a pound. At Houston the prevailing price was 25c, while in New Orleans on July 20 they were going at 30c. Every cherry was in wonderful condition for so late in the season.

The only apples on the markets are Hood River and Yakima Delicious. They sell everywhere at 5c each, bringing the retailer \$4 to \$5 per box, according to size. One person after another greets us with, "Oregon, oh yes! That's where they grow those wonderful apples."

We thought we knew something about the northwest canning industry but had a new one sprung at New Orleans. In one of the stores was a large display of "Layman" baked apples, packed in Yakima. They are whole apples, four to a can, baked individually in paper cups. The retail price was 27c, but they say they sell very readily. Probably men at the Eugene Fruit Growers' association know all about such things, but we had to travel 6000 miles to find it out.

(Editor's Note: Mr. Hall, Eugene merchant, is touring the United States with his family and contributing brief comments on conditions as he finds them.)
