“LOVE ME FOREVER” FOUND FINE FILM

The finest musical since “Be Mine Tonight.” Better, even, than her first great hit, “One Night of Love.” An emotional experience that will thrill every theatre-goer who sees it.

That is “Love Me Forever,” at the Heilig, starring Miss Grace Moore, great American prima donna, and the finest singer ever to step in front of a camera. The picture has everything. Leo Carillo plays his greatest role in support—Michael Bartlett's singing is worthy of Miss Moore—and Luis Alberni contributes his best comedy performance.

Miss Moore sings, with superb support, selections from two operas—“La Boheme” and “Rigoletto.” In addition, she gives several renditions of the title song, “Love Me Forever.” If the picture had nothing but Miss Moore's singing, it would still merit four stars. But when you add grand comedy, an intriguing plot, and perfect work by every supporting player—well, the usual adjectives seem a bit inadequate.

We can only say, in all earnestness, don't miss it!—H. W. J.

Walterville News

WALTERVILLE, Aug. 26.—(Special)—Mr. and Mrs. K. D. Jennings and son Charley Joe left Saturday for McKenzie Bridge where Mrs. Jennings will teach this winter. They have been living in the A. J. Irvin house at Walterville the past few months. This leaves two houses vacant in Walterville, the Irvin house and the George Marx house. A shortage of houses at Walterville has been a very uncommon thing in the past few years as some one has been ready to move into a house as soon as it is vacated. The Frank Vaughn house which has been vacant since the first of August was sold, and Mr. and Mrs. Huston have taken possession in the past week.

Budce Walters left Sunday morning for his home in Oklahoma after spending almost a year at Walterville at the home of his cousin Mrs. Leo Scott.

A delegation from Oregon State college was at the Le Vee farm recently inspecting and viewing the water system which Mr. LeVee has for irrigation for his farm. A plant which will pump 400 gallons of water has been installed and is run by a water wheel.

Gail Easton spent last Sunday afternoon in Eugene visiting at the home of Miss Lola Newman. Miss Newman was a former teacher at

“FROM EWE TO YOU”

Walterville and has returned to Eugene for summer school. She will teach the first grade in Cottage Grove this winter.

Martha Dolly and Howard Campbell at John Kiebusch have been picking beans at the LeVee yard at Camp creek.

Dolly Campbell is at home from Cottage Grove where she has been working for the past several months. She came home last week-end.

Walter Easton hauled baled straw and wheat from the Page farm Friday for C. A. Jensen and John Kiebusch.

Lyle McArthur of Springfield was a Walterville visitor the first of the week at the home of Mr. and Mrs. Fred Easton.

4 out of every 5 miles you drive—are within 25 miles of your doorstep

5 blocks on Main St. can use more gasoline than a mile on a highway

Today's starting, shifting and accelerating waste your money if your gasoline hasn't these Three Kinds of Power...

YOU often start your engine 10 TIMES a day... start your car moving from a dead stop 30 TIMES a day... and shift gears 60 TIMES a day!

No wonder leading car manufacturers say that you get from TWO to FOUR miles LESS per gallon on “around town” driving than you do on the open road!

To save money on today's “stop-and-go” driving, you must have a gasoline that is made to fit today's driving conditions!

You need a gasoline that contains 3 different kinds of power—yet that doesn't “skimp” on ANY!

This means that you need a gasoline that not only STARTS quickly... that not only ACCELERATES rapidly... that not only SAVES on steady running... but that does ALL THREE of these things.

Shell engineers have finally perfected a gasoline with these three different kinds of power in the right proportion—in perfect balance. It is SUPER-SHELL, the FIRST truly balanced gasoline. You can get it at more than 30,000 neighborly Shell stations spread from Coast to Coast.

With its 3 kinds of power, Super-Shell saves you money in 3 ways! Stop at a Shell station and fill up your tank with it TODAY! You'll see why so many thousands of motorists are becoming Shell “regulars”!

SAVES in 3 ways

STARTING—Super-Shell can save up to a cupful of gasoline on every “cold” start. Even on sizzling summer days, your engine is relatively “cold” when not running, because normal temperature under the hood when running is over 150°.

PULLING—It can save up to a cupful in 10 minutes of hard pulling, or in rapid accelerating, or hill climbing.

RUNNING—It can save up to a cupful, many motorists report, in an hour on the long stretch—thus saving on LONG RUNS as well as on short trips.

Remember, when you save 16 cupfuls, you save a whole gallon!
