FLUSH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that there is a 15 mile length of kidney tubes which help to purify the blood. If these tubes become clogged, the body is a day and so get rid of some pounds of waste.

If you have trouble with backache, burning and stinging of the kidney tubes may need flushing. The only way to get rid of the waste is by flushing the tubes.

Don't wait. Ask your druggist for Dean's Pills, which are the only ones for over 40 years. They give relief and will help to flush out 15 miles of kidney tubes. (See page 1)

Another Associated Service

Neither rare altitudes nor boiling temperatures affect the power of CLIMATICALLY CORRECT FLYING A

Wherever you go—
a gasoline to fit the weather

It's when you are on a vacation trip that you most appreciate the unique quality of Flying A gasoline.

No matter where you are—high in the mountains or driving through boiling heat of the desert—the Flying A you buy is climatically correct for top performance. To provide this service Associated makes more than 30 changes a year in the volatility characteristics of Flying A. Specific refining changes to fit varying climates are governed by a study of weather records in 457 Pacific Coast points. No matter where you live, where you travel, Flying A is right for the climate in which it is sold.

Take advantage of this Associated Service. Start your

trip with Flying A gasoline and stay with Flying A wherever you go and be sure of a smoother, quieter, cooler motor and happier motoring.

VACATIONISTS Get your copy FREE

This new leaflet tells what to take, what not to take on vacations. It answers 1000 questions about tourist camps, camping rations, permits, clothing, fishing regulations, etc. Ask for your copy of Associated's "Don't Forget List—for motor trips and vacations."
