

HEAT WAVE TOLL REACHES 370; NO RELIEF PREDICTED

(CONTINUED FROM PAGE 1)

ed early temperatures reading higher than those of yesterday.

But the torrid sun was not the only weather scourge. Forest fires scared thousands of acres of rich timberland, filling the air with smoke and ash, while some states suffered from lightning and hail storms.

Government Changes Program

The federal government announced modification of soil conservation program in the north central region to preserve all available forage for livestock feed, encourage farmers to increase their forage crops for fall and winter feeding, and provide as much acreage as possible for soil conserving crops next year.

New York farmers were ready to offer pasture lands sufficient to feed 40,000 to 50,000 head of cattle from the drought belt.

Showers fell in the south during the night, but they were insufficient to offset the long drought. Temperatures there, however, were less severe than in the east and middle west.

Rain fell on President Roosevelt's Pine Mountain valley farm, parched by three months' drought, but it was of little consequence.

Canada Hard Hit

Canada also felt the heat and dry weather, with temperatures above 100 in Ontario, while western Canada registered in the 90s.

In Washington President Roosevelt announced 75,000 WPA jobs had been authorized in the drought areas and 16,500 men already were at work.

He said, in the review of the drought problem, that 277 counties, including more than 570,000 farms, has been designated as part of the drought area, that 55,000 WPA jobs had been authorized in five northwest states.

An additional 20,000 jobs had been authorized in the south and southwest, he said.

Readings of 104 at Toronto, Ont., and Ithaca, N. Y., 102.3 at New York City, and 102 at Scranton, Pa., established new all-time highs yesterday. Washington's 104 was the highest since July 20, 1930.

Scores of prostrations were reported in urban centers. Thousands of harried residents slept in parks, on fire escapes and at beaches.

BREVITIES

SALEM, Ore., July 10.—(AP)—Plans for the unification of parole and pardon laws of the western states will be discussed at a conference in Portland Monday, Governor Martin announced today.

PORTLAND, Ore., July 10.—(AP)—John Aubrey, 55, Vernonia, Ore., mill worker, was dead today, victim of a skull injury received when a bolt struck him at the Oregon American Lumber Co.

PORTLAND, July 10.—(AP)—Mrs. Alice Weister, prominent in art circles of the northwest, died last night in a hospital here.

ASTORIA, Ore., July 10.—(AP)—Members of the Oregon Rural Letter Carriers' association and their wives from all parts of the state met here today for their annual three-day convention.

PENDLETON, Ore., July 10.—(AP)—James Hill, Jr., estimated the Umatilla wheat crop today at 5,500,000 bushels—considerably below average. He is manager of the Pendleton Grain Growers' organization.

THE DALLES, Ore., July 10.—(AP)—Ben Taylor, Mitchell stockman, purchased the 9,700-acre Bennett ranch in the Antelope district of Wasco county, in the largest real estate transaction in this area in recent years.

CITIES GROUP WILL TALK RADIO, LIQUOR

(CONTINUED FROM PAGE 1)

such conveniently-located cities as Portland, Salem, Eugene, Klamath Falls, Marshfield, Burns, and several other cities.

Also scheduled to occupy the attention of the League's meeting is the question of revising the state liquor laws, allowing more local control over matters of issuance, revocation, and limitation. Looking forward to the time when liquor revenue will not be spent on relief, some cities want a share of profits available for civic purposes, which some feel can only be obtained through a greater degree of local control. For much the same reason, there is a similar attitude toward use of the gasoline tax, although executive authority in this department would probably remain with the state.

Several minor matters will also be taken up for consideration, including co-operative purchasing of fire hose, uniform traffic signs for all cities, special assessments, and League organization. Dr. Frederick M. Hunter, chancellor of state higher education, will meet with the group.

C. S. Rice Builds Apartment House

Construction was started this week on a modern apartment house building, owned by Clarence S. Rice, just east of Mitchell's grocery (formerly Rice's grocery) on Thirteenth avenue west. Mr. Rice for several years was in the grocery business here, selling out recently to Frank Mitchell.

Snook Brothers have the building contract. Plans and specifications for the building were drawn by Graham B. Smith, local architect. The apartment building will be brick veneer in finish and is modern throughout. The place will be opened about mid-October, some of the apartments being rented already.

There will be four apartments, two upstairs, two downstairs. There will be hot water heat; an oil burner; laundry and storage rooms in the basement. There will be four rooms in each apartment. The main entrance and hall will be finished in Philippine mahogany.

Murphy Would Give Michigan 'New Deal'

DETROIT, July 10.—(AP)—Frank Murphy, who tendered his resignation as high commissioner to the Philippines commonwealth to President Roosevelt Thursday, today formally announced his candidacy for the governorship of Michigan on the democratic ticket.

The high commissioner promised a "new deal" in government and social welfare.

Students at the summer session, University of Oregon, will leave on a hike Saturday from Johnson hall at 1 o'clock. A summer session dance has been scheduled for Friday evening, July 10, at 9 o'clock.

FRENCH REPUDIATE DEPUTY'S CHARGE

(CONTINUED FROM PAGE 1)

PARIS, July 10.—(AP)—The French government emphatically repudiated in the chamber of deputies today a charge that France had agreed to supply Soviet Russia with blue prints and a model of its latest secret anti-aircraft gun.

The charge was made by Deputy Kerillis, a right wing member. Pierre Cot, air minister, replied that the gun is not even yet in the possession of the French government, although it has been ordered.

The chamber showed its confidence in his assertions by upholding the government, 463 votes to 162.

The government itself asked for the vote against an interpellation by M. Kerillis, rightist deputy, who had demanded the chamber air commission investigate the alleged decision of the government to hand over its new 23 millimeter airplane cannon to Soviet Russia.

Cot said the gun was the invention of a Swiss engineer, an employe of a private factory.

FDR Campaign Plans Not in Shape Now

WASHINGTON, July 10.—(AP)—While his plans are still indefinite, President Roosevelt said today he did not expect to do much campaigning during August.

The chief executive said he expected to be able to discuss his campaign plans for that month after his

Local Delegates Go to Salem Meet

America's No. 1 Traffic Jam

Queensboro Bridge, New York. 102,000 cars cross this bridge every day... 8,000 during the peak hour. The greatest concentration of traffic in the United States.

No matter where you live today... 4 out of every 5 miles you drive are "STOP-and-GO"

TODAY... even in the smallest town... it's shift-shift-shift from morning to night! You average over 60 shifts a day.

Shifting gears after one of your stops can use up enough gasoline to take you one-third of a mile.

And accelerating in high can use 60% more gasoline than steady running.

In order to save money in today's "stop-and-go" driving, your gasoline needs 3 different kinds of power—just as your car needs 3 different shifts of gears.

You need one kind of power for QUICK STARTS, one for FAST PICKUP and hill climbing, one for STEADY RUNNING.

Super-Shell combines these 3 different kinds of power in one fuel—the FIRST TRULY BALANCED GASOLINE.

Super-Shell is on sale at more than 30,000 neighborly Shell stations from coast to coast. Fill your tank with Super-Shell today.
