Stories in STAMPS

STAMPS already are being prepared in Washington for the Philippines, in commemoration of the 33d Eucharistic Congress, to be held in Manila, Feb. 3-7, 1937. There will be six denominations which will be available in sets at a total cost of 65 cents. Although the event for which they are designed will not take place until next February, the stamps are expected to be ready for sale about the middle of October. No orders will be accepted before Oct. 1.

All National Parks stamps finally have been withdrawn from sale at the U. S. Philatelic Agency in Washington. If you have failed to get a set, you may still buy them from local or nearby stamp dealers at above face value. They may go higher later.

The all-blue 16-cent special delivery airmail stamp may still be had at the Philatelic Agency, but this soon may be dropped from the list.

In the course of her program to spread propaganda by means of new stamp issues, Germany comes out with the first stamp ever to be issued to provide a purse for a horse race. The stamp, showing three running horses, has been sold in connection with the race to be held in Munich on July 26. Its face value is 42 pfennig, but it is being sold for one mark 50 pfennig, the difference going to the horse racing association.

Sweden has increased its postage rates for foreign mail, and therefore has issued a new set of stamps for the purpose.
