

CASCADE LEAGUE "CRUCIAL" LOOMS

SPRINGFIELD, Aug. 2.—(Special)—Baseball supremacy of the Cascade league will be settled Sunday afternoon on Brattain field, as the Springfield and Hills Creek nines collide in the leading attraction of the day.

The two clubs are tied for the league's second-half race, with four victories and one defeat. Added interest is given the tilt, inasmuch as the regular season ends with this game. However, a postponed game held over from last month looms between the two teams, with result that at the end of the two games, neither side may be able to clinch the title.

Springfield, winner of the 1935 title, has been improving steadily with the return to action of Bill Davis, who piloted the champions last year. Mauney will probably start for Springfield, on the mound, with Doc Taylor catching.

MRS. JARRETT NO LONGER AMATEUR

BERLIN, Aug. 2.—(P)—Robert Donat, secretary of the International Swimming Federation, today told Eleanor Holm Jarrett that she was to swim in no more amateur meets upon the instructions of Avery Brundage, president of the American Olympic committee.

Brundage told Donat that, as president of the American Amateur Athletic Union, he already had disqualified Mrs. Jarrett. On what grounds the backstroke ace was being disqualified, Brundage did not say.

Mrs. Jarrett, disbarred from the American Olympic team for violation of the training rules forbidding drinking and late hours, subsequently agreed to report the Olympic games for a newspaper syndicate.

IDAHOAN CHARGES 'TOWNSEND CRAFT'

(CONTINUED FROM PAGE 1)

expenses of printing and circulating my name with the other favored candidates.

"Despite the fact I believe in old age pensions and unemployment insurance, I regarded this as purely a commercial proposition and declined the offer."

Other candidates for state office were approached by the Townsend representatives, Campbell said, but they also declined to pay for sponsorship. It was expected they would band behind Campbell who said he wanted to "expose the whole mess."

"I wouldn't be surprised if this same chicanery is going on in every state," Campbell said.

Sixty thousand endorsement pamphlets were mailed out this week.

Barth in Running For Middle Title

HOLLYWOOD, Cal., Aug. 2.—(P)—Carmen Barth, Cleveland's 1932 Olympic champion, became a ranking contender today for Freddie Steele's middleweight crown.

The Ohio boxing master wrapped up a knockout wallop in each first night and blasted out Oscar "Swede" Berglund, durable California campaigner, in three rounds at Legion Stadium.

Baseball Standings

CHICAGO, Aug. 2.—(P)—Official American league standings:

Flapper Fanny Says:

Swating keeps you on the fly in summer.

SPORT PARADE

By HENRY McLEMORE

BERLIN, Aug. 2.—(P)—Unless a miracle comes to pass and the chances that it will are as remote as the United States of America, or "each" as the Germans call it, is a show-in for the Olympic track and field championships.

When the boys went into action today America had 107 points against 57 1/2 of its nearest rival, Finland. With but five events remaining to be decided—two relays, the decathlon, the 3,000 meters steeplechase and the marathon—the Finns would have to sweep all of them to take what the Teutons, with their flair for originality, term "the bacon." They won't do this, and you may quote me. We are a cinch in the two relays and for two reasons, the first being that we have the fastest runners and the second that we know how to pass that bacon.

Even if your relayers were no faster than the opposition they would win handsily because they are certain to pick up two or three yards with each passing of the stick. The Europeans make a ceremony of handing on the baton. They act as if it were a Christmas present.

Our decaathlon boys are doing quite all right, too, having finished one-two-three in the first five events yesterday. Speaking of yesterday, Der Fuehrer put the chill on the stadium for the first time, which must have been a blessing for three sailors who when he is there, are burdened with the unhappy duty of standing at rigid attention directly behind his dictatorial loge. Brother Hitler certainly chose an ideal day to stay away. They say he doesn't know a thing about track affairs and would have a difficult time distinguishing between a hurdle and a hammer, but his decision to miss the decathlon would indicate he either knows more than people give him credit for, or else he has a very capable tipster.

For the decathlon—even an Olympic decathlon—is a business. It would put even close relatives of the competitors to sleep. I have always maintained that it is an event of high grade mediocrity, designed for chaplains who are fair in everything but fellow feelings, too, for the same 80,000 Germans who sat through the hammer throw walked out on the decathlon and went around the corner while it was going on to munch the Nazi version of a hot dog.

This Nazi hot dog is by far and away the most impressive single thing I have seen in Germany, having almost the same overall dimensions as a totem pole. And it tastes quite a bit like a totem pole, come to think of it.

It is served astride a bit of bread no larger than one of those little flannel penwipers which used to be such an important part of the equipment of every well turned out school child.

But to get back to the track meet. Several of the nations have been having a tough time, notably Egypt, India, Jamaica, Peru, Iceland and Bermuda, which haven't scored a single point. Unless they rally soon they will finish without a score, which will place them in the embarrassing position of tying with Spain and Ireland, countries which didn't even send teams. Austria and Hungary are little better off, for they swung into combat today with two-elevenths of a point each. Hungary, I understand, is working for a full point and a chance to claim a moral victory. (Copyright, 1936, by United Press)

PORTLAND, Aug. 2.—(P)—The 1936 peach crop of the northwest should exceed even the optimistic estimates of early season market sources said today. Quality also was expected to be above normal, especially in the Willamette valley.

A market survey indicated a sufficiency of Willamette valley early Crawford, of good size and exceptional juice.

The American girls joined in tomorrow's final by the German quartet which set a new world record. The Germans won in 48.4, shaving a half second from the world mark set in 1932 by the U. S. national team.

The United States team of Harriet Bland, St. Louis, Annette Rogers, Chicago, Elizabeth Robinson, Chicago and Helen Stephens, Fulton, Mo., who won the Olympic 100-meter title this week, won the first heat in 47.7. Second was Canada in 48 and third Holland.

The other two finalists were Germany, which took the third heat in 48.4 and Canada which finished second in 48.5.

The United States women's 400-meter relay team then moved into tomorrow's final by capturing the first heat.

LIQUOR SALES FOR STATE \$12,000,000

SALEM, Ore., Aug. 2.—(P)—From the opening of the first state liquor stores Feb. 15, 1934, until July 1, Oregonians bought \$12,479,151.44 worth of liquor, a biennial budget report to Governor Martin showed today.

On this, the stores division made a net profit of \$2,922,599.70. Stores and agencies, license and privilege tax divisions turned \$2,982,426.42 of their profit to unemployment relief.

Gross sales the first four and one-half months the state was in the liquor business were \$784,230.85. Through June 30, 1935, they were \$4,920,554.33. The middle of this year the sales rose to \$6,774,396.25.

Salem Chemeketas Camp Near Sisters

BEND, Ore., Aug. 2.—(P)—Preliminary work for the Salem Chemeketas encampment Aug. 9 to 23 being today at the site on Green lake near the eastern base of South Sister. Arthur Boesch, Bert Cray and Richard Upjohn, of the Salem Outing club, went through Bend en route to the camp yesterday. They said about 20 would remain at the camp the entire period and that 30 others would be there for shorter stays. Campfire speakers include Robert Sawyer, Bend publisher and author on Oregon history, and Phil Brogan, Bend newspaperman, who will talk on geology.

When the boys went into action today America had 107 points against 57 1/2 of its nearest rival, Finland. U. S. TAKES TITLE
AT OLYMPIC GAMES

(CONTINUED FROM PAGE 1)

day that options on 4142 acres of farm land in Yamhill, Washington and Polk counties have been taken up by the government for establishment of 200 or more farm units to which farmers of sub-marginal lands will be transferred.

PORTLAND, Aug. 2.—(P)—Severe burns on the back and hand were the only injuries W. H. Hunter, a line-man, suffered when he fell across a 1000-volt wire on which he was working. After striking the power line, he fell to the ground below and a fellow workman rescued him.

PORTLAND, Aug. 2.—(P)—America has been the world's "goat for 12 years," Rear Admiral Clark H. Wood, commander of destroyers aboard the naval contingent harbored here this week, said today in remarking that world powers are paying no attention of America's disarmament pleas. The admiral said a force composed of alien enemies living within the country, foreign agents, professional pacifists and communists are conducting a treacherous campaign to make American public sentiment against adequate defenses.

VANCOUVER, Wash., Aug. 2.—(P)—Courtship officials here noticed with a start that James Aloysius Farley had sent in his filing as a candidate for democratic precinct committeeman from Camas, a nearby town. But it wasn't the postmaster general and national democratic leader—even though the name, all of it, was the same. The applicant for election is a bonafide resident of Camas.

ASTORIA, Aug. 2.—(P)—Walter L. Touze, of the republican state central committee, replying to a democratic speech by Frank McCulloch, told a meeting of Clatsop county republicans that there was no attempt to put the democrats on the defensive. McCulloch, speaking before a group in Portland, accused the republicans of trying to jockey the democrats into a defensive position in the presidential campaign.

OREGON CITY, Aug. 2.—(P)—A \$10,000 swimming pool, started by the SERA in 193
