5.50; common down to 4.50. Sheep: Receipts 400, direct 68; market active and fully steady; bulk fat lambs, 8.00; common to medium good, 6.25-7.00; few feeders, 7.00; shorn lambs, 6.75; good 130 lb. ewes, 3.50.

WOOL BRIGHTER

BOSTON, Aug. 13.—(U. S. D. A.)—Interest was inclined to broaden on medium grades of fleece and territorial wool. Combining 3/4 blood territory wool sold in moderate volume at 73-77 cents scoured basis, good length wool realizing the maximum price of the range. Sales of 3/4 blood Ohio fleeces were closed at prices in the range of 38-39 cents in the grease. Grease sales prices of 37-38 cents were paid for graded 1/4 blood average Ohio and Michigan fleeces, and for the brighter Missouri fleeces.

NEW YORK, Aug. 13.—(U. S. D. A.)—The

CARELESSNESS— that often brings UNHAPPINESS

YOU may know girls like the one on the left—at home, unhappy, while others are out enjoying life.

Often they are victims of ill health that results from unwise dieting—from eating meals that lack sufficient "bulk" to provide needed internal exercise.

Common constipation results. Too often it isn't regarded as serious. Yet doctors will tell you that constipation can slowly undermine your health, leading to discomfort, lowering of bodily resistance, and disease.

Don't neglect constipation. Usually it is due to lack of "bulk" in the foods you eat. When it is, Kellogg's ALL-BRAN is a safe and pleasant corrective. Scientific tests in leading universities have shown that this delicious ready-to-eat cereal supplies the "bulk" needed to provide regular elimination.

Kellogg's ALL-BRAN absorbs moisture in the body, forming a soft mass that gently cleanses the intestinal walls. It does not break down in the system as does the "bulk" in many fruits and vegetables. So it is often more effective.

Isn't it better to use this natural laxative food in place of patent medicines? Two tablespoonfuls of ALL-BRAN daily, served with milk or cream, are usually sufficient. Stubborn cases may require ALL-BRAN oftener.

Kellogg's ALL-BRAN is not a "cure-all"—but it does correct common constipation. It is guaranteed by the Kellogg Company. Enjoy ALL-BRAN as a cereal, or cook into appetizing muffins, breads, waffles, etc. ALL-BRAN has a tempting nut-sweet flavor. Eat it regularly for regularity. Sold by all grocers. Made by Kellogg in Battle Creek.

Serve ALL-BRAN regularly for regularity

SPAIN'S TROUBLES GROW WITH TIMES

(CONTINUED FROM PAGE 1)

the revolutionary forces as the French hoped. They simply suffered. Peace had to be made to avoid complete conquest.

Fresh Disaster at Sea

Rebellion was already rumbling in Peru and Mexico. And the Spanish monarch chose this time to form an alliance with France against England. Napoleon, who had taken over the French Revolution, demanded that Spain, as his ally, declare war on Portugal, his enemy. Against his will, King Charles had to invade Portugal. This campaign was inconclusive, but left Spain exhausted by a corrupt and inefficient court.

Into war between France and England, Spain was now drawn, not so much through the French alliance as through British affronts to her sea trade. For her pains, she saw her fleet beaten by Nelson at Trafalgar.

But Charles IV had offended Napoleon by refusal to recognize some of the kingships the conqueror distributed among his relatives. So Napoleon, fresh from triumphs throughout Europe, filtered his troops into Spain as allies intent on invading Portugal. But when a revolution broke out against the Spanish king, the French soldiers were in Madrid ready to take charge. They did so,

Flapper Fanny Says:

A sailor doesn't have to saw the ship's log.

but not without bitter resistance from the Spanish populace, who fought the trained French troops in the streets with much bloodshed.

French Yoke Tightened

This unorganized resistance developed into an organized campaign against the French, for Napoleon had dared to make his brother Joseph

king of Spain. Napoleon himself had to come to Spain to conduct the campaign to subjugate the Spaniards and beat the English, who were again invading from Portugal. At first Napoleon's genius won both objectives, but then came Wellington in charge of a new English expedition.

In his classic Peninsular campaign, Wellington drove out the French, which gave opportunity for Ferdinand VII, who had been ousted by Napoleon, to return to his Spanish throne. He faced, in 1814, the final revolutions in the Americas, revolutions that were to sweep away his empire overseas except for Cuba and the Philippines.

This revolt spread to Spain itself, and by 1820, Ferdinand was forced to grant the people a constitution. A conflict somewhat like that of today shook Spain, between the constitutional radicals and the monarchists. France again stepped in and "restored order" with troops. Ferdinand resumed despotic power, and as the last of the American colonies broke away, he died, in 1833.

Internal Strife Again

Conflict immediately broke out between the "Carlists," who wanted Ferdinand's brother Don Carlos to succeed to the throne, and the "Christinos," who favored a regency by Christina for Ferdinand's daughter Isabella II. Savage warfare again swept the Peninsula for six years and in its course the monastic orders were suppressed, and their properties confiscated. Isabella, with foreign aid, prevailed.

In the 1850's, radical and moderate united against absolutism, and the forerunner of today's party lines was laid down. Through the 60's,

these liberal parties grew and in 1873 a republic was proclaimed. In 1874, the republic was overthrown, and a new king, Alfonso XII, was proclaimed. Religious toleration was a continual friction between the stored monarchy and the constitutional and radical parties in the country.

Anarchism developed just established and the beginning of liberalism appearing, began to develop in Spain. It was shaken by strikes, aggressive measures were against the anarchists. In the midst of this anarchy, ranging from demands for the abolition of the monarchy to the people's rights by anarchists, trouble was being overseas.

Cuba was stirring with which the abolition of slavery did not abate. Related efforts in Cuba failed to gain country. In 1906 the United States asked Spain to recognize the independence of Cuba.

NEXT: The final blow to empire falls. Forty years of attempt to convert the last territory of Europe into a modern state.
