

SPRINGFIELD HAS NON-STOP FLIGHT TO OPEN AIRPORT

An attempt to break the world's non-stop flight record for ultra light planes will be made today by Al Fox, of Springfield, when he pilots his tiny home built Fox-Heath plane around a measured triangular course. The record-breaking try will be held in connection with the official opening of the Springfield Municipal airport, under the supervision of the Private Flyers Association.

At the airport this morning at 4 a. m. were W. A. Taylor, acting mayor of Springfield, W. K. Barnell, president of the chamber of commerce, Harry Stewart, president of the Lions Club, Chester Aldrich, city recorder, and Yale Smith, president of the P. F. A. to certify as to the time Fox lifts his little ship off the ground. Every three hours during the day, refueling contacts will be made between the plane and an automobile speeding along the airport runway.

The present record for ultra light machines is held by Lord Sempill, of England, with a time of 11 hours, in a B.A.C. Super Drone. The total mileage flown by the Englishman during his flight was 520 miles, and Fox will also attempt to beat this distance as well as total time. This is the first time an attempt has been made in the United States to break the record for this type of plane.

Volunteer Leaders To Head Builders At Siuslaw Center

A ten-day volunteer work period beginning August 26 and ending Labor Day with an old-fashioned "log raising" party will mark the second phase of construction activities for the Oregon Folk League and the Siuslaw Bay community on Thayer point near Glendale. Transportation and food are being arranged by the committee in charge and young men who wish to combine instructive work with recreation may enroll at Superintendent Gould's office in city hall.

Leaders for the ten days will include: Prof. and Mrs. A. L. Lomax, Mr. and Mrs. H. B. Salles, Mr. and Mrs. I. D. Custer, Sup. and Mrs. E. R. Gould, Dean and Mrs. K. W. Othman, Rev. and Mrs. Cecil F. Ris- ton, Mr. Percy Moore, Dr. and Mrs. Harry B. Yocum.

New Mortuary To Open In Waldport

WALDPOR, Aug. 22—(Special)—A new business is to open in Waldport. R. E. Burns, of Forest Grove, will open a mortuary in the Goin residence, which he has leased, early in September. Mr. Burns has been in the mortuary business for the past eight years in Forest Grove.

Miss Vera Weist, youngest daughter of Mr. and Mrs. W. B. Weist of Eckman, was united in marriage to John Farrow of Petersburg, Alaska. Vera has been working in Alaska for the past two years. She is a 1933 graduate of Waldport high school. The couple plan to make their home in Petersburg, where the bridegroom is employed, but will come to Waldport this fall to visit relatives and friends.

Mr. and Mrs. J. El Savage of Salem, spent the week-end in Waldport at the home of Mr. and Mrs. L. M. Stonebraker. Mr. Savage formerly operated a grocery store here.

Visitors Stop

Judge and Mrs. Herron of Benton county, accompanied by their son-in-law and daughter, Mr. and Mrs. Nye of Newport, stopped over night with the John Herrons of Waldport on their way home from a trip to California.

Mr. and Mrs. H. Hotchkiss went to procure a house to rent for the coming school year at Salem where the family expects to reside in the near future.

S. C. Kinch, wife and son, Rodney, of Benge, Wash., arrived in Waldport Tuesday and expect to remain until Friday. Mrs. Kinch is a daughter of the former editor and wife, Mr. and Mrs. H. G. Sasse.

E. H. Baldwin of Portland and son Bert and wife, all of Portland, visited at the home of Mrs. O. Starr.

Wayne McKinney and son Garry and Dod Trask, were in Waldport Friday to take out some of Wayne's household goods. He is now residing at Monroe, operating a filling station there.

Katie Hall of Tenino, Wash., arrived here last Friday to visit her grandparents. Mr. and Mrs. Isaac Banta for a week.

A PUBLIC INSULT!

The state legislature insulted the intelligence of the public by passing a law in 1933 forbidding most all kinds of dental advertising—as if the public were sucking babes and devoid of common sense—as if any person could long remain in business by resorting to untruthful advertising.

If you think you are entitled to know what service a dentist has to offer, what his prices and terms are, what equipment he has, this law must be repealed in November.

Dr. Thornton, Dentist

Corner Broadway and Oak—Over Safeway Store
Telephone 533-J

NEW NURSE In health service is Mrs. Ruth Hinegardner who comes to Eugene after long and varied experience in public health work in this country and in China. She is interested in education to prevent sickness in the community.

EUGENEANS GO TO SARATOGA SPRINGS

Eugene will be represented by two members of the local camp and two members of the auxiliary of the United Spanish War Veterans at the national encampment at Saratoga Springs, N. Y., August 30-September 2.

Dr. R. C. Faust, national surgeon-general of the order and past department commander of Oregon, will leave Sunday afternoon and Mrs. W. R. Hall, department president of the auxiliary, and Mr. and Mrs. James A. Russell will leave Wednesday. Mrs. Hall and Mr. and Mrs. Russell will join a party of other Oregon delegates and they will all travel east together.

Those going from other parts of Oregon are: Hugh S. Rogers, department commander, and Mrs. Rogers, Hillsboro; Bernice Anderson, president of Scout Young auxiliary, Portland; A. Gilroy, Marshfield; Mark Goodwin and Adolph Sonnenburg, La Grande; Robert Campbell, W. A. Florence and Mrs. Florence; Alfred L. Harriman and Mrs. Harriman, Portland.

CIRCUSMAN BEATTY PREFERS 'EM WILD

Clyde Beatty, perhaps the outstanding animal trainer of the age, is the major attraction of the Cole Bros. circus, coming to Eugene Friday, August 23. Beatty works his animals with only a whip and chair, facing over a score of lions and tigers, most of them fresh from the jungles, simultaneously.

He has narrowly escaped death many times, but he specializes in training newly imported beasts direct from Africa and India. Over two-thirds of the animals used by Clyde Beatty this season are new arrivals.

Scores of other thrilling acts will be found in the program of this famous circus, among them the Zavatva troupe of nine equestrians, declared to be the greatest riding act in the world, imported to America this season; the Zoeppe family, equilibrist; the Flying Harolds and the Aerial Ollingtons. All together, over 200 acts, displays and novelty numbers go to make the gigantic program of the Cole Bros. circus which recently returned to America last year from a five year tour of Continental Europe.

Circus day will be inaugurated by an immense street parade to be seen on the downtown streets in the forenoon. Nearly three miles in length it will be replete with gorgeous tableaux and allegorical floats of burnished gold and kaleidoscopic color. Hundreds of horses, 30 elephants and two caravans of humping camels will be seen in the picturesque cavalcade. There will be five bands and two callopes.

Doors to the Clyde Beatty menagerie will open at 1 and 7 p. m., to permit an inspection of one of the world's largest traveling zoos. The big show starts promptly at 2 and 8 p. m.

and attained a higher standard of living than any other people in the world. Once that choice is understood, I have no doubt of the outcome.

"The frontier of new wants points the way to a better standard of living in this country."

40,000 Hear Landon Talk

Bareheaded, in a blue summer suit, Landon stood on a flag and sunflower decked platform on the Tam O'Shanter golf course to deliver the first major address of his campaign to oust the new deal. Before him, Robert Outthwaite of the Republican national committee estimated, a crowd of 40,000 persons dotted the fairways. It was drawn chiefly from the Mahoning valley industrial area of Pennsylvania, Ohio and West Virginia.

"Wool gathering," grown out of the depression, he continued in a speech entitled "The American Way of Life," had shaken confidence. This "doubt and distrust," he continued, "is fostered by unstable men to whom it is always dangerous to give political power."

Foreign Ideas Not Wanted

"Some are trying to supplant our institutions by others from abroad," he said. "Now in many parts of the world democracy is in retreat and dictatorships are advancing."

To "timid souls" who fear that the temporary setback is to be permanent, Landon said "There is nothing to justify any such conclusion."

"The remedy offered is that the federal government shall restrict production, dole out jobs and parcel out business opportunities," the governor said. "This argument instead of being progressive is 40 years behind the times."

Discovery of a "new frontier"

of inventions in the 1890's the nominee said, opened the way to building a "Greater America." He added:

Would Keep American System

"All this was achieved without undermining any American institutions. It was achieved by continuing to encourage free enterprise."

Saying that unemployment and "examples of special privileges" were defects calling for remedies, Landon received a cheer when he continued:

"The remedy for unemployment is not a permanent dole. . . . The American remedy for unemployment is real work at good wages."

"Here at the place of my birth, I have sought to make clear what I believe to be the choice now before our country. It is the choice between the pig in the poke policies of the present administration and those American institutions under which we have enjoyed more liberty and attained a

Rebels Claim Big Gain

The insurgent forces tonight were consolidating newly won positions on the outskirts of Toledo, only 30 miles south of Madrid, preparatory to launching a final assault which they hoped would carry the government defenders of Toledo before them leaving a virtually unimpeded route to Madrid.

The rebel warship Espana late in the day resumed its bombardment of the Iru-San Sebastian sector.

An aerial battle between government and rebel planes over Hueaca was reported, with no casualties. The government planes, it was reported, chased the rebel airmen back toward Zaragoza.

The United States re-affirmed officially its policy of stringent neutrality with a "moral" arms embargo.

WED IN PORTLAND

PORTLAND, Ore., Aug. 22.—(AP)—A marriage license was issued here today to Clyde N. Butler, Portland, and Flora G. Neville, of 1179 Pearl street, Eugene.

COUNCIL TO MEET UTILITIES' BOARD

A joint meeting of the city council and the Eugene water board will be held Monday evening at 7:30 at the city hall to discuss the possibility of settlement of the alleged indebtedness to the city by the water board.

The city has requested that the water board assume payment of the sinking fund bonds and interest to the city totaling \$40,480.33. This fund represents the amortization charges and interest paid on the retirement of the \$22,848.87 set up by the utility commission reports as

the excess of appraised value water system; that the sum of \$57,070.98 represents rents drawn by the city to the principal from 1917 to 1920 that the water board made form of payment to the these accounts, either by service as in providing heat and water for city use.

The answer of the water board's meeting is due at night's meeting.

No other business of importance is expected to be considered. Large Saturday.

There are 82 appointments to the U. S. Military Academy at Point; two are appointed on recommendation of the vice president.

MAYOR LARGE RUNS FOR OFFICE AGAIN

(CONTINUED FROM PAGE 1)

I hope much good may come to the city, and having been associated with the League movement from its beginning, that I feel myself, in a sense, a part of it, and if permitted, will conclude the matters now under way.

"Should another choice seem desirable to the electors I shall follow with great interest the progress of the city, notwithstanding that I may not be its active head."

Corn Pack Nears Peak At Cannery; By-product Useful

Canning of the local corn crop at the Eugene Fruit Growers association cannery is near the peak now and is creating a by-product that is proving of much value to local dairymen.

The corn pack is substantially larger this year than for any season yet and the quality is unusually fine. The by-product from the canning is of value to dairymen operating silos. Several large silos already have been supplied with this material. The dairymen are especially pleased to be able to get the product at home, thus cutting down on freight and higher rates that come when shipping it in.

The E. F. G. cannery will start on pears at the mid-week, the crop being delivered all the past week. The tomato run is just starting, too.

Clackamas County Hop Picking Starts

OREGON CITY, Ore., Aug. 22.—(AP)—Clackamas county hop picking will start Monday. First picking will be in the Seavey yard at Park place. The crop is reported to be very light as a result of the hops having been hit by downy mildew. All pickers have been hired for the season.
