expensive downtown property and upkeep, and building to fit the needs. "The situation here is not unusual. Every Y. M. C. A. had its financial troubles during the depression—and it was not only Y. M. C. A. groups that failed to pay interest during the depression," the visiting official stated. "Some secured cancellation of interest; others much lower interest than they had been paying. But not one Y. M. C. A. in the country has been foreclosed on until this one at Eugene," he added. Where interest was lowered, many of the Y. M. C. A. groups thus re-adjusted carried their interest payments through their regular budgets or added the extra amounts in the budgets for their campaigns, he explained.

Hit By Depression
 During the '28 depression, Mr. Chambers said there had been 76 Y. M. C. A. associations at the start, four at the end of that depression. "During our recent depression we have not lost one in this part of the country," he declared.
 The present building here is so ill-equipped and needs so much done to it, it seems only sensible to plan for new quarters, he stated. Mr. Chambers said he might remain over Friday but that he thought he knew the local situation well enough to leave Thursday evening. No board meeting was planned for the local association while Mr. Chambers was here. He and W. P. Walter, local secretary, were to make individual conferences.

Finances Cloudy
 The Eugene Y. M. C. A. for the past 16 or 17 years has not been in the clear financially, a check on sketchy records reveals as the group works now on the problem of the \$16,000 foreclosure filed against it. Records are scattered but all found reveal the Y. M. C. A. has been in troubled waters financially since the early twenties, particularly the last decade when public response has not been as generous as previously in the annual financial drives.

When the Y. M. C. A. was organized here to start a building in 1908, a sum of \$50,000 was raised in eight days to pay for the lot, the building, and the furnishings.
 During the latter part of 1909, three loans totaling \$12,000 were obtained from the bank against subscriptions pledged the Y. M. C. A. These loans were paid off from the pledges as they came in and from then on until the early twenties the Y. M. C. A. operated practically free of indebtedness, obtaining its operation costs from its financial drives.

During the early twenties, however, indebtedness began piling up, and on Dec. 29, 1927, Frank L. Chambers made a loan for \$7,000 sought to refinance this indebtedness. On March 16, 1928, he made another loan of \$15,000. In 1930, loans and indebtedness had accumulated to a total of \$12,000 against the Y. M. C. A. In that year Mr. Chambers took a note for \$12,000. The last note given to Mr. Cham-

bers was dated Sept. 1, 1931, for \$16,000, which included all the notes to date and some interest. The last regular cash interest payment made by the Y. M. C. A. was in April, 1932. At one time \$434 worth of furniture was turned in for interest.
 W. P. Walter, secretary, said \$125 was paid in 1933 and \$100 in 1935 as interest payments which paid interest to Jan. 28, 1932.
 The Y. M. C. A. report to November, 1936, showed its total indebtedness at \$20,293.33, including the \$16,000 mortgage, plus accrued interest amounting to more than \$4,000. There also is an additional debt of \$600 for alley paving.

Quick Relief with 2 Bayer Aspirin Tablets
 The modern way to ease a cold is this: Two Bayer Aspirin tablets the moment you feel a cold coming on. Repeat, if necessary, in two hours. If you also have a sore throat due to the cold, dissolve 3 Bayer tablets in 1/2 glass of water and gargle with this twice. The Bayer Aspirin you take internally will act to combat fever, aches, pains which usually accompany a cold. The gargle will provide almost instant relief from soreness and rawness of your throat. Your doctor, we feel sure, will approve this modern way. Ask your druggist for genuine Bayer Aspirin by its full name—not by the name "aspirin" alone.
