A Tip for June Brides

'Start Housekeeping' with ELECTRICITY!

For instance, the most inexperienced can learn to cook with an Electric Range! It's simplified to a science. Charlie explains the cooking times and temperatures for all kinds of foods. . . a handy dial holds the oven at exactly the right degree. . . a clever clock turns it off at exactly the right minute. . . efficient insulation saves fuel and keeps kitchens cool. . . smooth table tops give useful working space.

Automatic ranges mean better food and more leisure. Be sure to investigate them at your electric dealer before planning your new kitchen. See how much luckier than their mothers are today's brides!
