

SOVIET RUSSIA "ELIMINATING" ALL TRAITORS

By NORMAN B. DEUEL
(United Press Staff Correspondent)

MOSCOW, June 21.—A merciless campaign for extermination of "traitors" spread through vast Soviet Russia from the Baltic and Black seas to the Pacific today.

Hundreds of men were involved already. Newspapers which denounced long lists of men as wreckers, spies, traitors, Trotskyists, scoundrels, bandits, rightists, nationalists and enemies of the people ended their blasts with the significant "and others."

It was announced that A. G. Chervakov, president of the White Russia Republic, had committed suicide "for personal and family reasons."

But coincidentally it was revealed that the communist party executive for White Russia had sent him a note asking him why he permitted "traitors" to sidetrack plans for two important military inventions.

Criticism extended even to Valery Mezhlank, commissar for heavy industry in the cabinet of the Soviet Union. Pravda, official newspaper organ of the communist party, warned that it was time for him to introduce "Bolshevik order" in the automotive and subsidiary industries.

No Execution Figures

As in the case of arrests, there was no means of obtaining authentic figures on executions. There was only one specific announcement for any area—the Far East, where the newspaper Pacific Star announced that 94 men had been executed.

The very announcement of charges against scores of men named in newspapers meant that they must face firing squads.

Names of prominent men dismissed or arrested mounted hourly. G. M. Krutov, president of the Far Eastern republic, was relieved of his duties yesterday and expelled from the central executive committee of his government. No reason was given. President Larin of the Black Sea executive committee was denounced as an enemy of the people. Kal-mochnik, until recently commissar for state farms of the whole union, was arrested as a wrecker along with others of almost equal prominence.

The editor of one of the biggest newspapers, Zvezda, in White Russia, was denounced as a Trotskyist. In the automotive industry the production chief was warned in newspapers that eight days remained to him to get a flow of automobile parts started or to face trial. Executives of chemical, rubber, textile and other industries were warned that they must increase the efficiency of their units. Some were denounced as Trotskyists. The officials of a big veterinary hospital were charged with sending plague germs instead of medicines to farms.

CHANGES IN SOIL PROGRAM COME UP

Changes and improvements in the agricultural conservation program for 1938 will be made at a meeting of the county committee of the Lane County Agricultural Conservation association at the Four-H club building on the county fairgrounds Wednesday at 10 a. m.

The committee will take this year's program as being carried out and go over its provisions, suggesting betterments and other changes as they deem proper. These suggestions will be submitted to the state committee, which will receive suggestions from all counties, and in turn they will be sent to the department in Washington, D. C.

George Platt, vice-president of the county group, will preside at the meeting in the absence of Raymond A. Johnson, president, who is on a trip to Colorado.

"Yeah, about an hour, if I had my way."

Hurdy-Gurdy Vanishes From The Sidewalks Of New York; Reason? Anti-Noise Campaign Too Much

By JOSEPH L. MYLER
(United Press Staff Correspondent)

NEW YORK, June 18.—(U.P.)—The hurdy-gurdy has vanished from the sidewalks of New York.

One of the last of the picturesque music makers brushed with the law for his clan and the right to grind out tunes appreciated or not. His opponent was Mayor F. H. LaGuardia and Joe Costinori, the hurdy-gurdy man, lost.

Today he shrugged his shoulders and said:

"I sell da organ; now I have no more work."

Too inarticulate in his adopted tongue to express the melancholy he felt, he flung aside his Italian language newspaper, strode once across the room and back in his thick-soled black shoes and sat down on a worn little sofa that creaked beneath his 200 pounds.

No Organ

"I don't have da organ," he said. "Now, I don't have even no peace."

Joe was defeated and it came about like this:

When Mayor LaGuardia's anti-noise ordinance went into effect Jan. 1, 1935, Joe and nearly 150 other men who supported their families on a gleaming of nickels, flung at them either in appreciation of their ready melodies or in the hope they would go away, protested.

Opera singers, radio performers and thousands of other New Yorkers pleaded for the hand organ men who for 60 years had been as much a part of the city's personality as L-trains and soot. A petition carrying 5,000 signatures was sent to the mayor.

La Guardia regretfully denied their suit. The hurdy-gurdy, he said, had "outlived its purpose." Once it was

CONTINUED GOOD SALES FORECAST

A forecast of continued business activity was made today by J. W. Silva, of the Silva Chevrolet company, on his return from Detroit, where he took part in a series of sales discussions with officials of the Chevrolet Motor division of General Motors Sales corporation.

"The current momentum of industrial sales ought to carry the present good market well into 1938," Mr. Silva declared. "The demand for goods of all classifications is reflected in the consistent demand for passenger cars and trucks. Agriculture is holding up well, and business and industry in general should continue to feel optimistic about the immediate future."

Mr. Silva represented Chevrolet dealers of the Pacific coast region at a series of conferences on the market outlook for used car sales—a member of Chevrolet's National Dealer Used Car committee. The group met in joint session with the National Dealer Planning committee on Tuesday for a talk by W. E. Haller, Chevrolet general sales manager, followed by an informal discussion in which the dealers joined.

Juanita Rebekahs to Meet Monday Night

SPRINGFIELD, June 19.—(Special)—The Juanita Rebekahs will meet Monday night with the men providing the program. On the committee are Ernest Black, Linn Stone, Oswald Olson, Elmer Pyne and Albert Turbyfill.

There will be a regular business

K. C. ELECTIONS SLATED MONDAY

The Eugene Knights of Columbus will hold their annual election of officers this evening in St. Joseph's hall with the regular meeting commencing at 8 o'clock. Joseph Krenmel, grand knight of the local council for the past year, will preside at the meeting. Officers during the past year were: grand knight, Joseph Krenmel; deputy grand knight, Ed Thell; chancellor, Maurus Schornberg; advocate, Clarence W. Brown; warden, Lee Kokkeler; recording secretary, John Gallagher; financial secretary, Louis Bershaw; treasurer, George Heitzman; lecturer, Dale Cooley; chaplain, Rev. Francis P. Leipzig; inside guard, Lawrence Heitzman; outside guard, Joseph Heitzman; trustees, Duane Elmer, Louis Kokkeler and Frank Plinsky. All officers are elected with the exception of chaplain, financial secretary and lecturer. These positions are appointed by the grand knight.

The newly initiated candidates of Sunday, June 13, will be special guests of honor at this meeting. Plans will be completed at the evening's session for the annual Knights of Columbus picnic to be held during the month of July.

Reports of the state meeting, held recently at Tillamook, will be given by Joseph Krenmel, grand knight, and George J. Wilhelm, past state deputy, delegates from Eugene. George Miller, district deputy of the Knights of Columbus, will give a brief report of the district.

ALASKAN GLACIER IS MOVING FAST

FAIRBANKS, Alaska, June 21.—(U.P.)—Alaska's rambling Black Rapids glacier, its movement speeded by hot weather, pushed to the edge of the Big Delta river today while three lakes formed on the surface of the big ice mass.

Travelers who viewed the glacier from the Richardson highway said it is now less than a mile from the Black Rapids roadhouse, situated across the river.

Although Pilot E. E. Parmenter reported photographs showed the glacier moved 400 feet in two days, others said it has since slowed down and no alarm was expressed.

Another airman, Harold Gillam from Cordova, flew over the glacier and reported three lakes formed on its surface from melting ice and snow. One, he said, is large enough to land a plane.

Some thought the lakes might overflow suddenly, perhaps causing a flood, but pilots recalled similar lakes had formed on the Endicott glacier at one time and disappeared.

At Fairbanks, weather observers said the maximum temperature of 91 degrees Saturday, equalling the record of 1920, was the highest here in 15 years.

During 1938, the United States produced 37,000,000 kilowatt hours of electrical energy by means of water power, compared to 35,543,567,000 kilowatt hours in 1935 from the same source.

The Salvation Army is known in more than 80 countries and its funds and assets are said to be nearly \$100,000,000.

Vacation Time is Accident Season!

What is your LIFE and INCOME worth to YOUR FAMILY?

The answer is a first class Personal Accident Policy for both men and women issued through a responsible agency and in a first class Company.

INSURGENTS START SANTANDER DRIVE

By The Associated Press

Thousands of insurgent Generalissimo Francisco Franco's troops streamed through captured Bilbao today to the hills west of the city in the start of a campaign against Santander, 45 miles away, last stronghold of the Basques.

Footbridges were thrown across the Nervion river to speed the movement. Insurgent officers considered subjugating of Santander province necessary to overcome the menace of water famine in Bilbao. Water conduits were broken from territory still held by government forces.

Roads to Bilbao were jammed with insurgent trucks bringing food to the city's 300,000 inhabitants. Five food ships were reported en route to the city from San Sebastian, insurgent-held port.

Basque government troops were reported entrenched three miles west of Bilbao for a new stand against the invaders.

At Madrid, a huge government mine exploded in suburban University city, where insurgent troops are en-

Christian Science

"Is the Universe, Including Man, Evolved by Atomic Force?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 20.

The Golden Text was, "Behold, the heaven and the heaven of heavens is the Lord's thy God, the earth also, with all that therein is" (Deut. 10:14).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth. For he spake, and it was done; he commanded, and it stood fast. The counsel of the Lord standeth for ever, the thoughts of his heart to all generations" (Ps. 33:6, 9, 11).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God creates and governs the universe, including man. The universe is filled with spiritual ideas, which He evolves, and they are obedient to the Mind that makes them" (p. 295).

Playgrounds Slate Softball Leagues

A softball league for Eugene youngsters will be formed this week, it was announced by Gilbert Sprague, director of the summer recreation program. Teams for both boys and girls will be organized, Mr. Sprague stated. Two leagues are scheduled, one for youths under 14 years of age, and the other for those above this age. Irving Custer, activity supervisor, will assist playground workers in organizing the teams.

OREGON LIONS AT MEDFORD MEETING

MEDFORD, Ore., June 21.—The opening business session of the fourteenth annual state convention of the Lions International club was held today, with a joint breakfast with the Ladies Lions auxiliary. Registration for the next state convention for the next year is under way.

Selection of a convention city for next year, and election of state officers will be held tomorrow. Corvallis, and Enterprise are listed as convention city applicants.

Yesterday afternoon witness the dedication of the George A. Brown plaque atop Roxy Ann, a local monument. The dedicatory speech was made by Attorney E. E. Kelly, special counsel for Governor Martin who was unable to attend. Present was a large number, and a police officer here, also in line of duty four years ago.

A salmon barbecue was the first entertainment feature of the state program. The convention will close tomorrow.

Playground Has New Piece of Equipment

A "Jungle Jim," playground apparatus, furnished by the city P. T. A. council, has been installed at the playground at the Frances Willard school, it was announced Monday.

The apparatus was built by Edgar Kellem with materials furnished at cost by Babbs' Hardware company and an electric welder furnished by Carlson, Hatton and Hay. The council provided funds for the equipment which was built at about a fourth the average cost of similar apparatus, it was said.

CLUB WILL MEET

COBURG, June 21.—(Special)—The Coburg Helping Hand club will meet with Mrs. M. C. Eller, Tuesday afternoon, June 22. Each member is asked to bring her own sewing.
