Love Gets a Lift  
IDA RINER GLEASON  
CHAPTER IX  
recklessly  
the traffic of the city streets,  
to police headquarters.  
More than once Steve  
had led for a good plot  
for a cigar and a few min-  
utes. Steve was  
questioning. Steve was  
found out why Bob  
was so persistently and when  
was slowed up, he was quite  
his own exploits in  
the thrilling cap-  
ture of the hair-raising  
had had, lost anything in  
of them. But Bob was  
at through many minutes  
to sit through the sake  
of moments for the sake  
of a matter ideas which he  
feared. In Steve's opinion,  
the greatest living author,  
due perhaps to the fact  
of detective's knowledge of  
pertaining to literature was  
to be greeted him. "What's on  
so early in the day? Are you  
planning to make? Or is the  
habit about to be fed  
up."

North Fork Area Being Irrigated

NORTH FORK, Aug. 29. (Special)—Several farmers are putting in new irrigation systems this summer. D. E. Severy, Phillips Bro. and E. O. Funk are using the flood system. V. E. Dwyre the sprinkler system. E. O. Funk has used the flood system for seven years to irrigate pasture and potatoes.  
Mrs. Hazel Phippen of Portland is visiting at the home of Mrs. Flossy Huntington.  
Mr. and Mrs. Grant Williams of Gold Beach, Ore., returned home today after several days visit with her mother, Mrs. Lettie Phillips, also attending the funeral of her uncle, Willard Phillips.  
Mr. and Mrs. Alfred Gentry and family of Washington are visiting at the home of his sister, Mr. and Mrs. Albert Haring.  
Cecil Killingbeck is helping Ernest Funk with his haying.  
Miss Pearl Kenney of Drain is staying with Mrs. Herbert Henderson assisting with the house work.  
Elmer Johnson and A. O. Jackson and Geo. Schroeder are threshing bent grass this week. Several more farmers will be ready by next week.  
Edna Funk is spending several days at the home of Mrs. Edith Watrous in Florence. She will attend Bible school classes while there.  
Miss Bernice Murray of Florence has returned home after a week visit with Doris Morrison.  
D. E. Severy was a Eugene visitor last Friday.  
Mr. and Mrs. John Gentry of Brookings, Ore. have taken up permanent residence on the North Fork.

Liquid air can cause curious effects. Most liquids are solidified, and most solids are hardened, when immersed in liquid air. India rubber becomes as brittle as glass. Metals become so solid that they give off a metallic ring when struck with a hammer.

Stories in STAMPS

SINCE the Postoffice Department has approved the design for the Hawaiian 3-cent commemorative (the likeness of Kamehameha I), it is expected that designs for the remaining three stamps in the insular series will be announced shortly. These will include Puerto Rico, the Virgin Islands, and Alaska.  
Reproduction of a painting depicting signing of the treaty of March 30, 1867, under which the United States paid Russia \$7,200,000 for Alaska, is favored for the Alaskan design. The Puerto Rican stamp may feature a view of San Juan harbor. Design for the Virgin Islands stamp is so far not hinted.

Important new foreign issues include a series of nine stamps issued in Egypt in honor of the new king, Farouk. France has just announced a special stamp, to appear in November, commemorating the sesquicentennial of the U. S. Constitution. Honduras plans a similar commemorative, limited to 200,000 copies.

Long awaited, all of the British coronation stamps are now available to American collectors. Last arrivals are the sets of Papua and New Guinea.

Air mail service between the Pas, Manitoba, Sturgeon Landing, Sask., and Cumberland House, Sask., will be inaugurated on or about Sept. 8. Cachet information may be obtained from the District Superintendent, Postal Service, Saskatoon, Sask.

Since Asheville, North Carolina's new airport, is still uncompleted, there will be no special dedication cachet issued to feature the S. P. A. convention there in August. All covers received will be mailed when the port is formally dedicated.
