## MEN LOVE PEPPY GIRLS

If you are happy and peppy and full of fun, men will take you to dances and parties. If you are lively, they will invite you to dances and parties. If you are cross and lifeless and always tired out, men won't be interested in you. Men don't like "quiet" girls. Men go to parties to enjoy themselves. They want girls along who are full of pep. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age." Don't be a three-quarter wife, take Lydia E. Pinkham's Vegetable Compound and go "smiling through."

Thursday at 10 a. m. Miss Lois Lutz, county home demonstration agent, will speak on "Why We Behave As We Do."
