**PORTLAND BUTTER**

PORTLAND, Ore., Nov. 13. — (UP) — Local butter market is reported about steady at the week ends with trade fairly active and a considerable withdrawal from storage stocks for prints. Prices are unchanged for the week-end. Receipts here for the week total 63,351 pounds as compared with 74,140 pounds the previous week and 68,315 pounds a year ago.

The demand according to the trade, and Local egg receipts are about equal to the demand according to the trade, and active market has prevailed on mediums with others in fair call. Weaker markets elsewhere are noted by the trade.

Little change was apparent in the country-killed meat trade Saturday, featured by light supply and good cleanup of fancy light veal. Quality lambs are reported in good call.

Prune trade continues moderate on the light demand with prices holding previous levels, according to the trade.

California tomatoes are being offered around $3 to $3.25 lug with supply local stuff dwindling.

Good demand continues in virtually all lines of dressed poultry, the trade reports. Market on live stuff continued active.

**CHICAGO WHEAT**

CHICAGO, Nov. 13. — (AP) — Wheat prices tumbled almost two cents a bushel today but then recovered about half of the loss before the close.

The slide resulted from selling attributed to profit takers and traders discouraged by a lapse in export demand for North American wheat and to reports that frost damage in Argentina may have been exaggerated.

Wheat closed ¾-1¼ lower compared with yesterday's finish, December 91¾-¾, May 92-92¼, and corn was ¾-1⅛ down, Dec. 54⅛-¼; May 57-57⅛. Oats lost 1¼-⅞.

## Brussels Conference In Conflict Over Japs

BRUSSELS, Nov. 12. — (AP) — Sharp differences over a declaration containing American-supported phrases placing responsibility on Japan for continuation of the conflict in China tonight threatened to disturb tomorrow's meetings of the Brussels conference.

The declaration, which would take the place of any further note to the Japanese government following its rejection of the conference's peace overture, will be submitted to a private, plenary session of the conference tomorrow afternoon.

France, Great Britain and the United States were known to be in agreement on its contents. The Americans took a prominent part in drafting the declaration, but some other delegations were said to be attempting "to tone it down."

**PLANT TO REOPEN**

SALEM, Ore., Nov. 12.—(AP)—Officials of the Oregon Pulp and Paper company said tonight the company's plant would resume operation with a full crew here Monday, with the first shift starting work Sunday night. Six hundred men are employed. The plant shut down except for a few minor operations two weeks ago.

## Late Rally Is Help To Stock Mart Saturday

NEW YORK, Nov. 13.—(AP)—A quiet last-minute rally in the major steels helped to bolster leading stocks in today's market and early declines of fractions to a point or more in many cases were cancelled or replaced with advances at the close. At the same time there was a wide assortment of losers.

With most commission customers absenting themselves from the boardrooms, those who attended were content to make meager commitments on either side. The ticker tape moved sluggishly throughout.

Transfers were around 400,000 shares, the lowest turnover in about two months.

## Sugar-Iron Hypodermics Are Used Successfully In Cancer Treatment

By HOWARD W. BLAKESLEE
(Associated Press Science Editor)

NEW YORK, Nov. 12.—(AP)—Discovery that hypodermics of sugar and iron stop cancer growth during treatment in most cases in animals was announced today in Science, journal of the American Association for the Advancement of Science.

While stopping growth is not a cure, the sugar-iron medicine is important for two reasons. It is one more in a growing list of substances with power to retard cancer. It takes advantage of one of cancer's peculiarities—the affinity of the growth for sugar.

The experiments were reported by Richard M. Brickner of Columbia university and Royal E. Grant, of the institute.

Iron was selected for the cancer attack because of its effects in other experiments on growth. Sugar was added to the iron to induce the cancer to take up larger quantities of the metal. The combination was in the form of ferric gluconate.

Another new feature was injection of dyes—either red or blue—which some cancers absorb readily. It was thought the dyes might thus make a "bed" for reception of the iron-sugar remedy.

Sixty-four rats were treated. In 47, or 73 per cent, cancers stopped growing. In half of these, moreover, the growths became smaller. In a few cancer disappeared completely.

But in most cases of recession the cancer stopped responding to sugar and iron while a few cells were still left around blood vessels. From these scattered cells the tumors would grow again.

The sugar-iron remedy was declared to be either non-poisonous, or only slightly toxic. In many cases the cancers stopped growing within 24 hours after giving it.

The experiments are "significant," the report stated, because of the high frequency with which the remedial effects could be predicted.

**FOLLOW SIMPLE RULES TO TRAIN YOUR DOG**

**Keep Him Alert and Healthy**

Impossible to put anything over on Mickey!

He's a bundle of health, mischief, energy. But his good manners make him a nighborhood favorite.

Here are the commands Miccy obeys today and the order in which he learned them:

1. Come. 2. Sit and remain in a spot until called. 3. Lie and remain until called. 4. Speak, on command. 5. Lead with or without a leash. 6. Retrieve. 7. Carry. 8. Shake hands.

The more high-spirited your dog is the easier he will be to train—and the more fun. But don't let the whole family take a hand. More than one teacher confuses him.

Safeguard your pet's health as winter comes on. Don't wash him in cold weather. No ned to fear doggy odors if he has proper food, regular exercise and grooming, clean sleeping quarters.

You'll find complete step-by-step training lessons in our 32-page booklet. Treatment for distemper, colds, all common ailments. Diet, grooming.

## Stories in STAMPS

COLLECTORS desiring first-day covers for the Virgin Islands stamp, last of the 1937 territorials, should forward their covers to reach New York for dispatch on Dec. 2 at the latest.

Airmail covers bearing postage at the rate of 10 cents per half ounce will, if sent well in advance, be dispatched from Charlotte Amalie on Dec. 15 by steamer to San Juan, Puerto Rico, where connections will be made with a plane leaving at 9 a. m., Dec. 16, and arriving at 5 p. m. the same day at Miami. Covers dispatched from Charlotte Amalie on Dec. 15 by regular mail will arrive in New York on Dec. 20.

* * *

The Virgin Islands stamp will feature a view of the city of Charlotte Amalie with the outlying harbor and sugar loaf mountains in the distance. The capital was formerly known as St. Thomas.

* * *

On the ground that the series was released primarily "to exploit stamp collectors," publishers of the American standard postage stamp catalog will not recognize Cuba's recent issue honoring the "Association of American Writers and Artists." Publishers of the British stamp catalog have taken the same stand.

Chief objection is that these stamps are no longer valid for postage since they were issued for use only on Oct. 13, 14 and 15.

* * *

Current Washington advice is that the Postoffice Department is considering a plan to accord Philatelic Agency mail the official franking privilege. Under this plan the agency's customers would not have to send return postage with their orders.

Both the official 1938 "Standard Postage Stamp Catalog" and the "Catalog of United States Stamps (Specialized)" are now available.
