Development of Water Power On Lake Creek Planned In Greater Bi-Monthly Project

Application from the bi-monthly Co-Operative Electric association was filed with Washington, D. C., for development of a major project on Lake Creek out of Triangle lake.

Martin Revokes Special Session

OLYMPIA, April 21.—(P)—Governor Martin "revoked the purported proclamation of the lieutenant governor" which called a special session of the state legislature, and in a proclamation today declared "the legislature shall not convene."

Lt. Gov. Meyers had "called" a special session for next Monday. Informed of the governor's proclamation, Lieutenant Governor Meyers said he had no statement to make at this time. He said he did not know what would be his next step.

The governor's proclamation said in his opinion "there was no extraordinary occasion necessitating the convening of the legislature in extraordinary session" at the time of Meyers' proclamation.

He said by reason of said actions of the lieutenant governor, "confusion has been created in the public mind, and uncertainty exists among the members of the legislature as to their duties."

Governor Martin said the lieutenant governor "assumed the authority on April 19, and by purported proclamation, called a special session of the legislature."

Rates To Be Based On Kilowatt Year

PORTLAND, April 21.—(P)—J. D. Ross, Bonneville dam administrator, formally announced yesterday that power would be sold on a kilowatt year basis, a unit system new to the United States but successfully tried in Ontario, Canada.

Ross said rates for a kilowatt year to the public utility district or private utility company which purchases Bonneville power—retail consumers can not purchase direct—would be announced soon by the federal power commission at Washington.

The kilowatt year sales unit is based entirely on the cost of production and is an attempt to leave present practices of selling power "from the old scarcity standpoint," Ross declared.

Power Defeat In Oregon Significant

WASHINGTON, April 21.—(P)—Defeat of a recent special election of Oregon's proposed seven-county public utility district to distribute Bonneville dam power "appears to be strong evidence that the people do not want these gigantic projects imposed on them from Washington," Representative Bert Snell, republican house leader, told congress yesterday.

"Bonneville dam will be completed in about a year, but the people in the immediate vicinity have already emphatically disapproved the proposed distribution scheme," Snell said.

LaFollette Splits With President

MADISON, Wis., April 21.—(P)—Governor Philip F. LaFollette, who disclosed last night he had split with President Roosevelt over recovery policies, promised today to offer his own plan for mastering the business slump.

He announced he would discuss recovery tonight in the third of a series of four radio addresses, intimating he had in mind a self-liquidating works program of the kind he legislated in 1933 to the Wisconsin legislature, which rejected it.

Nation's Chief Asks Ford To Conference

Detroit Manufacturer To Visit President To Discuss Recovery

WASHINGTON, April 21.—(P)—Henry Ford, strenuously at odds at times with the present administration, accepted today President Roosevelt's invitation to an informal White House conference where depression problems will be discussed.

The Detroit automobile manufacturer, who refused to sign the automobile code when NRA's blue eagle was flying, was asked to luncheon in the executive mansion here next Wednesday.

The invitation to Ford went from the White House at a time when Mr. Roosevelt and his aides are seeking all means to aid business recovery.

GRINDS NO AXE

SUDBURY, Mass., April 21.—(P)—Henry Ford of Detroit today revealed plans for a discussion of "business conditions" with President Roosevelt, but asserted he would enter the conference with no axe to grind.

Standing in the warm spring sunshine of the extensive Wayside Inn estate, which he has rehabilitated as an early American hotel property here, the multi-millionaire automobile maker said he did not intend to give any "advice."

He declared that in his opinion, "If people do not raise their own food," he asserted, "they will have to have a dictator to tell them to do it."

800 Killed When Quake Hits Turkey

ANKARA, Turkey, April 21.—(P)—The Anatolia earthquake toll of dead and missing soared to at least 800 today after a night of continuing shocks which 50,000 homeless spent in mad terror.

Terrific underground rumblings were accompanied by intermittent earthquakes over a wide area of western Asia bordering the Aegean sea, and especially about Kirsehir, Yozgad and Tchorum.

Panic-stricken refugees fled from crevices full of boiling water. Eighteen villages were utterly destroyed, and 22 others were badly damaged.

Whole families were buried under mountainous debris. Most of the victims were women and children.

Salvage and relief squads were organized throughout the stricken country and the national assembly voted emergency funds.

Heads of foreign diplomatic missions presented condolences to the government.

Swallowed Button Removed From Throat

Walter Gossler, two-year-old son of Mr. and Mrs. Walter Gossler, Springfield, is in the Eugene hospital resting comfortably following a freak accident that might have proved fatal.

The baby swallowed a metal button about the size of a 25-cent piece five days ago, the button lodging in his throat. Dr. Henry H. Norton Wednesday night removed the button from the baby's esophagus through use of a special instrument he secured in Austria.

STARRING in the production of "Peer Gynt" on the university campus Tuesday night will be Lorraine Hixon, soprano, and Walden Boyle, instructor in dramatics, shown above. Miss Hixon plays the part of Solveig, while Boyle is Peer Gynt. —Wiltshire engraving, Kennell-Ellis photos.

Milk Price Ordered Slashed One Cent

THE DALLES, April 21.—(P)—Edgar Smith of Portland, chairman, announced milk price declines of one cent a quart effective at the end of the month at The Dalles, Eugene, Klamath Falls and Astoria yesterday at a state milk control board hearing.

Four per cent milk will retail for 11 cents a quart and 5 per cent milk at 13 cents. Similar reductions occurred recently at Portland.

The Dalles prices went up in October following a board hearing. Smith said the reduction was designed to bring the cost to consumers on a level with other commodities.

Portland Man Drowns While Fishing In Triangle Lake

Francis Marion Skinner, 48, a member of the Portland fire department, was drowned Thursday morning when he fell from the log boom from which he was fishing in Triangle Lake.

Mr. Skinner left the W. B. Blachly ranch, where he had spent the night, about 7:45 Thursday morning. Lawrence and Henry Bauman, owners of the Triangle Lumber company of Blachly, heard his shouts as he fell, but it was 30 minutes before his body could be found. His watch had stopped at 8:20. Floyd Miller and Dwight Templeman worked for more than two hours in efforts to revive him.

Mr. Skinner was a fireman for engine company No. 2 in Portland, and lived at 510 N. W. Third avenue. He is survived by his wife and one child. The body will probably be taken to Portland for burial.

Coastguardsman Is Injured As Boat Overturns In Surf

REEDSPORT, April 21.—(Special)—Boatswain Prentice M. Clark, 60, skipper of the Umpqua Coast Guard station, received a broken shoulder and is now in a North Bend hospital, as the result of an accident on the Umpqua River bar this week.

The coast guard station had observed what they assumed to be a distress signal from the troller Wausieka and had crossed out over the Umpqua bar to render assistance. Finding that aid was not needed the life boat and crew were returning to the station when rough seas on the bar capsized the boat, and Boatswain's mate Van E. Clark and Surfman Raymond Miller were thrown overboard. Capt. Clark's shoulder was broken but he managed to remain in the boat with Donald G. Barber and Arthur Doyle, surfmen. Sprayhood, cowl and sea anchor were torn away, and the crew was unable to start the boat's motor for about 20 minutes, during which time Miller and Van Clark were being tossed around in the breakers and had great difficulty in keeping their heads above water even though wearing life preservers.

After picking up the two men the lifeboat headed for sea, not wishing to attempt another passage of the bar with part of the superstructure of the boat missing. After spending the night at sea they put in to the Coos Bay bar, but finding this bar also rough they finally landed at Sunset bay. Although all suffered from exposure, Captain Clark was the only one requiring medical attention.

Anti-War Program Planned On Campus

Permission to stage a demonstration against war April 27, has been given to students by the faculty of the University of Oregon. It was announced here Thursday by Karl W. Onthank, dean of personnel. The demonstration will be nation-wide on that date, and those behind the movement hope that some 750,000 students will take part.

Students backing the event here did not ask that classes be dismissed, nor is it expected that a "strike" be called here, as is planned on some campuses. It is probable that talks will be given from the old library steps, as in past years, at the 11 o'clock hour, to those interested. Last year the demonstration drew only a small crowd in spite of rather elaborate preparations.

Eleven Plants In Detroit Are Closed

DETROIT, April 21.—(P)—Strikes closed the Bohn Aluminum & Brass corporation's eight plants here today, bringing to 11 the number of industrial units in Detroit in which labor troubles have stopped production.

In Flint, 3,700 employees of General Motors' Fisher Body plant No. 1 returned to work without incident after a three-day shut-down resulting from a United Automobile Workers picketing campaign to collect union dues.

Public Auditorium May Be Asked Here

Eugeneans have been making preliminary studies towards possible construction of a public auditorium, long one of the city's major needs, it was revealed here Thursday. A committee, headed by Mrs. Gilson A. Ross, has been assembling facts and figures on attendance at civic and University musical and dramatic functions.

Another committee, headed by John Durr, chamber of commerce secretary, has been studying similar facts in the downtown area.

The plans for the proposed structure, yet in the formative stage, were revealed when efforts were made to find out possible PWA projects in this vicinity. C. C. Hockley, PWA administrator for Oregon, Washington and Idaho, requested Wednesday that public officials prepare for possible resumption of PWA allotments under the president's pump-priming expenditures.

Other possible projects in this area included a new airport but no definite steps have been considered for one. The present Eugene municipal airport, built at a cost of over \$100,000, was declared inadequate to care for modern transport planes. For some time it has been hoped that another port could be constructed where no hills will obstruct the landing and take-off of even the largest planes.

J. C. Boy Fractures Skull In Accident

JUNCTION CITY, April 21.—(Special)—Coe Baldwin, 11-year-old son of Mr. and Mrs. Sherman Baldwin, was found unconscious recently by some of the men of the Southern Pacific bridge crew, who are driving piling for a culvert near the north city limits. The boy had been watching the men at work but no one had seen any accident. It is believed that he fell from the railroad trestle. The men removed him to a local physician's office, an ambulance was called and he was taken to the Sacred Heart hospital. He regained partial consciousness before reaching Eugene. He received concussion of the brain, two small skull fractures and a slight scratch on his left cheek. He has been taken home where he will be kept in bed for several days.

Junior Queen To Open Ball Season Friday

Something different in the way of opening day baseball games—Virginia Regan, junior week-end queen, will toss in the first ball Friday afternoon at 3 p. m. when Oregon and Oregon State nine open the northern division conference season.

Prior to the game, a parade will be held on Willamette street, starting at 2 p. m. with the R. O. T. C. band, and both teams. The Howe field memorial gates will be dedicated by Chancellor F. M. Hunter before Miss Regan's pitch to some prominent political head, yet unannounced. Mayor Elisha Large will umpire.

Judge Grants 3-Day Stay Of Execution

Concurrent Sentences On Three Counts Given Local Barber

Ray W. Blaine, Eugene barber convicted on three counts in the skunk musk "bombing" case tried here in February, was given two sentences to the state penitentiary and one in the county jail when he appeared before Circuit Judge G. F. Skipworth Thursday morning.

On one count he was sentenced to a year and four months in the state penitentiary, on another one year in the penitentiary and on the third, six months in the county jail. As all sentences run concurrently, he will serve one year and four months in the state penitentiary with the possibility of time off for good behavior.

On motion of Defense Counsel H. E. Slattery a three-day stay of execution was granted by Judge Skipworth so that the defense can decide whether or not to appeal the case to the supreme court. Blaine was remanded to the custody of Sheriff C. A. Swarts and must wait out the three-day stay in the Lane county jail.

Stay Is Granted

Blaine, who was president of the journeymen barbers union local in Eugene at the time the City Barber shop, a non-union establishment, was "bombed" with skunk musk here last Jan. 22, was convicted by a circuit court jury on charges of conspiring to commit a felony, malicious injury to personal property, and disorderly conduct. He was sentenced to one year and four months in the penitentiary on the first count; one year in the penitentiary on the second; and six months in the county jail on the third.

Sentence was passed at 9:30 o'clock Thursday morning, before a small crowd in the circuit court room. Defense Counsel Slattery asked Judge Skipworth to take into consideration Blaine's previous record as a law-abiding citizen in the community, and asked that he be paroled for a five-year period rather than be sent to the penitentiary.

District Attorney L. L. Ray, who handled the prosecution of the case for the state, answered Mr. Slattery's plea by asking that justice be done in the case and that Blaine be punished for his wrongs.

In passing sentence, Judge Skipworth stated he was sorry that others who were originally linked with the case—Arthur Peterson, Jimmie Dempsey and Sam Day, City shop as hirelings of Blaine—were not being punished along with Blaine. The four men turned state's evidence, and it was their testimony which ultimately resulted in Blaine's conviction.

Judge Skipworth then passed sentence. Blaine had nothing to say, and gave no sign of emotion when he heard the judge's decision. He was immediately taken to the county jail by Deputy Sheriff Nelson Whipp.

Must Pay Postage

WASHINGTON, April 21.—(P)—Post office officials said today they would ask Horace Russell, resigned general counsel for the Home Owners Loan Corporation, to pay approximately \$280 in postage charges for letters he sent out under the franking privilege, praising the legal abilities of O. B. Taylor, a former H. O. L. C. attorney.

Weather News

Eugene continued to enjoy mild temperatures and sunshine, Thursday with the prediction for probable cloudiness and rain this week-end. The forecast follows: Oregon: Unsettled tonight and Friday with occasional rain north-west portion and on the coast, cooler interior west portion Friday; moderate southerly wind off the coast.

LOCAL STATISTICS: Minimum temperature, Thursday, 36 degrees; maximum temperature, Wednesday, 69 degrees; stage of Willamette river at 7 a. m. here Thursday, 3.1 feet; wind, north.

SUSLAW TIDES: Friday, high, 4:37 a. m., 6:46 p. m.; low, 12:07 p. m. Saturday, high, 6:06 a. m., 7:42 p. m.; low, 12:30 a. m., 1:07 p. m. Sunday, high, 7:23 a. m., 8:33 p. m.; low, 1:43 a. m., 2:05 p. m.
