Christian Science

“God the Preserver of Man” was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 12. The Golden Text was, “As birds flying, so will the Lord of hosts defend Jerusalem; defending also he will deliver it; and passing over he will preserve it” (Isa. 31:5). Among the citations which comprised the Lesson-Sermon was the following from the Bible: “For the Lord God is a sun and shield; the Lord will give grace and glory; no good thing will he withhold from them that walk uprightly. O Lord of hosts, blessed is the man that trusteth in thee” (Ps. 84:11, 12).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, “Science and Health with Key to the Scriptures” by Mary Baker Eddy: “God is the Life, or intelligence, which forms and preserves the individuality and identity of animals as well as of men” (p. 550).

Vets Put On Radio Program Tuesday

This year the department of Oregon, Veterans of Foreign Wars, is again putting on a one-hour program from the veteran's hospital in Portland over the entire blue network. This program will be from 7 to 8 p. m. on Tuesday. The broadcast will originate over KEX.

This year's program, commemorating flag day, is largely the result of the insistent requests from fans who heard the program last Armistice-day. Besides numbers by professional entertainers, the sick and disabled will be given the opportunity to greet their more fortunate comrades.

John R. Snellstrom, department state commander, of Eugene, will make a short talk and others of the department will assist in taking the mike to the bedsides of the sick and disabled. This year, as last, the main program will originate in the main recreation room and ultimately take in all parts of the hospital.

“Green Hornet” Coming Over KORE

Frank Striker, author of “The Green Hornet,” presents another stirring episode in racket “busting” to listeners of the West Coast with the program of Wednesday, June 14, 7:30 to 8 p. m. over the Mutual-Don Lee Broadcasting System and locally over KORE.

Striker, probably one of the best informed persons in the world on unusual type of rackets, which constantly claim the attention of police, uses the character

of Britt Reid, youthful publisher as his “hero” in the Mutual-Don Lee offering.

Half-Year Truck License May Be Paid

On and after June 15 owners of trucks may pay half a year's state license on their vehicles, according to word received Monday at the office of Sheriff C. A. Swarts from the secretary of state at Salem. This does not apply to passenger cars. License on such vehicles must be paid for the full year.

China Will Be Topic At Legion Meeting

Major H. Lester Barrett, who has just returned from China, will speak at the meeting of the American Legion Tuesday evening in Moose hall. The meeting will follow the six-thirty dinner which the Legion is holding with the auxiliary.

That 15% Safe Driver Refund

There seems to be an inclination on the part of some agencies to confuse the buyers of Automobile Liability Insurance into the belief that there is a reduction in premium rate by the smaller or so called “NonConference” casualty companies. The facts are that these companies have always sold cheaper insurance and that only such great companies as the Hartford and the Royal, both of which we represent, are rewarding their policy holders for driving safely and having no accidents.

A mile
S-T-R-E-T-C-H-E-S
 when it's STOP-and-GO

More turns of your engine
 for each turn of your wheels
 —and costs go up!

A MILE OF STOP-AND-GO DRIVING may be two miles or more to your engine. In “low” gear, your engine makes about 12 turns for each turn of your wheels. In “second,” about 8 . . . in “high,” only about 4.

You drive a mile, but how far your engine runs depends on how many times you stop and start—how much of the mile is in low and second.

Shell engineers found that getting away from a traffic stop can waste enough “undigested” gasoline to carry you 1/4 of a mile.

To cut this waste and its high cost, they found a way to rearrange the chemical structure of gasoline, which makes every drop of fuel usable to your motor under all driving conditions.

You can save on the cost of your stop-and-go driving by the regular use of Super-Shell. There's a Shell dealer near you.

Animal Control Fund Available In Lane

Lane county may use a part of a WPA predatory animal control fund of \$58,434 allotted to the state, according to county officials. Notice of an allotment of that sum to cover all counties of the state that want to put a man in the field has been received by Victor Todd, county WPA works director.

This county in the past has had a man assigned to this work whose duty it was to trap cougars, bobcats and coyotes. State headquarters for operations will be in Salem and locally the project will be handled by county agricultural agents.

HERE FROM LEBANON

Wayne Giltry has returned from Lebanon to spend the summer here and will be active in directing several bands and musical groups.
