HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, aching, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent urination, pain when urinating, burning, shows there may be something wrong with your kidneys or bladder. If the 15 miles of kidney tubes and filters don't work well, poisonous waste stays in the blood. These poisons may start nagging headaches, rheumatic pains, loss of pep and backaches, rheumatic pains, loss of pep and backaches, getting up at night, swelling, puffiness under the eyes, headache and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes wash out poisonous waste from the blood. Get Doan's Pills.

To Stop Constipation Get at Its Cause!

If constipation's got you down so you feel heavy, tired and dopey—it's time you did something about it. And something more than taking a physic! You should get at the cause of the trouble. If you eat only the things most people do, the chances are that a very simple fact causes your constipation—you don't get enough "bulk." And "bulk" doesn't mean heavy food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement. If this is your trouble, eat crisp crunchy Kellogg's All-Bran for breakfast every day and drink plenty of water. All-Bran contains both "bulk" and the intestinal tonic, Vitamin B. And it's not a drug, not a medicine! Made by Kellogg's in Battle Creek. Sold by every grocer.
