Five Elevens May Be Undefeated In 1938

NEW YORK, Oct. 21—(U.P.)—Figures never lie and today they say it will be a miracle if more than eight major football teams finish the season unbeaten or untied.

And spicing mathematics with gridiron logic, it seems more likely that no more than five will come through unscathed, which will be just about enough to go around the various New Year's day bowls.

Nineteen major teams are unbeated and untied and three are in the undefeated but tied class. Seventeen of them encounter at least one team on the perfect list bfore the season ends. Six of them play two and even three. Out of that hodge-podge, the figures say, can come only three with perfect records. Throw in a couple ties and there's no saying what might happen.

Five of the class "A" elevens have as their remaining opposition teams that have been beaten. All these five can make it and, looking at it purely from a mathematical standpoint, this quintet plus the above trio makes eight.

The law of averages, however, steps in there and says that at least three of the eight must be locked, which leaves five possibilities and, if you care for our opinion, that quintet will be Pittsburgh, California, Santa Clara, Texas Christian, and Dartmouth.

The others on the perfect record list are Boston College, Carnegie Tech, Georgetown, Syracuse, Villanova, Iowa State, Minnesota, Notre Dame, Oklahoma, Baylor, Duke, Georgia, Tennessee, Vanderbilt, and on the tied list are Fordham, Boston University, and Northwestern.

Those in the list who do not meet any more perfect record teams are Dartmouth, California, Santa Clara, Georgetown, and Georgia.

Henry Cotton, Sammy Snead May Be Matched

NEW YORK, Oct. 21.—(U.P.)—Golfers awaited today the reply of England's Henry Cotton to a "name your own terms" proposal for a match with Sam Snead billed "for the world's professional match-play championship."

Snead already had accepted the offer of Elmer Ward, Boston, to meet Cotton in a 72-hole match.

Before the passage of the Pure Food Laws, squash, "doctored" and attractively packed, often masqueraded as canned peaches.
