Army, Navy Officials Prepare to Expand Nation's Armed Forces

By LYLE C. WILSON
WASHINGTON, Nov. 21.—(AP)—Navy yards and diplomats are developing the substance of President Roosevelt's "continental defense" program for the western hemisphere today.

Secretary of State Hull will sail from New York Nov. 25 at the head of the American delegation to the Pan-American conference which will convene at Lima, capital of Peru, Dec. 9.

First protest against the Pan-American defense program came today from seven pacifist groups which charged that Mr. Roosevelt's program was an invitation to a world armaments race.

Preparing to Spend
On the home front, the war and navy departments are preparing to spend more money in the next year than any previous administration has thought necessary for defense purposes since the World War.

It is likely that Mr. Roosevelt will ask congress for \$1,500,000,000 for defense in the budget message to be submitted during the first week of January.

Coincident with extension of United States defensive responsibilities to all parts of the western hemisphere, including Canada, the army is expected to get a larger share of the defense money ration.

Admiral William D. Leahy, chief of naval operations, in his annual report to the secretary of the navy today, said that completion of the naval expansion program now under way would give the United States a fighting fleet second to none.

Czech Frontier Again Attacked; Poles Involved

Danger of Conflict Said Increasing in Central Europe

VIENNA, Nov. 21.—(AP)—The danger of armed conflict over Czechoslovakia's eastern frontier, involving Hungary and Poland and possibly Germany and Italy, increased today as new incidents occurred.

It was officially announced in Prague that Czech frontier guards had repulsed a band of Polish irregulars who crossed the frontier into the Czech province of Ruthenia. One Pole was killed.

Both Poland and Hungary were reported to be preparing to march into Ruthenia and eastern Slovakia at a moment's notice. Both nations have been reinforcing frontier troops.

Observers believed that if the situation grew dangerous, Adolf Hitler and Benito Mussolini would take a strong stand.

Occupation of eastern Czechoslovakia by Hungary or Poland or both would constitute a loss of prestige to Italy. For Germany it would be a loss of prestige and would also threaten to close the road to the Black sea.

Frequent clashes were reported in the region of Feketeptak and a growing "uprising" was reported in the mountainous regions further within Ruthenia.

The reports said three incidents had occurred in which groups of Hungarian irregulars crossed the Ruthenian frontier and clashed with Czech defense troops including gendarmes, police and customs guards.

At Prague, the government said that at least six persons had been killed in border clashes with Polish and Hungarian "terrorists."

But the government denied that there had been an uprising in Ruthenia.

Norway Queen Dies of Heart Attack Sunday

LONDON, Nov. 21.—(AP)—Norway and Britain today mourned the passing of Norway's English-born Queen Maud, who died in a London nursing home early Sunday of a heart attack four days after an abdominal operation.

The queen was 68 years old. Aunt of King George VI of Great Britain and last surviving child of Edward VII, her death came so suddenly only a nurse was at her bedside.

King Haakon of Norway was at Buckingham Palace where he has been staying since the queen's grave illness brought him hurrying from Oslo.

The queen died 13 years to the day after her mother, Queen Alexandra. Thus the royal generation fathered by Edward VII ends while strangely the previous generation—children of Queen Victoria—still survives through Princess Louise, 90, the Duke of Connaught, 88, and Princess Beatrice, 81.

Norway, encouraged by earlier favorable news from the queen's bedside, was saddened when an official broadcast of King Haakon's message to the London Norwegian church told of her death.

Haven Proposed In Tanganyika, British Guiana

Germans Furious at New British Idea; Japan Closes "Door"

By The Associated Press
Prime Minister Chamberlain today outlined to the House of Commons broad plans to resettle German Jews in British Guiana and in Tanganyika, formerly German East Africa.

The project envisaged the leasing of at least 10,000 square miles in British Guiana, for homes for Jews seeking refuge abroad from the anti-Jewish drive in Germany. That drive for the first time gave signs of abatement after eleven days.

Tanganyika is held at present by Britain under a league of nations mandate. Chamberlain last week asserted that his government was not considering its return to Germany to satisfy the "colonial demands of Adolf Hitler."

In the reich "concessions" to German Jews included permission for resuming some cultural activities and, it was said authoritatively, for some Jews to continue their export businesses.

Arrests, which according to Jewish estimates have sent 60,000 Jewish men to prisons and concentration camps, were ended, at least temporarily.

The National Zeitung of Essen, Field Marshal Hermann Wilhelm Goerring's newspaper, declared Germany was helping orderly emigration of Jews but foreign nations, particularly the United States and Great Britain, were obstructing these efforts.

May Not Agree
The issue between France and Great Britain concerned military cooperation in the event of war in Europe. Indications Britain would refuse to train a large army to aid French troops on the continent seemed likely to lessen the cordiality of the forthcoming discussions in Paris, which will deal chiefly with defense against possible attack by the fascist partners, Italy and Germany.

A foreign office spokesman in Tokyo indicated Japan might make a new statement concerning what she declares is a new situation in Asia which makes "inapplicable ideas and principles of the past."

A five-day fire which razed Changsha, capital of Hunan province in China, was reported to have caused 2,000 deaths and to have brought the execution of three Chinese officials accused of starting the fire to fulfill the "scorched earth" policy while Japan's slowly advancing forces still were 40 miles away.
