Hydraulic Brakes!

★ Largest on any low-price car!
 Big 12-inch brake drums and 162 square inches of lining area for quick stops and long life!

The 1939 Ford cars are equipped with big, powerful hydraulic brakes, precision-built to meet strict Ford standards of safety. They give you the braking power you would expect on cars sold at a much higher price. Big 12-inch brake drums and 162 square inches of brake lining for quick stopping and long life. Ford brakes add to the comfort and pleasure of driving. Pedal action is exceptionally easy—a feature women drivers will like. Brake action is always under full control of your foot, and in exact proportion to your pressure on the pedal. Braking pressure is equalized for smooth, straight-line stopping.

The hand-brake lever mechanically operates the brakes on the two rear wheels by means of steel cables—an extra safety feature. Let your Ford dealer show you all the other features that make the 1939 Ford V-8 a joy to own and drive!
