ARTIST of the new summer prints are these two cool-looking dresses in fine rayon sheer with gay multicolor floral designs on backgrounds. The slim lines of the shirtwaister at left, with small figures on a white background, are accented by full-pleated skirt, outlined in brilliant red binding. The orchid, white and pink print, right, with matching jacket, is trimmed with purple but-tons and a becoming squarish neck and front pleats.

Is there no melancholy in the moors?"

How can you stand there beside me and not remember? And not that my heart is breaking for you, Cathy?"

What I cannot help remember... You ask for more when you ask look at the moors—so much more!"

MEAL to order—When Bishop H. A. Boaz (right) discovered that a barbecue planned for visiting Postmaster General James A. Farley fell on an "Ember day," the clergyman obligingly caught a string of bass and gave it to Mr. Farley. This was during the latter's visit near Hot Springs, Ark. Roman Catholics both fast and abstain from meat on the Ember days.

Fiery Itching Skin Gets Quick Relief

Home Treatment Eases Unbearable Soreness—Distress

There is one simple yet inexpensive way to ease the itching and torture of Eczema, Itching Toes or Feet, Rash, and many other externally caused skin eruptions and that is to apply Moore's Emerald Oil night and morning and people who suffer from such embarrassing or unsightly skin troubles would be wise to try it.

Just ask any first-class druggist for an original bottle of Moore's Emerald Oil and refuse to accept anything else. It is such a highly concentrated preparation that a small bottle lasts a long time and furthermore if this clean, powerful, penetrating oil that helps promote healing fails to give you full and complete satisfaction you can have your money refunded.

BUTTER-KRUST
THAT GOOD BREAD
BAKED BY WILLIAMS

"GENTLEMEN, WE'VE GOT IT!"

"We've got a formula that will produce a real miracle fuel," said Richfield's Chief Chemist, "but it will cost millions of dollars to build a refinery that can produce it, because it contains six special ingredients to the ordinary gasoline's three."

"If this new gasoline will out-perform all other non-premium fuels, we'll spend the millions," promised the management. So after more than 11 months of 24-hour-a-day construction, this great refinery, capable of producing a million and a half gallons per day, was completed.

"We've perfected 10 combinations of this formula," said the Chemist, "and it's up to our automotive engineers to test them against the popular competitive brands. We'll put them in barrels identified only by numbers and we'll get a true picture of their relative value."

"That's okeh with us," said the automotive engineers, "for the first time in the West we'll test these gasolines exactly as they will perform in each motorist's car in the mountain snow, the desert heat—the city and the highway, and what's more we've got precision equipment from the East that is accurate to a split hair."

For 85 days they tested cars representing 92% of the types on the road today, and the reports went to the management—"Gentlemen, we've certainly got it—of the 16 fuels tested the first 5 were our new formulas and the Number 8 ran away from the field in every test. There's no argument about it being a real miracle fuel."

"This ALL-TIME HI-OCTANE will sell itself, but how can we get each motorist to try it?" — "Make a double your money back guarantee," said the advertising man, "that it must, in his opinion, out-perform any non-premium gasoline he's ever used." So, that's what we did! Thousands are buying and re-buying this new miracle fuel. Try it yourself today.
