Defense Army Said Efficient

MONTEREY, Cal., Jan. 20.—(AP)—The U. S. army's new streamlined triangular division, tailored to permit lightning war, was proving exceptionally effective in its first field test today in the joint army-navy maneuvers on the Monterey peninsula.

"The new division has four times as much power with half as many men," Sweeney said.

Safety Suggestions For Skiers Given

Safety rules for skiers were discussed at the recent meeting of the Willamette Ski patrol. Among the points suggested for skiers are the following:

1. Do not walk on recognized ski trails or areas.
2. Do not run at high speed through a group.
3. Do not ski out of control. The skier should be able to stop when he wishes.
4. Do not fail to fill holes made in falling.
5. Call a patrolman in case of an injury.

Purposes of the Ski patrol are to prevent accidents by instructing skiers in the fundamental rules of safety; and to give first aid in case of an injury. The Willamette Ski patrol is an organization composed of men who donate their time, and who are trained in Red Cross first aid.

Neutrals Will Feel War, Briton Asserts

(CONTINUED FROM PAGE 1)

remarks—earlier by Foreign Minister Viscount Halifax at Leeds—the first lord of the admiralty went to great pains to paint another and grimmer picture hinting at general conflict in Europe.

While Churchill did not say that it was the duty of the rest of Europe to join the war on the side of the allies, he did ask what would happen if through a "spontaneous impulse" such a development should come about. And he referred to the possibility of Bolshevik expansion at the expense of the neutrals as pointedly as possible Nazi aggression.

In this connection, he took the position that the Allies were fighting "against aggression and wrong" and in conformity with league of nations principles which all of the European states at one time or another were pledged to uphold.

There is the danger, however, that without united action the war will drag on, he said. What, he asked, if at any time Britain and France got tired of the struggle and made a "shameful peace?" Then, he declared, the little states that remained neutral could hope for not fate except to be divided up by Germany and Russia.

Churchill's bid and warning to the neutrals was unique in its frank appeal to the little powers which have fought to maintain strict neutrality although caught between the belligerent powers. In the same way, the first lord of the admiralty pointed out to them what he termed the advantages of protection by the British navy.
