Dr. Gilkey Speaks To U-O Students

The academic roots from which education grows are indispensable in later life, but what really puts "carbon" into the atmosphere over a university is the lasting power of personalities that lead to the forming of convictions and points of view which are never forgotten, said Dr. Charles W. Gilkey, associate dean of the Divinity school at the University of Chicago, when he spoke at an assembly in Gerlinger hall on the campus Tuesday morning.

Dean Gilkey related his own "Parable of the Tree," in which he compared the tree to education. The tree may grow strong with facts and information, yet wither and burn to ashes, the speaker said. He agrees with foremost educators that the function of education is not to teach facts that will be forgotten but to make room for capacities.

A trip to India where great schools are sometimes more like hovels than houses of learning, Dr. Gilkey confessed, was necessary before he realized fully that it does not always follow that the material offerings of a university ((such as fine buildings, many degrees for its professors, etc.) constitute its ultimate worth.

In the classroom or on the athletic field, when the "teacher" is great, the spirit of personality is given and retained, Dr. Gilkey pointed out. These facts bear equally on education and religion, he said, for each has the right to find out all that it can. It must have the ability to reach both out and up, he said—out for the tangible, and up for the intangible powers and beauties and goodness which float in the "pure carbon of the atmosphere."

Out of this great space come all of the greatness of art and life, reached through clear perspective and a richness and depth of experience, Dr. Gilkey said. He restated the words of Paul more than 1900 years ago, who asked his followeres to remember that things that are seen are temporable but the things that are not seen are eternal.

Leaburg Notes

LEABURG, Feb. 21.—(Special) —The various committees in charge of the hot lunch project in the school are busy planning the menus and arranging for the food supplies to be on hand. They are urging that all donations of food be taken to the home of Mrs. Ira Isham so that they may be able to better formulate their work. Also, it is urged that the 25c per week per family be left with Mrs. Isham also as this amount was voted to be given at the last P.-T. A. meeting. As these lunches are only supplementary to be served with their own lunch brought from home, the following menus for the next two weeks are printed so that mothers will be able to plan the individual diets, February 19, Monday, Succatash; Tuesday, muffins and hot chocolate; Wednesday, vegetable soup; Thursday, macaroni and tomatoes; Friday, rice with milk. February 26, Monday, lima beans; Tuesday, potato soup; Wednesday, carrots and peas; Thursday, vegetable soup; Friday, stew. Further plans will be formed and published at a later date.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Gas blocks up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those good, old Carter's Little Liver Pills to get these two pints of bile flowing freely to make you feel "up and up." Amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 10¢ and 25¢. Stubbornly refuse anything else.
