Improved Kind of Printer's Ink Announced in New York

By HOWARD W. BLAKESLEE
NEW YORK, March 21.—(AP)—A new kind of printer's ink, which is hard like lumps of coal, has been described to the technical association of the pulp and paper industry.

To print, the ink is melted, and it freezes as it touches the paper

having the ordinary coolness of a room. Ink and type are kept hot by water almost boiling, circulating in contact with the fountain or "inkwell" and the type rollers of a printing press.

The new ink means higher speed and more clarity in printing, regardless of type of paper, says Frank B. Breyer, New York chemical engineer, who made the report.

The lump ink reverses the generally used process of printing, by which fluid inks and cold type print on paper kept hot in order to dry quickly. Breyer said the new ink freezes so instantaneously on touching cool paper that there is no smearing of moist ink and no offset on the back of a printed sheet.

With the new ink, he declared, there is no limit to printing speed—except the speed limitations of the presses.

One of the difficulties of news-

paper pictures has been the fineness of "screen"—that is, number of dots or lines per inch—which newspaper paper will take without blurring. The present average is 50 to 85 lines an inch. Breyer said the new ink permitted engravings of 133 lines, without "fill-in" blotting.

Oakridge Events Are Reported

Mr. Pogue is the father of the regular pastor, Myron Pogue, who was unable to fill the pulpit on Sunday. The elder Rev. Mr. Pogue delivered both the morning and evening sermons at the church last Sunday.

The M. E. church will have a special Easter service next Sunday. A program is being arranged for the S. S. hour at 11 o'clock, and special musical numbers will be heard at the morning worship at 10 o'clock. Potted lilies and other plants will be used in the decorations. A welcome is being extended to everyone to attend.

Miss Lucille Holt of Oakland, Cal., is spending the school spring vacation here as the guest of her cousin, Miss Hazel Hebert.

Mrs. Charlie Hebert is spending some time in Portland with her daughter, Mrs. Elsie Davison, and granddaughter, Barbara Jo Mitchell.
