'SERVICES FOR FARMERS'—HEADING 385

Hundreds of farm services, from custom threshing to tractor repairs, will now be able to locate a market, efficiently and economically.

Farmers with machinery for which they do not have full use should find it profitable to use this new Register-Guard classification to find extra work for their equipment. Farmers whose operations do not justify certain equipment purchases or who "can't afford it this year" will read good news in this classification—news of where and how their operations can have greater efficiency at little cost.

This is a clear instance in which it can be said

"Want Ads Create Wealth!"
