THE SPIRIT OF 76

by JOHN CLINTON

Listen! Can you hear the surging pulse of America in full vigor, busy with her greatest task—Defense?

I want to tell you something about Defense that maybe you don't know. For years the Petroleum Industry has carried on independent research on its own initiative, unaided by the Government. Union Oil Company has done its share—has research engineers who spend practically all of their time in this work.

Take rubber, too. We use more than half of all the rubber in the world and 90% of it comes from our own plantations in the U.S. and the dictators want it. Well, Petroleum Industry research has made synthetic rubber a commercial reality. Before our supply of natural rubber is exhausted we can produce all we need. . . . from Petroleum! If it had been for the world's best fifty more essential products they have developed. But they'll give you an idea.

It gives me a thrill to know that the same research engineers who developed 76 and Triton are an important part of the Petroleum Industry—an industry that has done so much to make America strong.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Cromolum which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Cromolum blends balmwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Cromolum with the understanding you must like the way it quickly clears the cough, permitting rest and sleep, or you are to have your money back. (Adv.)
