No news is BAD news
By NORMAN CHANDLER
Chairman, Newspaper Publishers Committee

SUPPOSE for twenty years you were walled off from the world. Hearing no news, seeing no change, feeling no beat of the public pulse.

Suppose, then, that you were released into the world of 1941. And you were suddenly asked to decide which make of streamlined car to buy, what make of radio or refrigerator to choose. Suppose you were asked to vote for Jones or Brown; to support or oppose some social-security measure.

I know of such a pitiful case. It is the case of a young man raised in Communist Russia, who found himself a prisoner of war in Finland and, later, an escapee to America.

You can imagine his confusion of mind, his mistakes and then his delights in his new-found freedom.

Do you think it was Russia which had imprisoned his mind for all those years? Nothing of the sort. It was lack of news. His own country's newspapers did not consider him capable of making decisions for himself. Therefore, since the Russian government could not afford cars and refrigerators and the luxury of free elections, he was never told that such things existed!

YOU ARE VERY HAPPY!

news; phony, sticky, lying propaganda. Coldly calculated to fan hates, curb thoughts, make men into docile oxen.

We want no such "news" in America. We want no heavy-handed government controlling our news, feeding us what some official thinks is good for us or for himself.

My Russian friend told me once: "I heard, a long time ago, that there were places in the world where people voted for whomever they pleased, where there were two or more political parties and many stores offering their wares in competition. I wondered then why such things were allowed because I knew they weren't good—only communism was good."

I hope you and I never live to see that sort of newspapers in America.
