**THE RECORD**... Facts That Concern You No. 29 of a Series

It's always the **SORE** thumb that sticks out...

Odd, isn't it—the way everybody notices the sore thumb? It's the same way with the retailing of beer. Everybody knows about the one undesirable place...everybody seems to forget about the thousands of worthwhile retailers who operate clean, decent, law-abiding establishments. To protect the good name of beer, we of the beer industry want the few... but noticeable... "black sheep" retailers eliminated. That's not all. Such retailers endanger an industry that brings important economic benefits to the community. Right here in Oregon beer provides employment for 13,238 persons, supports an annual payroll of \$11,541,550 and contributed \$617,020.86 last year in state taxes. This state, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from more than 100 other industries. You can help us protect these benefits in two ways—by (1) patronizing only the law-abiding places where beer is sold and (2) by reporting any irregularities you may observe to the duly constituted authorities.

Twenty seven troop trains, leaving from Friday to Tuesday, will be necessary to move all the infantry troops of the IX army corps, and will be the largest mass troop movement ever experienced by Pacific coast railroad companies.

### Hot Lunches, Library Have Successful Year

**GLENWOOD**, May 21—(Special)—A baseball game and an inter-school track meet were held Wednesday afternoon between the Glenwood school and the Coburg grade school. This is a return engagement, following the achievement day in Coburg, which the Glenwood school attended. Glenwood school will close Friday with a skating party in the morning from 10 to 12 o'clock.

During the year 9,075 hot lunches were served to school pupils. "This has been by far the most efficient and complete of the hot lunch programs in the six years since they were started," Ben Adair, principal of the school said Wednesday. The community has responded well in the contribution of food to aid the project, and there has been a definite improvement all around. Much of the credit for the success of this year's lunches should go to the cook, Mrs. Maggie Woods, Mr. Adair said. The last hot lunch for this school year will be served Thursday.

An average of 70 library books per student was read this year in the Glenwood school. The library, started four years ago with books supplied by the school district, is one of the finest elementary school libraries in the county. About 100 books a month are secured from the Eugene city library. The school has found that the Eugene library has a more modern and complete collection of children's books than the state, Mr. Adair said, and Glenwood school "has received splendid co-operation from the Eugene library."

### Mu Phi Epsilon Concert Is Praised by Reviewer

There was once a cynical but very witty music critic who wrote a brief review of a concert he had heard by using approximately the following words:

"The Blank-Blank symphony orchestra played Brahms last night in the music hall. Brahms lost."

That musical organization, fortunately, had no connection with the University of Oregon music school which presented members of the Nu chapter of Mu Phi Epsilon, national honor society for upperclass women in music, in recital Tuesday night in the music auditorium.

Two Brahms numbers, included on the program, were among the best offered. The scherzo movement, from Trio, Op. 40, was played by Jane Young, violinist. Dorothy Gelman, pianist, and Rebecca Anderson, using a light and effective stop-tone on the French horn, Miss Anderson gave the melodic strains carried by Miss Young's vigorous fiddle a warm and mellow background.

The other Brahms work was also a trio, the "Allegro con Brio" from Op. 8. Three faculty members of the music school, Pianist Aurora Underwood, Cellist Lora Ware, and Violinist Margaret Sweeney, brought out a finished professional calibre which can keep a work of such a kind from sounding pedestrian. Animated charm was provided by Emile Chan, pianist, Miss Young, and Miss Booth in playing Gade's "Allegro Animato" from Trio, Op. 42.

Camille Saint-Saens, that indefatigable composer who had the habit of writing works which could show off the wares of a performer and at once be extremely tuneful, contributed the "Havannaise," which Miss Sweeney played with the verve and assurance of a consummate artist. Aurora Underwood accompanied this selection.
