# Woman's Part In Home Defense Told For Zonta Members

TO remember the good things of peace time and to maintain and cherish them was one of the important activities highlighted for women's part in their home community under the national defense program in a talk by Mrs. Albert R. Tiffany at the Zonta club installation banquet, Tuesday evening. Public health work, education, homemaking, all were listed as important functions that must go on. In addition, Mrs. Tiffany told the club members women can cooperate with other community activity groups in providing entertainment for those in the service when occasion demands such helplessness from the community; they can do much good with work for Bundles for Britain, and the Red Cross chapter activities. Recalling the influenza epidemic with the last World war, Mrs. Tiffany said the women can do a great service by learning some practical nursing to assist in the home community if such an emergency comes again. Constructive action and planning are important now, and the success of achievement when emergencies come depends on what we are doing now and how we are doing it, the speaker added. If one is busy, working constructively, there is no time to be afraid, she said.
