

Red Defenses Fall, Germans Announce

(CONTINUED FROM PAGE 1)

Ruska, 49 miles northwest of Lwow.

"During last night, our troops continued stubborn fighting in the Murmansk, Dvinsk, Minsk and Lwuk sectors," a Russian communiqué said.

"In other sectors of the front, reconnaissance, frequent troop regrouping and artillery duels took place."

The roar of cannonading was reported in major sections along most of the 2,000-mile front from the Baltic to the Black Sea.

Hitler's field headquarters made this announcement:

"Lwow was taken today. The

Reich's war flag has been flying from the citadel since 4:20 a. m. (6:20 p. m. PST, Sunday.)"

The city lies 50 miles inside sovietized Poland from the German frontier.

It was in this sector, less than two years ago, that the routed Polish army was forced to capitulate to German forces who later yielded it to Russia when Poland was partitioned.

Fight on Old Frontiers
While the Germans claimed a rapid-fire series of successes, it was apparent that with the exception of the Minsk area, Russia's Red armies still were fighting west of the 1939 Soviet frontiers.

In addition, a Moscow communiqué declared that German attempts to knife across the Karelian isthmus from Finland, now fighting at the side of Germany, and to land troops by sea at Viipuri were repulsed.

Viipuri is on the gulf of Finland, only 74 miles by railroad from Leningrad, Russia's second largest city.

The Soviet war bulletin also asserted that the Red army still was holding against violent attacks ranging from Murmansk, on the Barents sea, to the vicinity of Minsk and on south through the Luck-Lwow gateway to the great wheatfields of the Ukraine.

Tanks Still Battle

In this region, between Luck and Lwow, a flaming battle of 4,000 German and Soviet tanks raged into its fifth day with the Nazi juggernaut seeking to break through to the Ukraine capital of Kiev, 250 miles eastward.

The Berlin radio announced the occupation of Luck, 100 miles northwest of Lwow, but this could not be confirmed.

West of Minsk, in the Bialystok sector of old Poland, the Germans declared two Soviet armies were trapped. Military sources in Vichy heard the two armies numbered 400,000 men, but they gave them a chance to break through.

By contrast, Russian military

dispatches asserted that advance German panzer forces in the Minsk area had been trapped by Soviet counter-attacks.

Lithuanians Pierced

The Russians conceded that German columns had penetrated into Lithuania a third of the way to Leningrad and across Poland almost a third of the way to Moscow.

On the Viipuri front, the Russians said, 300 nazis were killed in a single assault and the entire German landing party put ashore near Viipuri was wiped out.

France broke off diplomatic relations with Russia this morning with the official explanation that "Soviet diplomatic and consular agents in France were carrying out activities against the public order and security of the state."

It was the first time France had reached an open break against any of Germany's enemies.

As the second week of fighting on the Eastern front began amid a barrage of special German high command announcements detailing Nazi successes thus far, Finland and Slovakia pitched in actively against Russia at various points along the far-flung front.

Finnish Follow Leader

Cannon blazed all along the 600-mile Russian-Finnish frontier as the Finns, heading an appeal from Field Marshal Baron Carl Gustaf Mannerheim to follow him in a "holy war" against the Russians, cast off their policy of passive resistance.

The Slovak high command declared that the forces of the tiny state, which is all Adolf Hitler left of Czechoslovakia, had driven deep into Soviet territory to seize prisoners and material.

The German high command claimed that 2,233 Russian tanks, 4,107 Russian planes and 1,297 Russian armored cars had been destroyed during the first week of war; that 40,000 Russian prisoners and 600 big guns had been captured. All this at a cost of 150 German planes.

The Red army called these claims "boastful humbug" and gave its own figures: 2,500 German tanks destroyed to 900 Russian, 1,500 German planes destroyed to 850 Russian; 30,000 German prisoners taken to 15,000 Russian.

Let me tell you why I believe
THERMO-CHARGED 'RPM'
is the greatest lubrication development the motor world has seen so far!

Super-heated points protected as never before

"This means Thermo-Charged 'RPM' is absolutely outstanding in its ability to stay put at the hot points in your engine where lubrication and cooling are needed particularly. The result is the most complete protection so far.

"In addition, this new oil will not deposit harmful quantities of carbon, gum and varnish which can clog engines and take the fine edge off performance.

"And I will go even farther. Thermo-Charged 'RPM' does a better job of cleaning out deposits left by other oils.

Longer engine life—definitely finer performance

"Because Thermo-Charged 'RPM' keeps engines so clean, it materially reduces wear. Diesel engines which are far harder on lubricating oil than any automobile engine have proved this in millions of miles of operation. Thermo-Charged oil has more than doubled the service life of their piston rings and cylinder walls.

"Thermo-Charged 'RPM' actually brings you nine important advantages. It is now available at 30¢ a quart. We believe no other oil at any price can equal its value."
