

Truck Sales ing, Says Dealer

Job-Rated truck sales are in Oregon and straight to the nation, according to E.

S. Sawyer, president of Sigloh-Sawyer Co., Eugene Dodge-Plymouth dealer who met Tuesday morning with Dodge and Plymouth factory representatives from Seattle. Attending the meeting were all Plymouth dealers from the Eugene territory.

Eugene and Oregon Dodge Job-Rated truck sales for June show an increase of 111 per cent compared with the 1941 average to date, Sawyer reports. This is well above the national average and indicates the anticipated prosperity and consequent increased demand

for trucks due largely to defense requirements, the exceptionally heavy crop yield and assurance of high stabilized prices for agricultural products in this area, according to Sawyer.

While the increase in truck units sold is phenomenal it is still far

below the gain in dollar volume, observes this dealer. This is due, he declares, to the increasing demand for larger trucks, one and one-half ton and up, needed on farms, in the logging camps and mining areas. Coincident with the increase in new truck sales is the

Sawyer report that used trucks are fast becoming no problem, the demand for used units, particularly the larger ones, oftentimes exceeding the supply.

"Now is the time to buy trucks," states Sawyer. "It is our belief that present prices cannot last. Our

experience in the last world war leads us to believe that prices are likely to advance beyond present levels. We believe every prospective truck purchaser should buy quality merchandise that will last for years and should buy now if he wants to protect himself against

the uncertainties of the immediate future."
