

**LOSING IN ON THE CIRCULAR CITY OF MOSCOW**, German troops have this assault of the current campaign. Heart of Moscow is the Kremlin, walled city within which radiate the streets of the capital, the communication lines of the nation and the Red arteries of the vast Soviet Union.

# American Vessel Lehigh Hit In South Atlantic

## Grand Jurors Condemn Lane And City Jails

### Sanitation Poor, Fire Menace Seen In Report To Court

The needs of the county demand a more modern county jail and the Eugene city jail where county women prisoners are kept is badly in arrears as to its adequacy, the Lane county grand jury declared in its final report to Judge G. F. Skipworth in circuit court Tuesday.

The sanitation at the county jail was found to be poor and it is a fire hazard, the jury said. Regarding the city jail for women, it was advised that the quarters should be separate so that drunken women and others would not have to be thrown together. Provision for a matron at all times should also be made, it was advised.

## Pheasant Season Opens On Wednesday

By JOE SOAP

Hunters in the Willamette valley area have the privilege Wednesday, Saturday and Sunday, of shooting upland game birds between 8 o'clock in the morning and sundown.

The state game commission made this big concession to us nimrods after a two-year closure of the pheasant-filled valley country — three days of hunting with the right to bag two male birds (no hens) in any one day and four during the three days.

## Attack On U-O Pure Science Issue Protested

### Eugene Members Of Taxpayers' Federation Decry Buchanan Move

A press release out of Portland on the stationery of the Oregon Taxpayers' Federation, over the signature of President Claude Buchanan, of Corvallis, attacking the proposed restoration of degree-granting courses in pure science at the University of Oregon, roused lively protest today from prominent Eugene members of that body.

The Buchanan statement calls for a meeting of his executive committee at Portland next Friday to consider the statement "issued today and released for publication in order to bring the issue to the attention of the people of the state."

## Court Ruling May Deplete Jobless Fund

SALEM, Oct. 21.—(AP)—The Oregon unemployment compensation commission lost a supreme court case today which the commission said might cause depletion of its reserve fund out of which jobless benefits are paid.

The decision ordered that benefits be paid to Thomas Layman, faller and bucker for the Crown Zellerbach corporation, for January and February, 1938, when the corporation shut down operations at its Lewis and Clark logging operation in Clatsop county. The commission had denied him benefits on grounds that during those months, the corporation ordinarily shuts down operations because it is seasonal.

## Ship Torpedoed Sunday Night, FDR Announces

### Craft Sinks, But No Lives Lost, Is Belief

WASHINGTON, Oct. 21.—(AP)—President Roosevelt announced today that the 9000-ton freighter Lehigh, flying the American flag, was torpedoed in the South Atlantic at 9 p. m. Sunday night.

Endorsing the statement of Secretary of State Cordell Hull that such acts are piracy, Mr. Roosevelt said that it was believed no lives were lost although the ship sank.

But, he added, it was also believed several persons might have been injured in the explosion.

On boardload of survivors has been picked up, he said, and two

## Ships Now, Wises Hull

By JOHN R. BEAL  
Press Staff Correspondent  
WASHINGTON, Oct. 21.—(AP)—Secretary of State Cordell Hull urged the senate foreign relations committee to approve a house resolution to arm merchant ships, lest German "efforts at self-defense be futile."

He was the first witness at the on-the-house-approved hearing. His testimony followed a House conference with national leaders, who said they would press at once for the ship-arming bill rather than repeal of the neutrality act.

## Joe Gordon Hunts Ducks

REDMOND, Oct. 21.—(AP)—Joe Gordon, New York Yankee second baseman, who arrived in Redmond from Eugene Friday to join friends on a deer hunting trip in the Metolius river country, left today to hunt ducks at Summer Lake in Lake county. Ford Danner of Eugene, member of the group, bagged a large buck Sunday.

From Summer lake the hunters were to go to Vale Wednesday for the opening of pheasant season.

## Middle East Battles Loom

By LOUIS F. KEEMLE  
(Of the UP war desk)

Even while the battle of Moscow is at its height, with the strongest concentration of which Germans is capable massed on the Central front, events are shaping more and more towards an approaching battle front in the Middle East.

East of the Black sea, in the Caucasus isthmus, may be the ground where the British and Russians will join forces in battling the Germans. At any rate, it is a possible answer to the continuing demand in England for active intervention by Britain to create another front while Germany is still heavily engaged in Russia.

## Wickard Sees Inflation Trend

WASHINGTON, Oct. 21.—(AP)—Secretary of Agriculture Claude R. Wickard told the house banking committee today that this country "may be starting on the same ruinous inflation we set out upon about the same time in the last war."

Urging the committee to approve the administration's price control bill, Wickard declared that while recent increases in farm prices have been "unusually rapid," they are not yet "out of line."

This is so, he explained, because the levels from which these prices have risen were abnormally low. He said that in 1939 farm prices were so low that farmers' purchasing power was only three-fourths of what it had been in 1910-1914—the parity base period.

## Dr. Erb Named To Civilian Defense Board For Schools

Dr. Donald M. Erb, president of the University of Oregon, has been appointed to a commission on colleges and civilian defense by F. H. LaGuardia, United States director of civilian defense, according to word received here today.

The committee will meet in Washington, D. C., sometime in November to formulate plans and submit recommendations for the civilian protection of universities and university students, according to the announcement.

Dr. Erb plans to go east in November and will be in Washington for the conference, he has indicated.

## Woman, Child Escape Death In Train Crash

Mrs. Mabel Damewood, 33, of Fall Creek and her small son escaped with only multiple abrasions when their car was struck by a Southern Pacific train late Monday afternoon at a crossing on the first Jasper road east of Springfield.

Details of the accident were not available as it was not investigated by the state police. The car was almost completely demolished.

Mrs. Damewood was brought to the Sacred Heart hospital for treatment. Her condition was described by her physician Tuesday as being painful but not critical.

## State Sues Lane Men For Failure To Control Forest Fire

The state of Oregon is plaintiff in a suit filed in circuit court Tuesday to collect damages from private property owners for allegedly failing to extinguish a forest fire.

Fred Washburne and the Glenbrook Logging company are defendants. The state seeks \$1510.76 damages. It is alleged that June 11, 1940, a fire originated on property owned by Washburne in the vicinity of Glenbrook and that the defendants refused and neglected to control and extinguish it. It is alleged that from June 11 to September 9 the state furnished services and materials in extinguishing the blaze in the amount sued for.

## Blackout Broadcast Tonight At 7:30

RAHWAY, N. J., Oct. 21.—(AP)—An undetermined number of persons were injured today when two Pennsylvania railroad passenger trains collided a short distance west of the Rahway station.

Linden police, a few miles away, said they had received a call for all possible ambulances. The Rahway hospital reported private automobiles were starting to arrive with injured.

## French Officers Held After Slaying Of German General

VICHY, Unoccupied France, Oct. 21.—(AP)—The arrest of four French Gendarmier officers at Nantes in connection with the killing there yesterday of the German General Holtz was announced tonight along with the executions of four more persons in various parts of the country.

## November 24 Date Of Budget Meeting

The county taxpayers' meeting to consider the budget for the first six months of 1942 will be held in the courthouse Monday, Nov. 24, it was announced Tuesday by County Judge Clinton Hurd.

The budget as agreed upon two weeks ago by the committee made up of the three members of the county court and private citizens as taxpayers is almost ready for publication. It must be published 20 days before the taxpayers' meeting.

Miss Patricia Sylvers, secretary to Judge Hurd, has been busy every day for more than a week getting the figures of the budget in shape for publication.

## Florence J. P. Is Arrested

Carl M. Severy, justice of the peace of the Florence district, was arrested Tuesday on a charge of non-payment of public funds. He was indicted by the grand jury Monday, this being one of the two secret indictments returned. A warrant of arrest was mailed by Sheriff C. A. Swarts to Deputy Sheriff C. S. Carlson and that official made the arrest, arriving with the accused official at noon.

Severy is accused of failing to turn over to the county treasurer \$82.50 collected by him September 25 as fines.

Severy was arraigned in circuit court at 1:30 o'clock Tuesday afternoon and pleaded not guilty. On request of his attorney, John Pennington, Judge G. F. Skipworth allowed him his freedom on his own recognizance. Attorney Pennington pointed out that the accused is a native of Lane county, that he is a member of a well-known family and that the court would be justified in allowing him to go without bail.

The indictment accuses Severy of "holding in his possession and custody by virtue of his office, public funds, fines imposed by him as justice of the peace in the sum of \$82.50 and did not, as soon as practicable, pay the same over to the county treasurer."

## Valuable Prize

It would be a prize of incalculable value to Hitler. If he can take those fields in workable condition, his oil problem might be solved. Even if the wells, refineries and pipe lines are put out of commission, Russia's source of oil would be cut off.

Established in the Caucasus, Hitler would be in a position for a flanking drive on Suez through the Middle East, while the axis forces strike simultaneously from North Africa.

The Near East and the Mediterranean is an essential goal for Hitler if he is to consolidate his

## Chamber Now Even—One Win, One Loss

The heart balm department of the Eugene chamber of commerce recently allowed Cupid to shoot an arrow into the air—and it fell to earth they knew not where. But now they do.

The occasion was the search for the lost "dream girl" of Private Chuck Green at Fort Lewis. He asked for her. They found her. All was apparently well.

But . . . everyone reckoned without the consideration that there might be TWO Chuck Greens! Apparently there are. And Chuck Green number 2, resident of Salem, found himself in a real pickle when his girl friend read in the papers that the Eugene chamber of commerce was hunting up a girl for him. She dropped him like a hot potato. And by then Private Chuck number 2 was fairly sizzling.

He wrote the chamber a scorching letter. "I've been blitz-krieged!" he declared. "I already have a girl—until Cupid shot his arrow. . . . Now what are you going to do to get back MY girl?"

Which leaves the heart balm department feeling a little inadequate. Oh dear.

## More Rail Crews Spurn Arbitration

BY THE ASSOCIATED PRESS  
Fourteen non-operating railroad brotherhoods with 900,000 members today joined five operating brotherhoods with 360,000 members in rejecting an offer by President Roosevelt's emergency board to arbitrate the wage dispute between railroads and their organized employees.

The five operating brotherhoods rejected the offer yesterday after carrier managements had agreed to it. Both union groups rejected arbitration last summer when dispute was before the national railroad mediation board.

In other fields, steel production was hampered in the Birmingham area by strikes which started in Alabama coal mines and spread to steel plants and conferences started at Buffalo, N. Y., to avert a threatened walkout at two airplane plants of Bell Aircraft Corporation.

## New Priority Order Affects Copper

WASHINGTON, Oct. 21.—(AP)—Effective Nov. 1 the use of copper will be forbidden in all non-defense building construction.

Donald M. Nelson, director of priorities, issued the necessary order yesterday, and one defense official termed it the "toughest" defense restriction yet imposed to conserve the supply of a strategic metal for arms production.
