New York Markets

NEW YORK, Feb. 21—(AP)—The few share buyers who appeared in Wall Street today gave rails and scattered industrials a little support but left many market leaders to shuffle indifferently over a slightly lower route.

Moderate irregularity ruled at the start and, in generally quiet dealings, trends remained cloudy at the close of the brief session. Transfers were around 200,000 shares.

Stocks ahead the greater part of the time included Union Pacific, Great Northern, Southern Railway, Santa Fe, Kennecott, American Telephone, J. C. Penney, United Aircraft, Westinghouse, and Air Reduction.

Among stragglers were Standard Oil (NJ), Bethlehem, U. S. Rubber preferred, General Motors, J. I. Case, International Harvester and American Can. Allied Chemical touched another new low for the move.

Carrier loans attracted modest demand in the bond division. Commodities inclined to slip.

U. S.-Dutch Fleet Smashes Back At Invasion Hordes

strait, east of Bali, and continued on a major scale today as the struggle for the last United Nations stronghold in the Indies thundered toward a climax.

Allied submarines and treacherous coral reefs were reported playing havoc with Japanese landing forces.

Bali, already invested by Japan's sea-borne invasion hordes, lies across a mile-wide strait from Java.

Japs Claim Victory

Imperial Tokyo headquarters, giving its version, claimed a smashing victory against heavy odds in a battle after midnight Friday morning in the 15-mile-wide strait between Bali and Lombok islands.

A Japanese communique asserted that two Dutch destroyers were sunk and a third heavily damaged by two Japanese destroyers, which then chased two Dutch cruisers three miles before two more Japanese destroyers rushed up and helped score torpedo hits on the fleeing cruisers.

Port Darwin Evacuated

With the far Pacific conflict surging ever closer to her shores, Australia ordered civilians to evacuate Darwin, twice-bombed naval base on the north coast of the commonwealth, and military authorities clamped strict control on the area.

Authorities also ordered that no lights be shown at night in any building within 10 miles of the Victoria coast of southeast Australia.

Latest reports from Batavia said Dutch troops were still battling fiercely in defense of Bali and Sumatra but acknowledged that the situation was growing more critical.

Dispatches from Chungking said Generalissimo Chiang Kai shek's Chinese veterans, aiding in the defense of Burma, crushed a Japanese attempt to cross a river west of Chiengsen, in the northernmost tip of Thailand.

Japanese bombers were officially declared to have destroyed 27 planes, aloft or aground, at Kalidjatic field 60 miles east of Batavia, and a communique said "widespread destruction, as well as fires, was caused to other military objectives."

Domei, Japanese news agency, reported the Batavia raid without details.

Offices To Close For Washington's Birthday

Because Sunday is the 210th anniversary of the birth of George Washington, nearly all city hall offices will close Monday, February 23. The city council meeting will be postponed until Tuesday, February 24, when it will convene at the regular time. The semi-monthly school board meeting will not be held Monday because of the absence of school administrators, who are attending a conference in San Francisco.

Offices closed Monday will include those of the city recorder, treasurer, building inspector, and city engineer. The fire and police departments, as well as the city school offices will remain open.

said was about five miles back when the Pan Massachusetts was torpedoed. He declared the men on the rescue ship came to their assistance despite the danger of also being torpedoed, "launched boats and saved all who were alive —that is bravery."

The survivors were landed here yesterday afternoon but the navy withheld news of their arrival and of the sinking until today, presumably as a precaution for the safety of the rescue vessel.

The vessel is owned by the National Bulk Carriers, Inc.

The Pan Massachusetts was the 31st ship officially announced as attacked in the current series of sinkings in north Atlantic coastal waters.

Spring Offensive Just Talk So Far

sive action before the Red army is obliged to cope with Hitler's real spring drive.

In recent days some skepticism has been expressed about Hitler's actual offensive intentions against Russia this spring, but it is very hard to see how he can avoid throwing everything he has against the Russians, and at the earliest possible moment.

Evidence of continuing, enlarging U. S. and British aid to the U.S.S.R. increases Hitler's desperate urgency. Entrance into the Churchill war cabinet of Sir Stafford Cripps is also of far more importance in this connection than is generally realized. If proof of this is needed it may be found in the German propaganda broadcasts, which have almost hysterically denounced Cripps for weeks as "the man who would deliver up Europe to the Bolsheviks."

MARCOLA, Feb. 21.—(Special)—A shower honoring Mrs. Walter Rogers was given recently at the home of Mrs. B. H. Pope with Mrs. James Merwin and Mrs. Pope hostesses. Those attending were Mrs. B. B. After the regular meeting of the Royal Neighbor lodge a party was given by the losing side in the recent membership drive. Mrs. Mae Logan, state supervisor, and Mrs. Maude Davis, district deputy were present.

A. K. Peterson was injured Wednesday morning when he slipped from a railroad car and fell to the ground while at work at the Fischer Lumber company.

The regular meeting of the P.-T. A. was held Monday evening at the grade school.

Mrs. Ruth Rugh is still teaching at the high school as the regular teacher is still sick in Portland.

returned to the holder of the receipt within six months after the war's end. The Japanese may sell their explosives back to the dealer, if that can be arranged.

The governor's statement said further:

"In prohibiting Japanese from possessing explosives or firearms, and setting up regulations covering those in possession of other American citizens, we are taking precautionary measures felt necessary by the state government, the army and the navy, whose responsibility it is for the safety of our state and nation against insurrection from within and invasion from without.

"I am certain that all loyal Japanese will understand the necessity of this action which takes from them their property, which might be used innocently or otherwise to injure life or damage property. Regulations covering the storage of firearms by other Americans are necessary, in the considered opinion of the army and navy, to prevent their forcible seizure at a time of insurrection or invasion."

"The regulations covering firearms and explosives are being worked out now in conferences with manufacturers, dealers and industrial users and will be issued within a few days."

Army Objects To NLRB Hearing

headquarters here was vague as to its status or whether a hearing would take place.

Mrs. Elinor Herrick, New York regional director of NLRB, advised the United Press by telephone, however, the board headquarters here had formally authorized the issuance of a complaint and the hearing would proceed at the board's direction.

Mrs. Herrick said she had taken the initiative in attempting to avoid interrupting plant operations during the hearings. It has been tentatively agreed hearings will take place in Paterson, N. J., as the city most convenient employes of both plants. Provision will be made to hear the testimony of employes and of plant executives at hours other than those during which they normally would be working on the war time job of constructing the parts. Mrs. Herrick said she had not been told of protests from the war or navy departments against holding the proposed hearings. The United Press was informed that the protests were made to the board here.

The Curtiss-Wright problem is only one of several involving various types of labor controversies which are greatly disturbing some persons here. The number of disputes—not strikes—was said to have increased recently beyond anything recorded in some previous months.

The Curtiss-Wright dispute involves an American Federation of Labor machinists' union complaint against an alleged company dominated union. The alleged company dominated union was set up in both plants under authority of the NLRB which now entertains a complaint against it.
