

ARROW MESSENGER—Ph. 610.

Hand Books
By Marshall

Marshall, one of the nation's leading band leaders, will publish his big swing orchestra at a one night stand on Wednesday, April 23. L. D. Erwin, proprietor of the Holland club, stated that dancing will get under way promptly at 10 o'clock and continue through 12:30.

Marshall's famed orchestra features a well balanced combination of wind and string music with variations and designs of the type in singing numbers.

Many years Marshall has been known by radio audiences as the outstanding vocalist, singing many big time bands as Gus Arnheim, Orville Knapp, and several others and also as radio announcer over both national-wide stations with several big time shows.

The same bill with the Marshall band will be the usual floor show for three nights scheduled for Tuesday, Wednesday and Thursday.

This week the Holland club will feature their original band of tap and dance routines in the spotlight on the floor.

Reservations for the dance show may be had by calling Holland.

Slips Into
Dust Chute

Harrington, 948 Twelfth street, west, was working with a large bin of lumber on Tuesday morning when a truck backing under the bin tipped and sent the lumber down the pipe-like passageway. Harrington was unconscious and rushed to the Heart hospital for treatment. He had sawdust in his respiratory tract, the attending physician reported, but no serious damage was said to be "noted." The mishap occurred between 9 and 10 a. m. Tuesday.

6 Deadline
School Posts

Monday noon, June 6, will be the date for filing for candidacy for a position on the Eugene school board, which will have two seats to fill in the June 15 election, was announced Tuesday.

Five-year term of G. D. Mann, present chairman of the board, will expire this year. Also terms of Dr. Victor P. Morris, and Dr. W. H. Morris, were appointed to fill the vacancies by the death of O. F. Smith, has one year yet to run. The man has indicated that he would run again, but believed both will allow their names to be placed on the ballot. There has been no announced opposition to these two.

Seventeen states in the country have adopted new motor license laws for 1942.

Bulletin

WASHINGTON, April 21.—(AP)—Two American torpedo boats, in a daring night attack on five Japanese warships, seriously damaged a Japanese light cruiser near the island of Cebu and left it in a sinking condition, the navy announced late today.

The American craft broke through a protective screen of four Japanese destroyers to get at the cruiser.

U-O Museum Installs Display On Dating Wood Fragments

A new exhibit on dendrochronology, the science of dating wood fragments by their annual rings, has been completed under the direction of Dr. L. S. Cressman, professor of anthropology and Dr. H. G. Barnett, assistant professor, and placed in the University of Oregon museum of natural history.

The display shows in graphic manner the method of determining relatively exact dates of archeological ruins in which wood is found. One of the specimens is a lodge-pole pine log taken from a charcoal cave near Bend, which bears the marks of aboriginal axes. It is dated about 1331 to 1370.

Correspondence Catalog Completed

Its usual curricula supplemented with new courses designed to fill defense needs, the 1942-43 edition of the state system of higher education's correspondence study catalog is now ready for distribution.

Two courses in advanced meteorology just announced are intended primarily for airplane pilots and those preparing for positions as meteorologists in the service of civil airlines or the U. S. government.

A series of three new courses in engineering drawing offers training in the use of drafting instruments and instruction in the art of lettering, also study of the principles of orthographic projection. One new course in algebra and one in geometry for those who have had less than a year's high school instruction in each of those subjects have been added to the mathematics curriculum.

Other new courses among the 201 college and 38 high school courses offered by the correspondence department are farm accounting, lower division landscape design, and a series of Spanish courses. A reorganized secretarial science curriculum offers five courses in stenography, 3 in typing, and one in office organization and management. A series of world history and elementary commercial English courses has also been added.

Persons interested in correspondence work are asked to write to Miss Mozelle Hair, correspondence department, in care of the general extension division, University of Oregon, Eugene. Prospective students can enroll in the courses at any time.

Community Chest Directors Meet

A committee was appointed at the initial meeting of the Eugene community chest board Monday night to make a study of organizational plans, constitution and by-laws and other phases of the proposed 1943 community chest drive.

Mrs. Vern Engwall was named on the board of nine, and it was indicated that three more members will be added to make a board of 12 when the organization is completed ready for an active campaign.

At the Monday night meeting, over which Loy W. Rowling presided as temporary chairman, it was agreed that the USO campaign could be conducted separately next year.

Next meeting of the group, which will hear the organization campaign, will be held Thursday noon at the Osburn hotel.

Tree Farm Topic At Rotary Meeting

The Willamette Valley Tree farm and the importance of such a project to Oregon's economic future in continuing forests were discussed at the Rotary club Tuesday noon by Walker Tilley, manager of the farm. Mr. Tilley briefly reviewed the history of early experiments in tree farms and pointed out that now the program has become national, drawing considerable interest from the public.

The Willamette Valley concern is unique in that it is a co-operative, established by several private lumbering operators, who in common with lumber leaders everywhere feel an obligation in seeing that forests are continued. The Willamette farm takes in 220,000 acres of which 180,000 plus are in Lane county.

There is considerable work and detail in setting up and operating such a project, Mr. Tilley said. Protection of the lands selected for this work from fire, the greatest hazard in the fir districts, and from insects, which scourge the pine regions; examination of conditions and facts connected with the growing of trees on the lands, rate of growth, cost, etc.; and co-operation from all concerned, including the industry, the public agencies involved, and the public, were some of the problems listed by the speaker.

In speaking of the forests, Mr. Tilley said the Oregon forestry code was one of the finest and one given national attention. The lumbering industry had a big part in drawing up and sponsoring such a code, he said.

Obsidians Sign Up For Forest Fire Work

The Willamette national forest will give forest service training in various fire fighting jobs to men and boys who are experienced in the woods and physically qualified, according to J. R. Bruckart, supervisor. About 30 members of the Obsidian club signed cards for the course at a recent meeting, and others may sign up either at the forest service office or at Hendershot's. The course will include six classes of two hours each, to be held on a convenient evening each week, and probably also including a field trip to Belknap camp, immediately following the regular forest service guard camp there, for a week-end of practice in the forest. The course will start about May 1, and last about 6 weeks.

"The forest service," Mr. Bruckart said, "is delighted to train the Obsidians and others interested for emergency service. While we don't expect to ask them unless all other sources of manpower are exhausted, it is very gratifying to us and to all patriotic citizens to know that these trained woodsmen are ready and willing, and standing behind us, in our work to save the forests. It is too bad that we are unable to use the help of the many women who have volunteered, but at present we see no way to do so. Next year if manpower is seriously depleted, we may use some feminine lookouts, etc."

The training for which the amateurs are slated will be roughly divided into three classes: three-man smoke chaser crews, for investigating and killing small fires in inaccessible places, carrying all equipment on their backs; pumpers, cooks, and timekeepers to work with the main crews; and crews to pack special kits of supplies to be used in the airplane work.

Vronsky And Babin Will Play Monday

The famous two-piano team of Vronsky and Babin will appear in concert at McArthur court, Monday, April 27, as the last feature of the University of Oregon's 1941-42 "Greater Artist" series.

Hailed by Time magazine as "the most brilliant two-piano team of our generation," Vronsky and Babin have been enthusiastically received throughout the entire nation in recent appearances.

They were first introduced to this country in 1937, and immediately became a success. Each succeeding season has re-emphasized their standing, until today they are securely entrenched in public favor.

The concert of Vronsky and Babin takes the place of the scheduled appearance of Josef Hofmann, noted pianist, whose performance January 7 was cancelled because of the silver thaw.

Season tickets will be good for admission to Monday night's concert, which starts at 8 o'clock. Single tickets for the concert are now on sale at the ASUO ticket office in McArthur court.

Student Broadcasters To Present Program Over KORE At 6:45

The weekly defense program over KORE Tuesday at 6:45 p. m. will be given by the radio speaking class of Eugene high school, under the direction of Mrs. Ethel Christie, and will deal with the problems of the country air raid warfare.

Leland Huff is the author of the script and has also arranged the music, including a new song by Lowell Chase. Bob Litten is the student announcer. Students featured in the speaking parts are: Glendora Gallup, Jack Wiseman, Roger Stewart, George Northam and Lloyd Sargent.

This is the last of the student broadcasts for an indefinite time, as the defense council finds it necessary to take this time on the air for local and state instruction on different phases of timely defense work.

McKENZIE LODGE MEETS

A special communication of McKenzie River lodge No. 195, A. F. and A. M., will be held Thursday evening, April 3, at 7:30. Work will be exemplified in the M. M. degree. Refreshments will follow the meeting.

Chamber Not To Meet

There will be no meeting of the Eugene Chamber of Commerce luncheon group this Friday, it was announced Tuesday.

Members of the chamber attended a joint session of civic and service club members Monday to hear Governor Charles A. Sprague speak, and this meeting took place of the regular Friday luncheon. It was announced at Chamber headquarters.

CLUB TO MEET

River Road Townsend club number 3 will meet Wednesday, April 23, rather than Thursday as previously announced. The meeting is at the home of R. B. Dove at 7:30.

VISIT HERE

Mrs. Buna Faris, postmistress at Nero Pine Creek, with her daughter, Susan, and son Bobbie, visited in Eugene over the week-end. Mr. and Mrs. Faris formerly lived in Eugene, and moved to Nero Pine Creek in 1937 after buying the store from Mr. and Mrs. Henry Wendt, who came to Eugene.

RAF engineers recently pased a scud of half sections of dried peas on a plant to find out, experimentally, the amount of "drag" that's created by rivet heads.

Having the front wheel alignment checked at least every three months is a good way to save on rubber. A wobbling wheel wears out tires very rapidly.

Elks Plan Feature Show for Stag Party Wednesday

A feature show is planned for the annual Elk stag party to be held this year Wednesday, April 22, says Robert M. Fischer, Jr. who is in charge of entertainment.

The affair will start at 6:30 with a potluck dinner at the Elks temple, to which the wives of members are being invited. Members are also inviting their wives to the after-dinner show. Among the attractions billed for the show are six Hollywoodette dancing girls, three singing sweethearts, Mei Lan, exotic Chinese dancer, Ted and Ethel Walker, a comedy act, Meredith and Robin, a dance team, and the Philmers, a juggling and novelty act. The show comes from San Francisco and is on its way for a stay at the Palomar in Seattle.

Albany Does 'Double Duty' Carrying Out Defense Plans

By WALLACE EAKIN
Managing Editor of The Albany Democrat-Herald

ALBANY, Ore.—(AP)—Gateway to vast timber resources to the east and to Camp Henry R. Adair to the west, Albany is trying to do double duty in carrying on its civilian defense program, and its people have been told by national civil defense authorities that they are doing a pretty good job of it.

Immediately in need of protection are three large woodworking plants whose production is now largely in the interests of the war program and whose raw materials come chiefly from eastern Linn county, plus a score of lesser industries which are processing foodstuffs produced by farmers of the rich Albany agricultural area.

Aware of their responsibilities, the people of Albany have turned out in a big way for civil defense work. Meanwhile, they are laying the foundation also for projects to enhance the welfare of soldiers at nearby Camp Adair.

For civilian defense tasks, more than 3000 residents of Albany—men, women and older boys and girls—have enrolled, and nearly all have been assigned to duties varying from sewing to policing. More important departments of the program have absorbed defense workers as follows:

Civil air patrol, headquarters at the Albany municipal airport, engaging 70 men and women, including a score or more of licensed pilots.

Police reserves, encompassing 110 active members, who in their last test turned out 90 strong, each at his post, in 28 minutes.

State guard unit, newly organized, with 65 members.

Air raid wardens, numbering 272, all active.

Fire wardens, 75, and fire watchers, 30, all thoroughly rehearsed.

Air raid warning service, centering at Albany, involving 40 warning board watchers besides administration staff for the entire county.

Red Cross ambulance corps, including 30 panel delivery trucks available for emergency use as ambulances.

Transport corps, now including 30 emergency trucks, still in process of organization.

Necessities division, through which more than 300 local women are learning home nursing, industrial skills and first aid, preparing themselves for all manner of service should emergency arise, and doing service now when asked. These women have made extensive plans for housing, clothing and feeding of potential refugees and evacuees.

Red Cross sewing or production division, which is engaging an average of 30 women a week.

Utilities division, yet in its infancy.

Medical unit, under direction of the Linn county medical society, also centering at Albany and engaging all local physicians, through whom emergency hospital facilities have been arranged in churches and public buildings.

In addition to this, the Albany public school system, co-operating with the state department of vocational education, is sponsoring defense industries classes including a carpentry class, enrolling nearly 100 men; a class in sheet metal work and prospective classes in other skills; a class in war-time salesmanship, to train help for replacement of clerks and salesmen called into military service.

Dr. Wirt Named As Rotary President

Dr. Williston Wirt, pastor of the First Congregational church, is the new president for the Eugene Rotary club, following a board meeting, Tuesday. He succeeds Dr. J. F. Cramer, city school superintendent, and will take office July 1. Dr. R. T. Burnett was named vice-president; Lynn S. McCready, treasurer; and A. F. Holmer, secretary. Preceding the board meeting, the club had elected the seven directors as follows: J. R. Bruckart, Dr. R. T. Burnett, F. A. Cuthbert, Clarence E. Lombard, Lynn S. McCready, J. W. Silva, and Dr. Williston Wirt, the directors then meeting to elect officers.

Merchants Warned To Fix Display Lights

Coordinator Howard Merriam announced Monday that several Eugene merchants still have failed to comply with the order of the second interceptor command that lights be ready for a 60-second blackout.

A number of merchants have left display lights on all night inside their stores without making arrangements whereby they could be turned off, either automatically, or by an attendant within 60 seconds after a call for a blackout, Merriam said.

Half a dozen stores have had their inside store lights wired with the street cluster lights in such a manner that they will turn off automatically when the street lights are switched off. Local electricians are working on several other such installations, Mr. Merriam said.

Wm. Brown Store

GLASS UTENSILS & DECORATIONS
COPPER & BRASS
REPAIRED & RESTORED

But Mr. Brown hasn't stopped advertising!

Mr. Brown knows that during World War I many businessmen whose stocks of goods were temporarily cut down did stop advertising.

He knows that because they stopped advertising, many of those businessmen lost their customers AND DIDN'T GET THEM BACK WHEN THE WAR WAS OVER.

So Mr. Brown keeps his name before the public by keeping on advertising in the newspapers. He advertises new items—offers service on copper and brass articles. He shows his customers that he is interested in being useful to them—in giving them valuable service.

And when the war is over, when Mr. Brown again has plenty of copper and brass goods to sell, he won't have to worry about his customers forgetting him. They will still be in the habit of dealing with him.

There are many "Mr. Browns" in America today—many businessmen who are advertising even though their shelves are understocked, because they want the public to remember them, to stay in the habit of dealing with them, when the war is over.

When business is better in this town everybody benefits. When everybody in the town knows what's going on all over the world, each man can tell better how to vote, what to buy and how to protect himself.

Read these ads each week. Tell your friends to read them. They tell you what an important part your newspaper has in helping you to know what's going on, so you can decide what you personally are going to do about it all.

The publisher of this paper wants to serve the community the best he possibly can. If you have any suggestions or questions or criticisms don't hesitate to write him a letter. It will receive personal attention.
