

San Francisco Has 'De-Gassing' Stations

SAN FRANCISCO.—War-conscious San Francisco has tested and made ready for use the first of 55 public "de-gassing stations" which will be located at strategic points in the city in case of enemy air attack with poison gas bombs.

Erected by the Red Cross, the station is capable of treating 120 victims an hour. Building cost was \$2,000.

Dr. Maurice Tainter of the Red Cross pointed out that speed was the paramount necessity in treatment of poison gas victims and said the stations would save "countless lives" if the city were subjected to a large gas attack.

"The thing that should be emphasized is speed," Tainter said. "Best results from gas contamination are accomplished within 10 or

ANTI-GRAY HAIR VITAMIN — HERE

I was shocked every time I looked in a mirror—it was hard to realize I was so rapidly growing gray and elderly looking. Then I heard about the new anti-gray hair vitamin which seemed to offer some hope for the future.

This miracle anti-gray hair vitamin named Calcium Pantothenate offers good news to the millions who are handicapped with gray hair. It can now be had in palatable tablet form under the name GRAYVITA.

Actual tests reported by a leading national household magazine on persons ranging in age from 22 to 60 reveal that 68% show positive evidence of a return of hair color.

Taken internally it supplies a natural color pigment thru the hair roots. As this vitamin deficiency in the body is replenished, the GRAYVITA a trial order now and take advantage of our introductory price—only \$1.50 for a 30 day supply. \$4.00 for a 100 day supply. 15 minutes, although benefits can be achieved up to several hours later."

The de-gassing stations would serve as emergency centers for victims, after which they would be transferred to hospitals.

The procedure was demonstrated recently in a drill with live models participating. Attendants, wearing gasproof clothing, rushed the "patients" into a sealed chamber and stripped off their clothes.

In an adjoining section, they were treated under a shower and the gas rubbed off. After thorough scrubbing and first aid for gas burns, the patients were transferred to a hospital.

Separate sections are available for men and women.

Patriotic Gang Turns Down Bogus Stamps

NEW YORK.—The underworld, which rarely turns down a chance to make a dishonest dollar, displayed rare patriotism recently in connection with the arrest of six men charged with

attempting to sell fake war savings stamps.

Secret service agents of the treasury department who collared the men and seized 210,000 unperfected stamps of 25-cent denomination worth \$52,500 told this story:

They said that some months ago one of the prisoners went to Detroit to sell a block of the bogus stamps at half price to the Detroit gang which in turn was to realize a substantial profit by turning the stamps in for defense bonds.

Members of the Detroit gang, however, not only turned down the offer, but considered it their patriotic duty to let the treasury department know what was up.

The charge against the six men was conspiring to counterfeit stamps worth \$52,500 had they been valid, and Maloney said that while sales had not been started he had no doubt the gang contemplated passing them on a nation-wide scale.

Accused by the government of organizing the scheme and making the plates were Abraham and Joseph Perkes, brothers, who were held in \$25,000 bail on arraignment before U. S. Commissioner Isaac Platt.
