CAN'T KEEP GRANDMA IN HER CHAIR

She's as lively as a youngster—Now her backache is better. Many sufferers relieve nagging backache quickly when they discover that the real cause of their trouble may be their kidneys. The kidneys are Nature's chief way of taking the waste out of the blood. They help most people pass out 2 quarts a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headache and dizziness. Frequent or steady passage with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
