

Food for Freedom Production Being Surveyed by AAA

"Food-for-Freedom" production on Lane county farms and their participation in the 1942 agricultural conservation program is being surveyed in the annual AAA compliance check now under way throughout the county, announces George W. Platt, chairman of the county AAA committee.

To conserve rubber and manpower needed in agriculture and vital defense industries, a farm-to-farm canvass and acreage measurement, such as has been conducted in the past, will not be made this year. Instead, co-operators, this year are being asked to visit designated central places and report for the program year December 1, 1941, to September 1, 1942. Meetings have already been held for the following agricultural conservation communities: Junction City, Eugene, Irving, Springfield, and Cottage Grove.

Meetings are scheduled this week for Blachly community, at Slayter's store in Blachly on June 22 and 23, and at the old Deadwood school (at mouth of Deadwood creek) on June 24 and 25 from 1 p. m. to 9 p. m. each day; also for the Coast community in the city hall at Florence and at the Mapleton Grange hall on June 23, 24, or 25 anytime from 10 a. m. to 4 p. m. or 7 p. m. to 9 p. m. each day. Pleasant Hill, Loran and Elmira communities are asked to call at the county office in the Public Market building in Eugene on June 22, 23, 24 or 25 anytime between 8 a. m. and 6 p. m.

Between co-operators who are unable to call at the meeting place and time for his community are urged to call at the county office at the earliest possible date and report performance.

"This year's compliance check is more than a determination of participation in the farm program. In a sense it amounts to an inventory of the county's capacity for production of the foods needed to win the war," Mr. Platt said in announcing the new plan. "Information obtained will be invaluable in planning our contribution to the larder of America and our allies in 1943. The hearty cooperation of farmers in helping obtain this information will be a definite contribution to the county's war effort."

Mr. Platt explained that provisions of the agricultural conservation program have been modified in order to encourage the maximum production of needed farm commodities and at the same time conserve soil resources for top production throughout the war emergency and in the years to come.

Mrs. Anna Pengra Hill, Pioneer, Dies

Mrs. Anna Pengra Hill, wife of Dr. Clairborne Hill, president emeritus of Berkeley seminary and former Eugene resident, died June 12 at Berkeley, Cal. Services were held at the Baptist church there and interment took place in Sunset View cemetery.

Mrs. Hill was a daughter of B. J. and Charlotte Pengra, early pioneers of Oregon. The station of Pengra on the Willamette was named for her father. She was graduated from the University of Oregon with an A. B. degree and was married later to Dr. Hill, who is also an Oregon graduate, and after leaving her graduated from Rochester seminary.

Dr. Hill was pastor of the Eugene Baptist church from 1884 to 1890, after which he went to Berkeley to become president of the Baptist theological seminary, and on retiring a few years ago was made president emeritus of the institution.

Mrs. Hill leaves one sister, Mrs. Ella V. Walker of Oakridge, besides two nephews, Arthur H. and Norton M. Pengra, of Eugene and a niece, Mrs. Edith Bockes, also of Eugene, besides many other relatives.

Dr. Hill was here when the Eugene Baptist church celebrated its 80th and 85th anniversaries. The 90th anniversary will be celebrated this coming July.

Pengra Pass, near Odell Lake, was named for Mrs. Hill's father, who was the surveyor-general of the state in the early days and made the first survey across the mountains for the military road.

LEAVES 171 DESCENDANTS

ROCKLAND, Me. — (AP)—When 92-year-old Mrs. Sarah E. Hamilton died, she left 171 descendants, including nine sons, two daughters and 160 grandchildren, great-grandchildren and great-great-grandchildren.

Wood substitutes account for 250 pounds of aluminum alloy in each plane, while the new steel will replace almost 1000 pounds of aluminum alloy per plane.

Moosehead, which cuts through a trackless Maine wilderness for 35 miles, is New England's largest lake.

Exact Beginning of Summer Is Explained by J. H. Pruett

By J. HUGH PRUETT (Astronomer, General Extension, University of Oregon)

The summer solstice, which marks the nominal beginning of summer, attracts little attention in our modern times. Our mathematical astronomers at government headquarters calculate for us to the exact minute the date of this occurrence. Without effort on our part we are satisfied to be told that this year summer begins on June 21 at 6:17 p. m., PWT.

But in early historical times when the people had the leisure actually to observe the sun's movements in the sky, the summer solstice was the occasion for elaborate ceremonies. An ancient Egyptian temple was so arranged that on these longest days of the year the sun's rays at sunrise would light the entire length of a long hallway. We read of the astronomers of many nations carefully measuring the shadow of a post in order to find on what day the sun was highest and the shadow shortest at noon, thus determining the date of the solstice. At Syene, Egypt, vertical posts cast no noon shadows and open wells were lighted entirely to the bottom by sunlight, since the sun was directly overhead.

The word solstice means "sun stands." If a rock is thrown it "stands" for an instant at its highest point before it starts down. The sun apparently does the same thing at the summer solstice before it back-tracks toward the

south from its highest position. This seeming motion is brought about by the tilt of 23 1/2 degrees of the earth's axis to the plane of its orbit, combined with its annual revolution around the sun.

Suppose the part of the earth at which we are located kept constantly facing the sun for six months, thus giving us continuous noon. A little before Christmas the sun would appear very low above the southern horizon. This lowest point would mark the winter solstice. Then it would move straight upward day by day until after six months it would be 47 degrees higher in the south, the summer solstice.

With the earth's daily rotation, matters are complicated a trifle. But it simply means that after December 22 the sun's rising and setting points, as well as its noon position, constantly move farther north day by day.

At the summer solstice the sun is directly overhead at noon along the tropic of Cancer, which is 23 1/2 degrees north of the equator, and constantly above the horizon for a full 24 hours everywhere within the Arctic circle, 23 1/2 degrees from the north pole.

The tropic of Cancer was so named about 2000 years ago when the sun appeared among the stars of the constellation Cancer, the Crab, at the summer solstice. Precession of the equinoxes has since then placed the solstice sun in Gemini, but the ancient designation is retained.

Legion Sponsors 'Victory Day'; Brings Circus

The local celebration of "Victory Day," next Friday, June 26, will be sponsored by the Eugene post, No. 3, American Legion, in cooperation with many other civic and patriotic organizations. Throughout the country various cities have been cooperating in observation of the day in aiding the army and navy.

Merchants and residents of Eugene will be asked to display their flags that day, and a proclamation will be made establishing "Victory Day" in Eugene.

The Legion has made arrangements to sponsor the Polack Brothers three-ring circus through Friday and Saturday at the fairgrounds. The program calls for two afternoon performances and two evening performances each day.

A special committee from the Legion is making arrangements to allow wives and families of men now in the army and navy service in on free tickets. The circus is the same company which was here last year at the armory under the sponsorship of the Shrine. The company has all new acts for this year's show.

Headquarters for the celebration are at 820 Willamette street.

Four-H Boys Have Big Time At Camp

By RALPH GILHAM

FALL CREEK 4-H CAMP, June 20.—Fall Creek 4-H summer camp is proving a success in spite of rain and cold weather. All of us think that the water is pretty chilly, but those who don't have colds or are restricted from this activity have been getting wet every day. Earl Trabue of Eugene has arrived and will be in charge of our swimming and we have quite a number of the younger ones who do not know how to swim that hope to learn to at least keep on top before they leave here.

We held our first council with election of officers on Monday evening. Our executive committee met for a special meeting and made a rule that only the junior counselors would be allowed on the diving platform when they did not have their swimming suits on and that those who did not know how to swim would never get on the platform.

On Tuesday morning we all got a thrill from having Kenneth Tobias from Eugene come out and give us lessons on fly-tying. We have materials here so that we can tie flies in our spare time. We are having to put in long periods on our Red Cross first aid in order that we can get enough hours to receive our cards. Mrs. Steele is teaching first aid.

In our crafts we made leather bracelets or purses, directed by Mrs. Morton and Phyllis Foster, for one group. The other group worked on finger-printing, directed by Mrs. Schofield.

26 Serving Terms In Jail For Vagrancy

Twenty-six men serving time for vagrancy were in the county jail Saturday and more are coming, officers said.

All these men have been picked up in the Southern Pacific yards, some of them having been taken off of trains. Complying with the government's request that nobody be allowed free rides, the company's special officers have been bringing men to jail every night and Judge John Bryson of the local justice court has sentenced them to terms of from 10 to 30 days in jail for vagrancy.

Harvard Man Will Speak At UO Tuesday

Dr. William H. Burton, professor of education at Harvard, who is teaching here in the school of education during the summer session, will speak on the subject "Children—Their Political, Economic and Social Education," in the Faculty room at Friendly hall Tuesday night at 8. The lecture is the first of a series designed for the benefit of summer school students and citizens of Eugene. The public is invited.

Dr. Burton received his B.A. degree at the University of Oregon in 1915. He earned his M.A. at Columbia in 1917 and Ph.D. at Chicago in 1924. Dr. Burton's specialty has been teaching in the elementary grades.

Dr. J. R. Jewell, dean of the school of education, will preside at the Tuesday meeting on the campus.

Ewe Bears Two Lambs Within Seven Months

TRENT—W. L. Wheeler of this community has a "real challenge" to report to Route F.

A ewe in the band of sheep on the Wheeler place gave birth to a large lamb in December 1941. The lamb died when three weeks old.

This past week, June 16, the ewe gave birth to another lamb. Route F can not have any more productive sheep than this one, thinks Mr. Wheeler.

SPORTSMAN AT 90
CANTERBURY, N. H.—(AP)—The oldest man in this town, William W. Wheeler, 90, tends 12 hives of bees and cultivates his large gardens as part of a regular work-day schedule. He also takes fishing and hunting trips for recreation.

Pacific First Federal Declares Semi-Annual Dividend of 3 Per Cent

Pacific First Federal Savings, with offices in Tacoma, Seattle, Bellingham, Portland, and Eugene, announces another semi-annual dividend of 3 per cent, payable June 30, to more than 40,000 thrifty folks. F. M. Cashman, manager of the Eugene branch, announced that this dividend was earned in only "five months" operation and that the June earnings will be added to surplus that is now well over \$1,250,000.00.

Mr. Cashman further announced that this dividend includes school savings accounts in Eugene and vicinity, so that the school children share in this dividend the same as adult saving holders. Jumps, the star, Black Joe, clear-

Trained Great Dane Dogs Give Circus Novel Touch

Romeo and Juliet of the world's only troupe of trained Great Danes in Russell Bros. Circus, shown with Milonga Escalante, aerialist.

Unusual trained animal novelties abound in the star-spangled 1942 program of Russell Bros. Great 3-Ring Circus, to be at the Lane County Fairgrounds in Eugene Wednesday, July 1.

Great Dane dogs, almost as large as the pony that performs with them, are the only canines of their breed ever to be trained to do a circus act.

Of special appeal to children are John White's cute performing Spitz dogs and Maree and Her Pals in a lively pony and dog revue.

White's leaping Greyhounds execute unbelievable high and broad in a standard 12 feet above the ground.

Then there is Barney, the playful, unpredictable 3-year-old movie chimpanzee.

All these supplement such out-

standing trained animal features as Jorgen M. Christiansen's celebrated Argentine Criollo horses, and Winston's Equestrian Sea Lions which achieve on horseback tricks that other trained seals perform on the ground. Nor should the elephants, under the tutelage of the master trainer, Cheerful Gardner, be overlooked.

The human element of the two-hour performance embodies such headlines as the Seven Skyrocketing Escalantes, the Sensational DeWaynes, the Four Acevedos, the Bell-Thazer Troupe, Grace Orton Trio, Aerial Alexandros, Clarkionians, and many others.

Eddie Woekener's band provides spirited circus music in the modern manner. Doors to the menagerie and big top open at 1 and 7 p. m., the band starts playing half an hour later and the big show starts at 2 and 8 p. m.

American Rescued After Week Adrift

LONDON—(AP)—More than a week on the cold North Sea in an open dingy... no water for a week... raw seagull flesh for food... the death of two companions... then complete loneliness.

Pilot Officer Holbrook "Hoke" Mahn, of the Royal Canadian air force, a Harvard graduate from Denver, Colo., lived through it all as the only survivor of the crew of four of a bomber forced down off the Dutch coast.

One crewman was killed in the crash. Mahn and two sergeants climbed aboard their tiny dinghy, hoping for rescue. For some days aircraft, friendly and unfriendly, dived overhead, apparently never spotting the little boat.

Finally a German plane swooped low to investigate.

For a brief space the three men were jubilant even though rescue would mean German imprisonment. With all the water they had left they toasted their seeming good fortune only to witness a British Beaufighter dive out of the clouds. The British pilot never noticed his comrades in distress as he chased the German plane.

That night one of the sergeants died. The other sergeant died several days later leaving Mahn alone in the boat. Starved, Mahn grabbed a gull which perched on the rim of the dinghy and ate its flesh. He was thirsty for days. Then rain fell and the flier gathered enough to quench his burning thirst.

Finally, a British torpedoboat came across the dinghy and Mahn was taken to a hospital ashore.

The proper way to engage another pilot in a dog fight in modern warfare is to shake your fist at him. If he accepts your challenge he will promptly shake his fist back at you.

KC Plan Picnic; To Install July 6

The local council of the Knights of Columbus will sponsor the annual picnic for St. Mary's Catholic church parish and friends. This event is to be in July, date to be announced later.

New officers for the local Knights of Columbus will be installed July 6. The meeting will be presided over by E. J. Eberdt, retiring grand knight. New officers for the coming year are:

P. A. Gent, grand knight; Karl Love, deputy grand knight; Willard Spies, chancellor; Clarence Iddings, treasurer; Clarence Kokkeler, warden; Fred Meads, advocate; Lee Kokkeler, inside guard; Lewis Gent, outside guard; Al Hoffman, recording secretary; A. J. McAdams, trustee for three years. The financial secretary, chaplain, and lecturer will be appointed July 15 by the new grand knight.

TRANSIENT INJURED

Jasse Frank Graham, a transient, walked out of a box car in his sleep, Friday night, and injured his side. The extent of his injury was not determined. After treatment at the Sacred Heart hospital, Graham was moved to the Veterans' hospital in Portland.

Spray Apples and Pears Now, Advice

Apple and pear growers in the Willamette valley should apply a spray now for the control of codling moth, according to word just received from B. G. Thompson, associate entomologist of the Oregon State college, by O. S. Fletcher, county agent, and F. C. Stephenson, county horticulture inspector. Following a period of inactivity, codling moths are again active, and during the past two evenings eggs have been deposited. Under ordinary Willamette valley weather conditions, these eggs will hatch by June 27. The spray should be applied before that date.

The recommended spray is powdered lead arsenate used at the rate of 3 pounds to 100 gallons of water. In orchards where codling moth is not a serious problem, two pounds of powdered lead arsenate to 100 gallons of water is sufficient to give control.

Calcium arsenate, used at the rate of 3 pounds powdered calcium arsenate to 100 gallons of water, has been used successfully in the Willamette valley for codling moth control. Tests carried on by the entomology department of the Oregon experiment station indicate that under Willamette valley conditions calcium arsenate is only slightly less effective than lead arsenate in codling moth control.

To North Dakota

The Rev. Louis G. Rodakowski, recently ordained priest, formerly of Springfield, and his brother, Mr. Albert Rodakowski, Tuesday left for North Dakota, their native state, for a three weeks' vacation.

On June 29, the feast of St. Peter and Paul, Rev. Rodakowski will offer a solemn high mass at St. Stanislaus' Catholic church at Belfield for relatives and friends. A dinner and reception will be held at the home of his uncle, Anton Rodakowski, at Belfield, N. D.

Rev. Rodakowski will return to Portland on July 10, when he will be appointed to some parish as an assistant priest.

Veterans Back Up Navy Recruiting; Buy Victory Bonds

The Eugene post of the War of Foreign Wars in its Friday evening voted to campaign for his class of "veterans for the navy" and voted vest earnings from the renewal in buying victory bonds.

At the meeting, the post and inducted several new members. Adjutant Arthur S. B. resigned because he is in California. Major W. G. was appointed to fill the vacancy.

The carnival committee headed the show had been a success. The show closed a ago Saturday.

Levings Quits State Police, Now In Arm

Frank Levings, state police officer, stationed in Eugene past four years, has resigned because he is in the States army air corps. He leave Monday for Mather Field, Sacramento, Cal.

Levings came to the Eugene district of the state police system, where he had been in service some time.

No successor to his post has announced as yet, but some in this district will probably be signed. Sergeant Del B. charge of district headquarters said Saturday.

Eugene Man Injured In Fall Friday

Theodore Samuel (Sam) sustained shoulder and leg injuries Friday when he fell from a dock at a lumber company, whose address is the Oregon tel., is employed by the Coast Bureau Lumber Grading Inspectors. He was taken to Sacred Heart hospital by ambulance Friday afternoon.
