Willkie To Talk On Production

WASHINGTON, Aug. 21—(AP)—Wendell L. Willkie will tell to leaders of countries he visits during his forthcoming trip the truth about American war production and correct erroneous impressions that production is not all it should be, President Roosevelt said today.

Mr. Roosevelt told a press conference that the 1940 republican presidential candidate will travel as a special representative of the president. Willkie announced yesterday he will leave within three weeks for Russia and the Near East.

The primary purpose of the trip, Mr. Roosevelt said, will be to tell foreign leaders the truth about the United States and its war effort. Willkie, he added, will seek to correct the impression that is spread over Europe and certain countries of the near east that American production is not all it should be.

The president said many people outside the United States have the false impression that American war production is being seriously hampered by labor and management troubles. He said he wanted Willkie to spread the word that total production delays are only an infinitesimal percentage of the total.

The chief executive said Willkie will carry messages from him to a number of leaders, including Premier Josef Stalin of the Soviet Union.

Willkie's itinerary, he said, will include Egypt, Arabia, Palestine, Syria, Turkey, Iraq, and Iran. Willkie will report back to the president when he returns to this country not later than Oct. 15.

The president hoped Willkie would impress upon the nations he visits and the leaders with whom he confers the comparison between the world that will result from the United Nations victory, and that which would result from an axis victory.

As his discussion of Willkie's trip turned into a commentary on American production, a reporter pointed out to the president that statements had been made by labor leaders and some congressmen that American production actually is falling off.

The president said this depended on what paper you work for, and stated his belief that isolated strikes were so reported by the news agencies of this country to make the situation seem much more serious than it actually is.

The fundamental problem of production in this country today, he said, is getting raw materials to plants. He said the priority system sometimes did not work out, but added that the very use of the system signified there are enough raw materials to go around.

Asked whether he was satisfied with production, the president said no and that he never would be, but he added that he was not blue about the situation.

Emphasizing that this is a world war, he said the United Nations did not yet have enough implements of war to go around. As an example, the president said, he would like to have 1,000,000 American troops in Australia but they just could not be put there. The trip was Willkie's own idea.

Captured Jap Plane Flown By American

CHUNGKING, Aug. 21—(AP)—A captured Japanese army plane has been taken up for test flights over China by Major David L. Hill of Hunt, Tex., and may be used for practice dogfights by Brig. Gen. Claire L. Chennault's Flying Dragons.

Hill, six-foot two-inch former American volunteer group pilot and now a member of Chennault's force, had trouble crowding his lanky frame into the seat built for pint-sized Japanese.

"My darn knees were up to my chin," he said.

The plane, a 1940-model I-19 was seized by the Chinese last year when it was forced down in Fukien province.

"The short turning radius and maneuverability of the plane are unbelievable," said Hill. "It takes off and lands with very short runs. Instruments are simple and all gadgets are handy. It has no armor plating and no self-sealing gas tanks, which are sacrificed for performance."

Stricter Rationing Of Tires Necessary

WASHINGTON, Aug. 21—(AP)—With September tire quotas facing a reduction from the August level, the office of price administration called upon local rationing boards today for the "strictest possible interpretation" of recent regulations restricting truck eligibility to essential vehicles.

Trucks still on the eligible list include those necessary to the war effort or public health and safety.

In a letter to local boards, the OPA said the war production board, which allocates rubber for military, civilian and other uses, had notified that allotments of tires must follow a downward trend for the remainder of 1942.

The OPA in July ordered that tires be denied to an estimated 200,000 vehicles carrying alcoholic beverages, soft drinks, candies, furs and other luxury goods.

Tire quotas have been increased monthly for the last five months to provide additional requirements during the hot weather. With a reversal of this trend, the OPA asked local boards to consider each application in the light of the month's quotas, instead of carrying unfilled applications from one month into the next.

Flashes Of Life

By THE ASSOCIATED PRESS

ELKHART, Ind.—Most men regard leaving home to go to war as a stock story to tell their grandchildren someday—but not Kenneth N. Kress, 43-year-old draftee.

His two grandchildren, youngsters of Mrs. Robert Cusemeyer, his daughter, were there to see him off as he left for the army.

WROG-WAY CANDIDATE

SPOKANE, Idaho, campaigning for congress, left New York, Wash., on a rural tour and received a hearty welcome at every hamlet.

Encouraged, Albi came right out and asked an old timer to vote for him.

"Be glad to," the bearded man replied, "only I can't vote in Washington. This here's Idaho."

LAST STRAW ITEM

KANSAS CITY—Herman Westhoff, postman on vacation, walked three miles from his home to a service station, and three miles back again.

He wanted to pay for the gasoline he had used in recent days. He couldn't use the car for the trip—his tires had given out.

COLLECTOR

KANSAS CITY—City Manager L. P. Cooingham accepts—very eagerly—passes to every entertainment and sports event—but he always pays his way.

He saves the passes and pastes them all in a scrapbook, unused.

DOWN THE HATCH

CIMARRON, Kas.—Santa Claus here, they call it in this western Kansas community.

Lacking storage space, Leigh Warner leased a five-section railroad workers' apartment building, boarded up doors and windows—and poured the wheat down the chimneys.

Keep Mum, FDR Tells Officials

WASHINGTON, Aug. 21—(AP)—Declaring heas of some government agencies were talking too much, President Roosevelt today directed all government administrators to refrain from public debate of controversial questions of policy and to stop criticizing each other in such controversies.

Mr. Roosevelt said that such airing of divergent opinions in the public press were being seized upon and exploited by enemies of the United Nations. In identical letters to the heads of each department and agency, the president said:

"Disagreements either as to fact or policy should not be publicly aired, but are to be submitted to me by the appropriate heads of the conflicting agencies.

"The policy of the government should be announced by me, as the responsible head thereof. Disagreements as to facts can be resolved, if necessary, by investigations and surveys directed by me.

"Will you please see to it that your particular department and its various bureaus and divisions comply with these instructions."

Stricter Rationing Of Tires Necessary

WASHINGTON, Aug. 21—(AP)—With September tire quotas facing a reduction from the August level, the office of price administration called upon local rationing boards today for the "strictest possible interpretation" of recent regulations restricting truck eligibility to essential vehicles.

Trucks still on the eligible list include those necessary to the war effort or public health and safety.

In a letter to local boards, the OPA said the war production board, which allocates rubber for military, civilian and other uses, had notified that allotments of tires must follow a downward trend for the remainder of 1942.

The OPA in July ordered that tires be denied to an estimated 200,000 vehicles carrying alcoholic beverages, soft drinks, candies, furs and other luxury goods.

Tire quotas have been increased monthly for the last five months to provide additional requirements during the hot weather. With a reversal of this trend, the OPA asked local boards to consider each application in the light of the month's quotas, instead of carrying unfilled applications from one month into the next.

Flashes Of Life

By THE ASSOCIATED PRESS

ELKHART, Ind.—Most men regard leaving home to go to war as a stock story to tell their grandchildren someday—but not Kenneth N. Kress, 43-year-old draftee.

His two grandchildren, youngsters of Mrs. Robert Cusemeyer, his daughter, were there to see him off as he left for the army.

WROG-WAY CANDIDATE

SPOKANE, Idaho, campaigning for congress, left New York, Wash., on a rural tour and received a hearty welcome at every hamlet.

Encouraged, Albi came right out and asked an old timer to vote for him.

"Be glad to," the bearded man replied, "only I can't vote in Washington. This here's Idaho."

LAST STRAW ITEM

KANSAS CITY—Herman Westhoff, postman on vacation, walked three miles from his home to a service station, and three miles back again.

He wanted to pay for the gasoline he had used in recent days. He couldn't use the car for the trip—his tires had given out.

COLLECTOR

KANSAS CITY—City Manager L. P. Cooingham accepts—very eagerly—passes to every entertainment and sports event—but he always pays his way.

He saves the passes and pastes them all in a scrapbook, unused.

DOWN THE HATCH

CIMARRON, Kas.—Santa Claus here, they call it in this western Kansas community.

Lacking storage space, Leigh Warner leased a five-section railroad workers' apartment building, boarded up doors and windows—and poured the wheat down the chimneys.
