

Farmers May Get Feed Wheat Again

Feed wheat to help county farmers meet livestock and poultry goals is again available from commodity credit stocks, Geo. W. Platt, chairman of the county A. A. committee, announced Thursday.

The feed wheat program, halted a month ago when the original allocation of 125,000,000 bushels was exhausted, has been resumed as a result of passage of a bill by congress authorizing the sale of another 100,000,000 bushels of government-owned wheat.

Under price schedules announced for April, the wheat is available in this county at a cost of \$1.05 a bushel, or \$34.97 a ton. Sale will be announced by periods as under the previous program.

Under the original program, wheat was offered at the equivalent of 85 per cent of the corn parity price. The bill passed by congress last week authorizing the sale of an additional amount increased the price to the equivalent of full parity for corn.

Livestock producers, dairymen, poultrymen, and other feeders, as heretofore, may buy wheat for feed through dealers, county A. A. committees, or direct from commodity credit corporation, but when placing orders they must state the quantity of feed wheat on hand and their estimated monthly requirements. Orders will be accepted for a quantity which together with the quantity on hand will not exceed a three months' supply.

Local feed mixers and dealers when placing their orders must state the quantity on hand unsold and estimated monthly requirements. Their orders will be accepted for a quantity not in excess of two months' requirements including the quantity on hand unsold.

Health Officer To Take Special Course

Dr. C. R. Lindgren, Lane county health officer, is planning to leave April 10 for Hot Springs, Arkansas, to take a month's intensive course on treatment of venereal diseases. He is being sent by the state health department. He expects to be back in his office soon after May 10.

An increase in the number of cases of venereal diseases has been noted by the state department the past year or more, due largely to war conditions, it is believed, and it is for this reason that different county health officers are being given this intensive course.

Girls' League Day At Uni-Hi Is Planned

Friday, April 2, will be Girls' League Day at University high school, which is one of the most important events of the entire year. The theme for the day and for the dance to be held in the evening, is "Comic Cut-Ups."

During the day the girls take over the teaching staff and the regular teachers act as students. This year Marilyn Rowling will serve as principal, taking the place of R. U. Moore.

At 10:30 in the morning the girls will present an assembly with each class of girls presenting an original skit. Features will complete the program with speeches from the members of the day's "faculty."

The main event of the evening will be the crowning of "Dagwood and Blondie" at a sport dance. The voting to be carried on for the election of these characters will be done with war stamps. Each organization in the school selects two candidates to run for the comic characters and the entire student body does the voting.
