

### Jefferson Shrine Dedicated By FDR

WASHINGTON, April 13.—(AP)—President Roosevelt, dedicating a marble temple to Thomas Jefferson, declared today that those fighting today's war would learn what Jefferson knew—that the "seeming eclipse of liberty can well become the dawn of more liberty."

of our own time will come to learn that old lesson," the president said. Surrounded by high officials, diplomats of many nations and many descendants of the author of the declaration of independence, the chief executive said in the dedication of the shrine to freedom that the nation is paying a debt "long overdue" the third president. The words chosen for the memorial, he said, were Jefferson's noblest and carried the champion of freedom's most urgent meaning. These words are: "I have sworn upon the altar of God, eternal hostility against every form of tyranny against the mind of man." The president said: "Today in the midst of a great war for freedom, we dedicate a shrine to freedom."

### WE LIKE TO DRIVE OUR AUTOMOBILES FOR BUSINESS OR LIMITED PLEASURE

It would be inconvenient to be deprived of their use. This is just what may happen if car owners fail to realize the importance of the new FINANCIAL RESPONSIBILITY LAW which becomes operative on June 9th, 1943. Every owner of an automobile who does not have Bodily Injury and Property Damage Insurance—or \$11,000 in cash—or cannot post a bond, faces the possibility of being deprived of his driver's license, his car registration, and the right to drive for 2 years if involved in an accident.

Your best bet is a reliable insurance policy issued by the top companies represented in our office at extremely low war-time rates.

### THE TOWN PUMP

BY Stan

SPEAKING FOR YOUR STANDARD SERVICE MEN AND WOMEN

### More greasing — less gassing!

You may never have realized that regular greasing, plus transmission and differential lubrication, can improve your gas mileage as well as protect your car. Much of the gasoline you use is only to overcome friction inside your car. Proper and frequent lubrication can keep that friction down to a minimum. Manufacturers' specifications for most cars call for greasing at each 1000-mile period. And you know we are experts at lubrication.

### THE NATION'S RATIONS

**GASOLINE**—Coupon 8, A Ration Book, good through May 21.  
**SUGAR**—Coupon 12, Book One, good for 5 lbs. through May 31.  
**COFFEE**—Coupon 26, Book One, good through April 25.  
**SHOES**—Coupon 17, Book One, good through June 15.

**VEGETABLES AND FRUITS (Processed)**—Blue Stamps D, E & F, Book Two, good through April 30.  
**MEATS, FATS, ETC.**—Red Stamps, A, B, C, Book Two, good through April 30.  
**FUEL OILS**—Coupon 5, Zones A, B, and C, good through September 30.

### Make Every Coupon Count!

One of the things that we're mighty proud of is the way our refineries, with all their heavy wartime burden, have been able to maintain rigid control of Standard Gasoline's quality. Whenever you buy Standard Gasoline, you get quality even higher than the specifications Uncle Sam sets for military motor fuel. Standard Gasoline—Unsurpassed, makes every coupon count.

## STANDARD TAKES BETTER CARE OF YOUR CAR

STANDARD OF CALIFORNIA

"To Thomas Jefferson, apostle of freedom, we are paying a debt long overdue. Yet, there are reasons for gratitude for this occasion falls within our time; for our generation of Americans can understand much in Jefferson's life which intervening generations could not see as well as we.

"He faced the fact that men who will not fight for liberty can lose it. We, too, have faced that fact. He lived in a world in which freedom of conscience and freedom of mind were battles still to be fought through—not principles already accepted of all men. We, too, have lived in such a world."

### Japs Complete

(CONTINUED FROM PAGE 1)  
fields would provide the enemy with a string of stepping stones from Tokyo, which even fighter planes could span. Kiska and Attu are 195 miles apart. Attu is the island which the Japanese once almost completely evacuated after their original occupation. Reconnaissance showed reinforcements there again last in 1942, after the strength previously had been shifted to Kiska to offset the new American base in the Aleutians.

The anti-like industry of the enemy opens a wide field of conjecture as to Japanese intentions. They may be getting set to repel a naval bombardment with Zeros, to harass our advance bases if possible, to hit our shipping lines or to launch an offensive against Alaska, in a repetition of apparent plans which went awry at the time of the Dutch Harbor bombing last June 4.

**Fog Aids Japs**  
Outfitting and supplying the fields poses a major problem for the Japanese, but the enveloping fog of the Aleutians is an aid in the effort. What airmen refer to as "stinking weather," all too frequent in the Aleutians, is an aid to plans of running the gauntlet with ships.

The last reported Japanese effort was March 26 when two or three cargo ships approached the Aleutians under heavy cruiser and destroyer escort. A U.S. navy task force of half the enemy strength sent that Japanese convoy, which apparently carried vitally needed supplies, scurrying westward.

To date, 15 Japanese ships have been listed as destroyed by navy guns, torpedoes and bombers in the Aleutians theater. The Kiska runway is being built by cut-and-fill tactics along a ridge. Bulldozers, 50 light trucks, hand-propelled trucks and narrow-gauge rails are believed to be in use in the all-out effort. Four heavy anti-aircraft batteries have been throwing heavy fire at our aircraft and another appeared under construction today.

### Dr. Walker Attends Surgeons' Meeting

Dr. Milton V. Walker of the Walker Clinic left Tuesday for San Francisco to attend the American College of Surgeons meeting in that city. This year the college of surgeons is holding a war session program for the medical profession and hospital executives. Reports on the operative experiences of injuries from the Pacific combat area will be given, presentation of new appliances for the care of war injured, and plastic surgery or rehabilitation of the war injured are among the many subjects to be presented.

### Post-War Plans

(CONTINUED FROM PAGE 1)  
speakers expressed themselves strongly in favor of devising a program not only to create work but to give the city a sound and beautiful setup for its future growth.

It was pointed out that the Eugene-Springfield area already has more than 42,000 population in spite of war drain, that the return of veterans from war, especially in Asiatic country, will bring the danger of malaria, dysentery and many other diseases new to this country for which protection will depend on adequate sewage and sanitation and health programs.

Further discussion of the "\$5,000,000 Stockpile" before many different groups are contemplated. The speakers pointed out that although the project seemed to call for 12 mills of extra taxation in the Eugene area, this extra millage would be more than offset by special levies now completed and by some 15 mills for debt service which will not be needed after 1946 or 1947.

### Seven Get AWS Medals

AWS medals for 300 hours of service at the Eugene filter center this week were awarded to seven women, announces Ray F. Sigenthaler, signal officer in charge. They are: Miss Thelma Neaville, Mrs. John B. Perry, Mrs. C. I. Small, Mrs. A. J. Ball, Mrs. J. H. Gimblet, Mrs. J. L. Hesse, Mrs. Beula Murray. He also reported that Mrs. Myrtle Kidwell has served 500 hours in the matrons' room and in the filter center.

### Dog Law Now To Be

(CONTINUED FROM PAGE 1)  
funds so that the agency will be in part, self-supporting. Sidney W. Claypool, society secretary, made the request for "a definite amount of financial backing together with an unlimited amount of moral support" from Eugene. Besides provision of suitable quarters, the group asked for the following monthly operating expenses:

Salaries \$150.00; light and water \$10.00; food for animals \$20.00; auto expense \$25.00; heat \$5.00; telephone \$6.75; veterinary and medical expense \$25.00.

The annual cost will be about \$3,000, which Vern Hawn, head of the police committee which studied the plan in advance with the society called "conservative." Marion F. McClain, society member who appeared with Mr. Claypool, stated that humane societies in every other city in western Oregon have eventually become self-supporting. Mr. Hawn, on advice of S. M. Calkins, city attorney, reported that state law requires that every dog have a license whether chained or not.

The ordinance specifically provides that dogs not be allowed to run loose during the six "garden months" beginning each April 1. Dogs will be impounded if caught running loose. Mr. Hawn assured the group that enforcement would be in active operation before the next council meeting on April 26. The regular dog license fee is \$1 for males, \$1.50 for females; and since March 1, deadline for 1943 fees, \$2 for males and \$2.50 for females. The council briefly debated raising of the fees for 1944.

The council approved purchase of five acres of land from the county at \$200 per acre as a site for the new swimming pool. The site is south of the Amazon near the fairgrounds, a place which had earlier been agreed by a special citizens' committee as the "best central location available."

A curb which will prevent sidewalk parking was ordered constructed in front of the Drive-In Market and the Dutch Dairy, 1222 and 1224 Willamette. A joint driveway will be provided for customers.

new restaurant being readied at 1018 Willamette, until glass bricks arrive for reconstruction. In recognition of his 30 years' service for the street department, C. A. LeVan, retired, was presented with an easy chair and one month's salary, which the council unanimously declared were small tokens of their appreciation for his work.

Truckers will hereafter be charged \$2.50 for each load of sludge they dump at the city dump, and an advance deposit will be asked of all dumpers, the council agreed. Briefly discussed was the problem of mosquito control, which is expected to become serious with arrival of men being shipped back from fighting in the South Pacific. Mayor Elisha Large said he considered this a "county problem," and expressed hope that action would be taken to avoid any threatened epidemics of tropical fevers, which may be caused as mosquitoes transmit the malaria organism from infected persons to well individuals. Request from Dr. C. R. Lindgren, director of the county health department, was read, asking for "immediate aid so as to eliminate the middle link of the chain, the mosquito, at its breeding grounds."

The council accepted bids for city lots from Robert Broderick, west 75 feet of lot one, block 15, College Hill Park, \$100; Mrs. W. L. Scroggs, lot five, block two, Maplecroft addition, \$800; McCully Real Estate, lot three of block two, Shelton's second addition, \$200; L. C. Pope, part of lot four, block three, Fairmount addition, \$250. Fire insurance on a city house at 233 North Polk for \$1,000 was approved.

The financial committee's proposal to raise the pay of W. L. Wood and Roger Bale, street department employees, was held over for discussion at the next meeting. Winfield Mullins was appointed street foreman. Request for demolition of an "unsafe and unsanitary" barn at 864 Fourth avenue west was referred to the health department.

The city attorney was instructed to write R. S. Shelley asking that "necessary steps" be taken to eradicate unsanitary conditions on his lot on east side of Kincaid between Twentieth and Twenty-first. The group went on record as favoring no decrease in activities of the city playground commission during the coming year, considered necessary to discourage juvenile delinquency. The work of Miss Florence Alden, director, was praised.

PHILADELPHIA, April 12.—A second cup of coffee and dining rooms of leading Philadelphia hotels now come to Seven large hotels agreed to furnish a second cup if the agreed to purchase a war bond-selling booths set up in dining room.

**PENDELTON COUNCILMAN**
